**AGED CITIZEN
FOUND DEAD****J. J. Allison's Lifeless Body Is
Discovered by His
Daughter.****HE EXPIRED IN A BARN****While Attending to Chores About
the Place This
Morning.****A VERY WELL KNOWN MAN**

Gasping his last breath, Jonathan J. Allison, of West Second street, was found this morning about 10.45 o'clock in the barn at the rear of the family residence, by his daughter, Miss Ida Allison. There was no answer to the girl's startled cry, "Father, what is the matter?" She hastened to his side, but the spirit had departed.

Mr. Allison had left the house but a few moments before to do some chores around the barn. He had complained during the morning of cramps and had come to the house for something to relieve the pain. He was given a mixture of pepper and water and told the members of the household that it relieved him. They tried to induce him to remain at the house but he persisted in returning to the barn.

In that structure is a small room formerly used as a corn crib but lately fitted up by Mr. Allison for a reading room and there he spent considerable time.

Mr. Allison was 74 years of age and until about two years ago had been a teamster. He was born and reared in Hancock county, coming to this city 22 years ago. He was a highly respected and well liked citizen, kind and charitable. Besides the widow he is survived by seven children, two brothers and one sister. The children are Frank and Grant Allison, of McDonald, Pa.; Oscar Allison, Avondale street, this city; Mrs. Agnes Elert, Prospect street; Mrs. John Willison, Third street; Mrs. Maggie Brown, Chester, and Miss Ida Allison, at home. The brothers and sisters are Peter and Alexander and Mrs. John Hunter, all of this city.

Mr. Allison was a member of the First Presbyterian church and the funeral services will likely be conducted by his pastor, Rev. C. G. Jordan.

Candidate for Assembly.

Columbus, May 21.—(Special)—Ex-Representative Charles McGlinchey, of Tuscarawas county, a brother-in-law of Contractor Ed Cook, of East Liverpool, may be a candidate for a third term. He served in the Seventy-third and Seventy-fourth general assemblies, and was one of the best debaters on the minority side. There is another candidate for the nomination, but there is doubt of his ability to win as McGlinchey stands high with the voters, having been honored twice by them.

Nominated for Judge.

Hon. S. W. Durlinger, of London, a relative of Mrs. Ed Knowles, of East Liverpool, was one of two candidates nominated for common pleas judge by the Republican convention of the second sub-division of the Fifth judicial district at Circleville yesterday afternoon. The convention adjourned on the nomination of a third candidate and adjourned to meet at Washington Court House May 28. Mr. Durlinger was named for the long term.

Many Veterans Will Attend.

Lisbon, May 21.—(Special)—From present indications it is expected that fully 2,000 civil war veterans will be in Lisbon to participate in the G. A. R. day exercises during the centennial. The East Palestine delegation will come on horseback.

Court Assignments Passed. Lisbon, May 21.—(Special)—The court assignment for Thursday and Friday of this week has been passed on account of the funeral of Judge Hole's uncle, Jacob Schilling, of Salem, this afternoon. The jury was excused until a week from Monday.

Licensed to Wed.

Lisbon, May 21.—(Special)—A marriage license has been issued to John E. Diddle and Lizzie G. Tote, both of East Liverpool.

Frederick D. Frey, of East Palestine, and Vurbia L. Ferrall, of East Fairfield.

**REPAIRING ROADS
WITH FURNACE SLAG****An Experiment Begun at Salineville
Which Promises Good
Results.**

Salineville, May 21.—(Special)—The Fex Township Good Roads association received its first consignment of slag from the Leontia furnaces this week. The cars, eight in number, were transferred from the main line of the C. & P. to the branch and placed on the switch near the Hethrington mine.

Samuel Toban, who has charge of the district west of town, was busy Monday with about 15 teams hauling the slag from the flats to the road just west of the corporation line. The work was commenced at the county line and will be extended west covering about 16 feet of the road which in many places is entirely too wide, and to cover all the road would be almost impossible, as thousands of tons of slag would be consumed.

The workmen are placing the slag about six inches deep on the main part, and gradually slope it down to the drains on each side. The roads have been worked with a road making machine and are in excellent condition for the improvements to be made. Good drains on each convey the water off the road, and in many places new tile have been placed for culverts. This is the first movement of the Good Roads association near Salineville, and everybody is highly interested in the work, and will lend every effort to have all the roads leading to the village put in excellent condition.

**WITH BARE FEET
AND SCANT ATTIRE****Woman Walked the Streets in
Search of a Police
Officer.****CHARGE OF CRUELTY MADE**

Barefooted and scantily dressed, Mrs. James Welch, of Fourth street, attracted much attention and caused considerable wonderment among spectators on the streets last night between the hours of 12 and 1, when she ran up and down the thoroughfares, crying aloud and stating that she was on the hunt for a policeman.

She finally ran across Officer Aufderheide, at the intersection of Franklin avenue and Sixth street and while tears flowed down her cheeks in profusion, she related a sad tale. Marks on her neck and her haggard appearance convinced the officer that she was stating facts, and when she asked that he accompany her home he readily consented to do so.

Upon their arrival at the Welch home the officer found things topsy-turvy. The husband had come home, and for some unknown reason, created a rough house. It is alleged that he first broke down the front door and then seized his wife by the neck and cruelly choked her. She stood his actions until forced to leave to free herself from bodily injury. She first applied at the city hall and afterwards went over numerous streets. Officer Aufderheide succeeded in quieting the man and left them.

**AWARDED \$250
IN \$5,000 SUIT****Case of Mrs. Law Against East Pale-
stine Settled Before Going
to the Jury.**

Lisbon, May 21.—(Special)—The \$5,000 damage case of Mrs. Mary Law against the village of East Palestine was settled last evening before it got to the jury, the plaintiff accepting \$250 damages. Court then adjourned until next Monday at 1 o'clock and the jury was excused until Monday, June 1.

TORMENTED BY DEVILS**An Insane Man Who Lately Joined
Church Is Greatly
Troubled.**

Lisbon, May 21.—(Special)—Andrew Erickson, of East Palestine, a Norwegian, in probate court last evening was adjudged insane. His insanity is of a peculiar nature. He is said to have joined church a few weeks ago and now sees devils who try to tear him to pieces and is kissed by angels. He is 35 and single, and has been an industrious coal miner and has prospered.

**SAFETY BOARD
STARTS WORK****A Harmonious and Business-
Like Session Held Last
Evening.****CLASSIFICATION IS MADE****Of Police and Firemen As an In-
spiration to Faithful
Work.****JAIL REFORM DEMANDED**

With representatives of the press, Mayor Weaver and Chief Wyman as auditors, the board of public safety held a short but very important session in council chamber last evening. It was its first regular meeting, and the many preliminary proceedings incident to the commencement of actual work were taken up, and after due consideration many formulas were adopted.

It was decided that all meetings be conducted in accordance with parliamentary rules. President Grafton addressed the board at the very outset and in a neat little speech gave the members some advice well worth remembering. One point he made with emphasis, that perfect harmony should exist at the meetings and that no two members talk at the same time. He then presented an order of business that he had prepared and it was unanimously adopted.

E. N. Huntsman was appointed to act as clerk of the board for the ensuing two years. The question of salary was talked of and it was thought by the members that council showed a generous spirit when the allowance of \$10 was granted the clerk. Mr. Huntsman made it understood that he would never have applied for the position had he thought he would not have been both clerk of the board and mayor's clerk. It was in anticipation of \$10 per month that his application was filed. He, however, concluded to accept the honor.

A communication had been received asking for the privilege of attaching a fire plug to an 8-inch water main recently laid by the Brunt Pottery company. The company agreed to stand all the expense and was granted the right. Mr. Taylor made the statement that he would never approve of the expenditure of a penny until the city is relieved of its present financial embarrassment, but as the pottery company had agreed to bear the expense he had no objection to it having the plug.

The condition of the streets from the standpoint of the board's jurisdiction was taken up, but there was no definite action. It was the sentiment of all that just as soon as the rules and regulations are drafted for the covering of action under the direction of the board, the police shall be instructed to see that all city ordinances are carried out to the letter. This will mean considerable study of the ordinance book by the officers.

One member thought that the police should be instructed at the present time to take notice of the rubbish etc., that lies around on the streets and rectify those responsible to remove it.

Three applications for positions were received and read by the clerk. They were from Thomas Betteridge, St. John street, who has aspirations to be a fireman; John Beardmore, West Market street, and John McVey, Broadway, both of whom want to be policemen. The application of McVey was accepted and placed on file, but the others were rejected owing to the prescribed formula not being adhered to. The clerk was instructed to inform them of the mistake.

The next order of business was to classify the two departments that come under the public safety head, the police and firemen. After much discussion a motion was made by Mr. Taylor that the police department be divided into two classes, as follows: One chief and eight patrolmen. When the classification of firemen was taken up none were satisfied for a time as to the proper course to pursue. Chief Wyman suggested a plan which was adopted and the department will be divided as follows: A chief, assistant chief, captains and firemen. When the fire station is erected on the northside it will be necessary to have at least two captains. One will serve in the East End and one on the Northside. It was the desire of the board to

classify the departments into as many positions and ranks as possible, in order that the people serving in either department will have an inspiration to work for higher berths. Under the merit system a man is promoted only as he deserves it, and the more the ranks the better chance a man will have.

Messrs. Taylor and Dawson were appointed by the president to draft rules and regulations governing the two departments. They are to be ready at the next meeting if possible, and if they are acceptable to the other members they will be adopted.

It was decided that a date be set for the holding of an examination for those who wish appointments and the board finally decided on the evening of June 9. The examination will start at 7 o'clock and will be held in the council chamber.

Mr. Dawson had inspected the jail and was dumfounded when he saw the condition of the women's department. He thinks that some provision should be made where a new apartment shall be erected. He favors tearing down the old frame shack and replacing it with a brick structure. Chief Wyman stood by Mr. Dawson in his remarks and stated that a person confined in the iron cage when a fire starts would be burned like a rat in a trap. It was recommended that steps be taken to have some one around the city hall at all times. The matter will be taken up at a later meeting.

The board adjourned to meet on next Wednesday evening, that day of the week having been decided upon for the weekly meetings. The members will inspect the central fire station this evening.

**BRIGHT OUTLOOK
FOR UNION MEN****Encouraging Reports Are Made to
Trades Council
Meeting.****LABOR TROUBLES ENDING**

Never before in the history of East Liverpool has the industrial outlook been more promising from the standpoint of the trades unions than at present. There have been few meetings of the trades council within the past six months that a grievance of some sort was not brought to that body for adjustment. Though the meeting last night was no exception to this rule, there were so many encouraging reports from organizations, whose members had previously been in trouble that the session was unusually gratifying.

Seven new delegates were seated at the beginning of the meeting, and the routine business was passed over with dispatch. Several communications of an important nature were received, and in each instance the action taken was prompt and effective.

There has been a movement on foot in the union organizations of the state of Missouri for some time, having for its object the adoption of a plan to elect the representatives to the legislature of that state by the referendum plan. The efforts of the Missouri unionists had been successful, and it was urged that the tradesmen of Ohio take up the movement. The communication was received, and if the local council sends a delegate to the meeting of the Ohio Federation of Labor, the matter will be placed in his hands.

At the last meeting of the council a communication was received from the tobacco workers of Louisville, Ky., containing the information that a tobacco company of that city, had refused to recognize the union. As the concern manufactured a number of popular brands a committee was appointed at that time to visit the merchants of this city and ask that they discontinue the sale of the company's output until a settlement could be effected. It seems the trouble at Louisville was of short duration, since a communication from there informed the council that the difficulty had been amicably adjusted. The committee and the members of the body will take steps at once to prevent the tobacco company's patronage in this city from being injured.

The delegates from the plumbers' union, the members of which have been on strike for several weeks, reported there was nothing new in the situation, but that they were determined to win, and that the prospects for doing so were never more promising. An even more encouraging report

**ZIMMERMAN
STATES CASE****Sesquipedalian Words Which Im-
ply That He Is Not In
the Race.****TOM JOHNSON HAS FROWNED****And the Former Columbiana Coun-
ty Man Does Not Dare
Talk.****NO CHANCE OF NOMINATION**

Columbus, May 21.—(Special)—While in Columbus yesterday, Hon. John L. Zimmerman, of Springfield, the former Columbiana county man, delivered himself of a statement sparkling with luminosity with regard to his candidacy for the Democratic nomination for governor. It will be observed that he is long on ponderous words. Here it is:

"If the logic events render it expedient that the minority party of Ohio considers it imperative for a restoration of the conditions precedent to the sequence of fortuitous episodes culminating in the apotheosis of discontent expressed at the last fall election, the consensus of opinion pointing to the wisdom of the course, I may deem it advisable to abandon my present reserve and speak without ambiguity relative to the consideration of the proposition to permit myself to be named as possibly receptive to influences that might induce me to declare my position."

The average wage earner will appreciate the lucid terms employed by Mr. Zimmerman in making known his attitude. Reduced to a synthesis the statement means he is practically out of the race. At the start it was all Zimmerman but it is understood Tom Johnson has frowned upon his candidacy and at present it seems to be all day with him.

**SURPRISED FRIENDS
BY GETTING MARRIED****F. G. CROXALL AND MRS. POL-
LOCK WEDDED QUIETLY.****Both Are Well Known And Highly
Respected Residents of
the City.**

The many friends of Frederick G. Croxall and Mrs. Anna Pollock were immensely surprised—agreeably, however—this morning when the news leaked out of their marriage. Both are lifelong residents of the city and command the highest respect of the entire community. It had been whispered a little of late that Cupid's dart had touched the hearts of the couple, but none were expecting the nuptial event to occur so soon, and the surprise was genuine.

The ceremony was performed at the First M. E. parsonage at 9 o'clock last evening by Rev. Dr. Pratt. The couple had been to prayer meeting together and at the conclusion of the services bled themselves to the parsonage just as they did some 35 years ago when they first took unto themselves helpmeets. The marriage was conducted in a very unpretentious manner, only the contracting parties, witnesses and the minister being present.

The groom resides on Fourth street. He is at the present employed at the Union pottery in the capacity of warehouse foreman and is one of the best men in such a position in the city. Mr. Croxall is a veteran of the civil war, a director of the Potters' Building & Savings company; a member of the Pennsylvania avenue assessing board and one of the prominent members of the Masonic lodge. His efforts for the betterment of the city by living an upright, honest and industrious life have caused him to be one of the foremost residents of the city.

The bride is also a resident of Fourth street. She is the widow of the late Daniel Pollock, and is a most estimable lady. Both parties have children that are married. Scores of friends wish the couple a long and happy life.

fused J. H. Butler—W. B. Ran-
dolph Gets Divorce.**

**FIGURES WATCHED
WITH EAGERNESS****Numerous Evidences of Popular
Interest in News Review
Prize Contest.****NO CHANGE IN POSITIONS**

New York has regained the lead in the National league of ball clubs, but there has been no change in the standing of the contestants in the News Review's popularity contest. That the candidates are as hard at work as ever is seen by the constantly increasing number of votes. A change in the standing of the candidates would evoke much more comment than that in the big league race. Whether or not the candidates will finish as they now stand is causing a great deal of conjecture. Some of those apparently outside of the coveted circle claim that they are prepared for a Garrison finish. At any rate, the figures will be closely watched every day by thousands.

The following candidates have received 100 votes or more: Thomas Neal, Riverside Park, 22,014; Thomas Lownds, Fourth street, 15,847; J. E. Anderson, Lincoln avenue, 14,923; Matthew Curran, Jethro street, 8,576; Walter S. Crewson, Sebring, 5,461; George Millward, city, 2,868; Wash Williams, city, 1,921; J. A. Morrow, city, 872; William Mayer, Bank street, 607; Major Adams, city, 293; John Cowey, city, 248; George Smith, Fourth street, 207; John O'Shea, Fourth street, 205; Michael Callahan, Sunnyside, 150; T. J. Duffy, city, 103; Andrew Brannen, Wellsville, 100.

The ceremony was performed at the First M. E. parsonage at 9 o'clock last evening by Rev. Dr. Pratt. **CONDITION
IS CRITICAL****Nuzum, the Man Shot at Elkton,
Not Likely to
Survive.****ASSAILANT UNDER BOND****Claims That the Shooting Was Ac-
cidental, Not In-
tentional.****SYMPATHY IS WITH CLUNK**

Lisbon, May 21.—(Special)—Frank P. Nuzum, the man who was shot at Elkton yesterday morning, passed a very restless night and continues in a critical condition this morning. The physicians have but little hopes for his recovery.

Anthony N. Clunk, who is in jail here for the shooting, reiterated in an interview last evening substantially what was given out yesterday. Clunk now denies the report that he had expected undue intimacy between his wife and Nuzum. He says he had gone home sick from his work at the Klondike coal mines. On his way to the mines yesterday morning he found that he would again be unable to work and returned home.

When some distance away from the house he saw Nuzum enter and a few moments later, when Clunk was in the yard, he heard Mrs. Clunk scream four times. Pushing open the kitchen door, he learned that the disturbance was in an adjoining room and opened the door.

When Nuzum saw Clunk, he jumped up and ran toward the door in which Clunk was standing. Clunk says he did not know whether Nuzum was trying to get away or whether he was going to attack him, and opening a clothes press just by him he took out a shot gun. He says he did not intend to shoot and thinks that in raising the hammer it slipped from his grasp, discharging the load. Nuzum fell exclaiming that he was shot.

Clunk said: "I didn't intend to shoot you." And Nuzum, he says, replied: "I don't think you did."

Clunk then hurriedly summoned medical aid. He says Nuzum's son has been a boarder at their house for some time and that the families have been quite intimate. Mrs. Clunk and Mrs. Nuzum having been related. Since the death of Mrs. Nuzum last winter her husband has boarded himself at his own home and Clunk has done most of his dealing at Nuzum's store in Elkton. Nuzum is 50 years old and Clunk is 44.

It seems to be the general impression in Elkton, Clunk's story notwithstanding, that there has been some ill feeling between Clunk and Nuzum on account of the latter's alleged intimacy with Mrs. Clunk and it has even been reported that at one time Clunk ordered Nuzum to keep away from his premises. Clunk has also borne a good reputation and he has the sympathy of the people. It is said that he can procure bail for any amount.

Clunk was arraigned in the court of Justice Lodge Riddle this morning, charged with shooting Nuzum with intent to wound. He pleaded not guilty and was held for a preliminary hearing under \$1,000 bond.

Nuzum is doing as well this afternoon as could be expected, but the attending physician says it will be almost impossible for him to survive. The shot, which penetrated his groin, exposed the intestinal membrane and inflammation is almost sure to result.

Called to Sebring. President T. J. Duffy, of the N. B. of O. P., received a message this morning from Sebring that necessitated his presence there. He left on the morning train.

WITH THE WORKMEN IN THE CLAY PLANTS

NARROW ESCAPE.

Park Beauty and Peter Sauls, ghost fishermen at McNicol's, had a thrilling experience Tuesday shortly after the noon hour, and that they are alive and uninjured today borders on the miraculous. Both of the men were at the top of the long steps in one of the kilns with saggers on their heads and were pinning them at the top of the bung. One of the men lost his equilibrium and the ladder began to topple. In spite of their best efforts they were precipitated to the floor of the kiln, a distance of 18 feet. Both men, during their sudden descent, managed to clutch the small ladders, thereby breaking the force of the fall. Several of the bungs were disturbed, but the other members of the crew were soon on the scene and prevented them from falling. All were agreeably surprised when it was learned that both the participants in the thrilling adventure had escaped without the slightest injury.

The accident will recall to kilnmen similar occurrences in the past few years, during which time several men have met death. More people are injured in this way than in any other department of a pottery and the occupation of the kilnmen is certainly the most hazardous. In the accidents of this kind where fatalities have resulted none fell from such a great height as the men at McNicol's.

TRADE CONDITIONS.

The condition of trade among the local potteries has not improved to any considerable extent in the past two weeks, and when the full comes for the mid-summer loaf the present conditions will no doubt still exist. The first half of 1933 has not been entirely satisfactory to the manufacturers as to the volume of business, but in many respects it has been more satisfactory. While many of the firms have done less actual business the profit has been greater, as they have done away with the scheme contracts that were paying them poorly if at all. This rather than the new selling agreement has caused the present dull time. East Liverpool is not alone in experiencing a weak market. None of the potteries at Wheeling were working full during the time of the convention and in other nearby towns the same conditions exist. The decorators have suffered more than the operatives of other departments. Several local plants have done practically no decorating since the first of the year, while they operated fairly well on plain. The manufacturers are confident, however, that the demand for all lines will be much stronger in the last half of the year.

MOORE HAS RESIGNED.

Frank Moore, of the Severs, has resigned his position and has left the business permanently. During the summer months he will be a member of the orchestra at Rock Springs park and in the fall he will go to Morgantown to enter the West Virginia university. Mr. Moore has been operating the gold machine, the invention of W. H. Deidrick, a member of the firm, and his position has been a most responsible one.

A LARGE PLANT.

The new Bell pottery at Columbus, which is to be managed by A. S. Hughes, is one of the largest single plants erected in recent years. It will be 12 kilns to start, but this number will be increased from time to time as the business warrants. The site of the plant is four miles east of the

business center of the city and is reached by an electric, as well as a steam railway. The location offers many advantages. Mr. Hughes will leave this city for Columbus about the first of next month and will direct the preliminary work for the mechanical end. The plant is now under construction, but it will be some little time before the machinery can be installed. The mouldmakers have not started to work yet, and it is estimated that work will not be made sooner than the first of September.

GONE INTO BUSINESS.

Cyrus Bailey, who returned about two months ago from Pittsburgh, where he was under treatment for a number of weeks in a hospital, has opened a confectionery establishment on West Market street. Mr. Bailey was much benefited by his stay in the hospital, but will never be able to return to his trade as a potter.

AMONG THE WORKMEN.

The employees of the Union are having a nice vacation while the changes are being made in the plant. The work will be done by the end of the week.

John Demmerling, the well known fiddler, formerly of Laughlin No. 2, has taken a situation with the Pioneer plant, Wellsville, starting today. He will make basins.

RULES WHICH COVER APPLICANTS FOR JOBS

Those Who Want Places as Police or Firemen Must Stand a Rigid Examination.

Present indications are that many residents aspire for appointment on the police force or fire department. All such appointments will be made by the board of public safety. In view of the large number of applications, the board will pass only those who comply in every detail with the requirements, and at the meeting last evening it was decided to make the examinations thorough.

One member of the board thought that the present force will be compelled to take the examination, but this, it is said, will not hold. The police and firemen are to stay in office until charges are made and proven against them showing them to be incompetent. The board wishes to give every applicant equal chances for appointment and will carry out the provision of the code to the letter. For the benefit of those thinking of filing an application preparatory to taking the examination the following is given:

"Every application, in order to entitle the applicant to appear for examination or to be examined, must state in his own handwriting the facts under oath on the following subjects: First, full name; second, nationality; third, age; fourth, place of birth; fifth, health and physical capacity for public service; sixth, previous employment in public service; seventh, business or employment, and residence for previous five years; eighth, education; ninth, such other information as may be reasonably required by the board touching the applicant's fitness for public service.

"No person habitually using intoxicating beverages to excess shall be appointed or retained in any office, appointment or employment to which the provisions of the merit system are

applicable; nor shall any vendor of intoxicating liquors be appointed or retained. No person shall be eligible for appointment unless he be a citizen of the state of Ohio and the city in which such appointment is made, and shall have been a resident of such city at least one year prior to appointment."

The last paragraph knocks out at least one applicant, who moved to the city from Youngstown about five months ago. He wants to be a policeman, and wants the job very bad. He is qualified in some respects, but his time of residence is not of sufficient length.

UNRICHSVILLE MAYOR IS A CELEBRITY

A Minister Surprises the City That Made Him Chief Executive.

Unrichsville, May 21.—Minister-Mayor James R. Dalling has become a celebrity because he lays a heavy hand on violators of the law, whereas it was expected that he would deal leniently with ordinary cases.

Born in Scotland 34 years ago, Rev. Mr. Dalling has been the pastor of the Unrichsville Moravian church three years. Being the only minister in town who opposed a local option, the "wets" hailed him as a champion and the "drys" opposed him. The fight for the Republican nomination was sharp. Rev. Mr. Dalling won the victory over three good men, his strongest opponent being Attorney W. B. Stevens, Republican candidate for congress in the Seventeenth district last fall.

Though many Republicans voted against him, Rev. Mr. Dalling was elected over the Democratic candidate who had served a year as mayor. It was charged that Rev. Mr. Dalling had never been naturalized. A village patriarch demanded to see his naturalization papers. He was refused. Suit to contest the election was begun by the late mayor. Then it was discovered that the new mayor's naturalization papers bore the name "Darling" instead of Dalling. A trip to Camden, N. J., corrected this clerical error, and the mayor was permitted to take his seat.

Mayor Dalling is scrupulously enforcing the laws as he finds them. The guilty face him with the knowledge that they will be punished. There are no one-dollar fines now. At the minimum the town gets as much as the costs amount to in each case. The maximum, so far, is \$50 and costs and 90 days in the workhouse. The new mayor has made several arrests himself.

He is a classical scholar, speaks several modern languages, is an accomplished veterinary, likes a fire horse, fancies thoroughbred dogs and chickens, smokes, is an all-around athlete, and is his fellow well met with all.

Cured His Mother of Rheumatism.

"My mother has been a sufferer for many years with rheumatism," says W. H. Howard, of Husband, Pa. "At times she was unable to move at all, while at all times walking was painful. I presented her with a bottle of Chamberlain's Pain Balm and after a few applications she decided it was the most wonderful pain reliever she had ever tried, in fact, she is never without it now and is at all times able to walk. An occasional application of Pain Balm keeps away the pain that she was formerly troubled with."

COMMISSION HOUSE BANKRUPT

Porter Brothers Company, of Chicago, in Hands of Receivers—Largest Concern in Country.

Chicago, May 21.—Bankruptcy proceedings against the Porter Brothers company, one of the largest fruit commission houses in the country, were begun secretly in the United States district court Tuesday and receivers have taken charge of the company's affairs. John McLaren, former vice president of the Union National bank, and Henry L. Wilson, a lawyer, were directed by Judge Kohlsaat to take charge of the assets of the corporation. This was done on application of several creditors, who alleged that the concern was insolvent and that its officers had made preferential payments.

Until the return of James S. Watson, president of the corporation, the receivers do not expect to find out much about the financial condition of the company. Attorneys Deftrees, Brace and Ritter, who represent the receivers, said they could not estimate the liabilities or assets of the concern. It is probable, however, that the debts will prove to be larger than the assets, which are worth from \$100,000 to \$200,000.

The concern was capitalized for \$1,000,000 and had a high financial rating. The stores of the company in Chicago are at 37 South Water street and 46 River street. The concern also owns large branch houses in New York, Boston, Minneapolis and at several places in California.

President Enters Oregon.

Ashland, Ore., May 21.—President Roosevelt completed his tour of California and entered upon the last stages of his long trip, which is to end at Washington, June 5. The day's journey had been through the mountainous region about Mount Shasta, where the towns are few and far between, and consequently he has been called upon to do but little speaking. Governor Pardee, of California, who has been with the president almost continuously since he entered that state, bade him goodbye at Hornbrook and in the short address the president delivered at that place he said he was very sorry to part with him. The president made his longest speech of the day at Dunsuir, Cal.

3,000 CANCELLATIONS

Of Promotions of Postoffice Clerks Made Necessary by Excess in Grades.

NO EMPLOYEES TO BE REDUCED

Perry S. Heath Notified of Charges Made by Tulloch—Investigation Will Not Be Completed Before First of July.

Washington, May 21.—The cancellation of the promotions of over 3,000 postoffice clerks throughout the country recently authorized by the department, and a formal notice to former First Assistant Postmaster General Perry S. Heath of the charges made against him by ex-Cashier S. W. Tulloch, of the Washington city postoffice, constituted the developments in the postoffice investigation. First Assistant Postmaster General Wynne reported to Postmaster General Payne that the tabulation of the clerks in each grade in postoffices of the first class had been completed. This work was undertaken in accordance with the order made by the postmaster general to rearrange the salaries of the clerks already classified so that the number in the several grades shall not exceed the number specifically prescribed in the act of congress making appropriations for the postal service. The former classification was made by George W. Beavers just prior to his sudden resignation as chief of the division of salaries and allowances.

The new schedule approved by the postmaster general after transferring 5 per cent from grades where there are vacancies, as authorized by a recent decision of the comptroller of the treasury, makes it necessary to cancel 3,046 promotions in the several grades in which there is an excess above the number to which the grades are limited by law, and in which grades 7,412 promotions have been authorized heretofore. The report says:

"It will not be necessary in any case to reduce any clerk, but simply to cancel 3,046 out of 7,412 promotions heretofore authorized to take effect July 1, 1933. We will proceed at once to ascertain exactly the number of promotions in each grade it will be necessary to cancel at each postoffice and then will inform the postmasters and allow them to select the increases which must be cancelled."

Most of the excesses in the number in the respective grades of clerks scattered throughout the United States at first-class presidential offices are in the \$900 and \$1,000 per annum classes.

The postmaster general sent to Mr. Perry Heath a copy of the charges filed by Mr. Tulloch, together with a letter requesting any information he may care to submit on the subject.

This is the first official communication with Mr. Heath during the investigation. None of the supplemental answers to the postmaster general's letter giving the more definite allegations of Mr. Tulloch have yet been received by Mr. Payne, Auditor Castle, of the postoffice department, was busy reviewing the records of his office in connection with the Tulloch charges and will submit his reply to the postmaster general in the afternoon, with a request that they be given publicity in view of the publications of the charges. Captain Castle will confer with Comptroller of the Treasury Tracewell, who also is preparing a reply to the Tulloch allegations.

The end of the investigation is not yet in sight. Fourth Assistant Postmaster Bristow, who is conducting the work, has not set any date for the submission of his report for the reason that the sweeping nature of the investigation has made it impossible to indicate when the whole matter will be ready to be placed in the hands of the postmaster general for final disposition. It is probable that the report will not be submitted before the close of June or the early part of July.

Leader of Gang Arrested.

Newark, N. J., May 21.—Samuel Temple, who says his home is in Montana, was arrested on a charge of having blown open the safe of the Catasauqua Steel and Iron company, at Catasauqua, Pa., and stolen \$1,000 worth of platinum. The booty is said to have been recovered. The police say Temple is the leader of a gang of safe crackers that has been operating in Pennsylvania, Virginia and West Virginia.

Well-Known Printer Dead.

WORKS OF ART

IN A LOCAL CAFE

WONDERFUL TRANSFORMATION AT THE MANZANELLA.

Beautiful Oil Paintings to Adorn the Walls—Other Handsome and Tasteful Decorations.

The Manzanella cafe and bar on Diamond street, of which A. R. Guthrie is proprietor, long one of the most popular places of the kind in the city, will soon be made more attractive than ever. When extensive improvements which are now in progress are completed, former patrons will scarcely be able to recognize the place. Mr. Guthrie, determined to have not only the best, but the handsomest cafe in the city, now has a force of men at work completely renovating the interior, and the improvements will extend to every nook and corner.

First of all, every room in the place is to have its walls adorned with fine oil paintings of great size and beauty. These pictures will be copies of celebrated paintings, and being made by artists of skill and experience, will be genuine works of art. East Liverpool has nothing to match them, and few if any of the larger cities have anything finer. Besides the paintings on the walls, the ceilings are to be exquisitely decorated with beautiful designs, and flooring, walls and ceilings will be finished in appropriate and tasteful tints. Mr. Guthrie, who had many years' experience as an art decorator in local potteries, is supervising the work, and it is needless to say that everything will be harmonized and beautified in genuine artistic style.

The woodwork will be tastefully painted, new and handsome lamps and other equipments, both useful and ornamental, will be supplied and the whole establishment brightened up to look as if everything were absolutely new. When the changes now under way are effected the Manzanella will have no superior in East Liverpool or in Eastern Ohio.

Mr. Guthrie has had years of experience as a caterer, and his many patrons are well aware that there is nothing which they are likely to call for that his house cannot supply, and that the goods sold, whether foreign or domestic, are of the highest quality, served promptly and in the best of style. Under the new order of things the Manzanella will be more than ever first class in all respects—the cafe and bar par excellence of the city—and the favorite resort of those who, when in quest of food or refreshing drinks, are satisfied with nothing but the best.

A Regular Breakfast Food.
"Force" is a regular breakfast food in my family to the exclusion of steaks or chops, the old standard.
—A. CRANFORD.

There was a cry in the streets. People pushed from their doors and strained their eyes on the struggling ballroom fighting for life. Even the poor, patient sufferer in the sick room was forgotten while the family gazed breathless at this strange tragedy of the air. Then they went back to the sick room to tell of the terrible struggle for life they had just witnessed. It did not occur to them that under their very eyes a more terrible, more pathetic struggle was going on daily.

There can be nothing more pitiful than the struggle the consumptive makes against disease. The greatest help in this struggle is gained by the use of Dr. Pierce's Golden Medical Discovery. It cures obstinate coughs, weak and bleeding lungs, emaciation, and other ailments which if neglected or unskillfully treated find a fatal termination in consumption.

In one of my daughters was suffering on account of a severe cough, hectic fever, wasting of flesh and other symptoms of diseased lungs. writes Rev. Joseph H. Esperman, of Harrison Springs, Ireland Co., N. C. "I promptly gave her Dr. R. V. Pierce's Golden Medical Discovery with gratifying success, and she now enjoys excellent health. This being true, I hereby heartily endorse your medicine."

Accept no substitute for "Golden Medical Discovery." There is nothing "just as good" for diseases of the stomach, blood and lungs.

Dr. Pierce's Pleasant Pellets assist the action of the "Discovery."

EAST END

NEW BUILDINGS FOR PORCELAIN COMPANY

East End Plant to Be Enlarged by Three New Structures—Capacity Will Be Doubled.

The East Liverpool Porcelain Company, whose plant is in the East End, is to greatly enlarge its business and increase its capacity by the erection of three new and commodious buildings. Architect A. W. Scott is now drawing the plans for the first of these buildings and it is to be built as soon as they are completed.

Electric porcelain is growing more and more every day as an important industry and it is a very valuable addition to the other clay products of the city. The East Liverpool company has prospered greatly and its product has won quite a reputation over the country. As a result the stockholders feel justified in going into the business on a much larger scale.

The first new building will be 64x83 feet, two stories high and only the best material and most skilled workmanship are to be employed. It will be located convenient to the present plant. The second building will be of the same dimensions and its erection will be commenced as soon as the first one is completed. The third is to be of the same size of the other two, but will have three stories.

These improvements will more than double the capacity of the present plant and give employment to a hundred or more men in addition to the present force.

POLICE EXPECTED TO KEEP BUSY

STANDING STILL HALF AN HOUR WILL NOT DO.

The Merit System Gives Officers An Incentive to Be Diligent.

According to the merit system provided by the code the board of public safety has decided to draft rules which will give the members of the police force and fire department an incentive to carry out their duties in strict conformity with all requirements. Two things will be considered when a time comes for appointing an officer—his general qualifications and his length of time in service. The latter point considered will give Officer Mahoney, of the police force, first place. He has been in the service for 5 years, having been appointed under the administration of Mayor Bough. Providing his other qualifications come up to the standard he will be the first in line for promotion.

It has been intimated by the board that the rules governing the actions of the two departments will be stringent, but will not be unreasonable. They intend to study the rules as adopted in large cities and select from them sections that can be made applicable in this city. Every member of the board stands for the members of both departments working every minute of the time specified, which for the police is 12 hours straight. They are supposed to walk their beats continuously. One member of the public safety board states that he timed one officer the other evening and he noticed that the "cop" stood forty minutes in one spot. Such actions, he said, will not be tolerated. He also said that the rule will be inserted prohibiting an officer smoking while on his beat, especially in the day time. It is possible that they will be allowed the pleasure from midnight until they go off duty in the morning. The police and firemen will be required to keep themselves scrupulously clean. They must have spotless clothing and their shoes must be shining every time they report for duty. Numerous other rules will be drafted and it is thought they will be ready for observance before June 4.

A Woman's Complexion.
It is rank foolishness to attempt to remove sallowness or greasiness of the skin by the use of cosmetics, or "local" treatment, as advocated by the "beauty doctors." The only safe and sure way that a woman can improve her complexion is by purifying and enriching the blood, which can only be accomplished by keeping the liver healthy and active. The liver is the seat of disease and blood pollution. Green's August Flower acts directly on the liver, cleanses and enriches the blood, purifies the complexion. It also cures constipation, biliousness, nervousness, and induces refreshing sleep. A single bottle of August Flower has been known to cure the most pronounced and distressing cases of dyspepsia and indigestion. New size trial bottle, 25 cents; regular size, 75 cents. Uncle Benben's Opinion.

"They may say what they please, but listen—hear me; I've taken all kinds of laxatives, purgatives and cathartics but when it comes to one that is easy and pleasant to take, mild and gentle in its action, and that makes one want an extra slice of bacon for breakfast, just give me Chamberlain's Stomach and Liver Tablets, and you may have all the laxative syrups, dyspepsia medicines and pills, little or big, there is in this country. These Tablets surely do make one feel joyful!" For sale by Alvin H. Bulger.

The board of public safety made it
apparent at its first meeting that it is
a business body and proposes to look
after city affairs solely on business
principles. Its determination to have
a strict enforcement of all ordinances
that relate to the police and firemen
will meet with universal approval. The
ordinances were made with the ex-
pectation that they should be enforced,
and if their strict application
works hardships or injustice, it will be
an easy matter to secure the repeal of
those that are objectionable. They
should, however, first be given a thor-
ough trial. Ordinances will doubtless
be found, the enforcement of which
has never been attempted, and the
very existence of which is known to
but few people. Whether they are use-
ful or useless can only be determined
by giving them an impartial test. The
public safety board can make itself a
very important and influential factor
in the city government, as the new
code plainly designs that it should be.
That the board is entering upon its
duties with the determination to per-
form them well and faithfully is a
most encouraging indication. Success
to its efforts.

THE PITTSBURG TORIES

All Were Not Patriots in Early History
of Western Pennsylvania.

NUMBER STILL LOYAL TO KING

Secret Meeting Place at House of
Captain McKee, Where McKees
Rocks Now Stand—Three Notorious
Tories Called Pittsburg Home.

Western Pennsylvania gave men
freely to the cause of liberty in Revo-
lutionary days, especially in the ranks
of the Eighth Pennsylvania infantry.
In later times of public danger free-
men from the forks of the Ohio were
never wanting when called for, so that
the patriotism of Pittsburg and vicin-
ity has become proverbial in the na-
tion. This being true, it is all the
more startling to know that Pittsburg
furnished in 1775 three of the most
noted Tories and renegades ever
known, and that these were the lead-
ers of others, less famous, but not less
infamous, who under cover of night
fled to the western frontier and be-
came even more desperately cruel
against their own flesh and blood than
were their naturally savage allies.

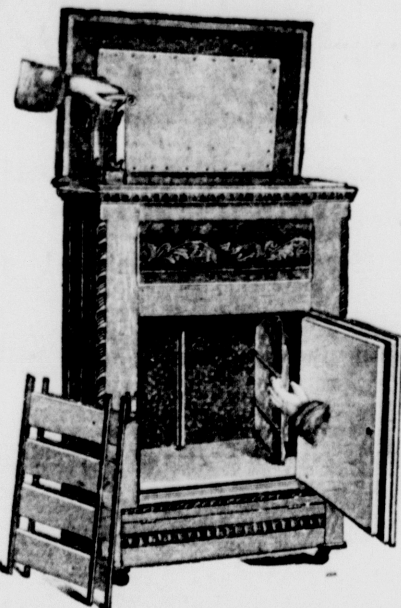

The winter of 1777-78 was a dark
time for the American cause. Re-
verses were many and encourage-
ments few. Numbers of men who had
no heart in the revolutionary struggle
began to feel that there was small
hope of patriot victory and to look
with more and more of open favor on
the king's cause. On the frontier at
Pittsburg there were numbers of such
Tories, both in the fort and in the
town. In the early spring of 1778 a
British spy from Detroit ventured
into the town and worked success-
fully for some time fomenting treason
and scattering offers of reward for
defection. There was in Pittsburg at
that time a park known as the King's
Orchard, or the King's Artillery Gar-
dens. Its name was more pretentious
than the park itself, but it was used
by the forces as a place for flying for
a little while a British flag, their bold-
est act. These gardens lay along the
Allegheny river front for some dis-
tance above Fort Pitt, where now is
Duquesne Way. The work of propa-
gating Toryism was also carried on
at Redstone Old Fort, now Brownsville,
the royal flag flying there un-
molested all through the winter of
which we now write.

As there were a goodly number of
Tories about Pittsburg they selected
the house of Captain Alexander Mc-
Kee, deputy Indian agent, a man of
ability and prominence, as their secret
meeting place. This was situated on
the farm of fourteen hundred acres
which Colonel Bouquet had given him
in 1764 at the mouth of Chartier's
creek, the place now known as Mc-
Kees Rocks. It has stood until the
present day. Here by twos and threes,
or in full company at night, the men
who thought to trim their course to
the more favoring wind met and plot-
ted. The three leaders in this move-
ment were Alexander McKee, Mat-
thew Elliott and Simon Girty, names
which soon became the synonyms for
cruelty, strife, trouble and worse than
the bitterness of death to the suffer-
ing frontier which they ravaged till in
1794 Wayne's victory at Fallen Tim-
bers ended their long and bloody reign
as scourges of the back settlements.

At this time McKee was on parole
not to hinder the patriot cause. Gen-
eral Hand, at Fort Pitt, finally became
exasperated and ordered him to report
to the American authorities at York.
This he avoided doing for some time,
pleading sickness. At length the gen-
eral sent soldiers to his house to ar-
rest him on Sunday morning, March
29, but they could not find him. The
previous night, he, Elliott, Girty and
four others had fled. Thus from Pitts-
burg went out the men whose very
names became a hissing in the mouths
of their own people. They made their
way to the Delaware Indian towns,
and finally under escort reached the
British post at Detroit, where Gov-
ernor Hamilton gave the three lead-
ers commissions in the British ser-
vice. Girty's brother, James, joined
the party in the Shawanese country
and took a full share in the devilries
of the awful years which followed.

When this party went away the
trouble was not yet all over. McKee
and his conspirators had found a num-
ber of sympathizers among the sol-
diers of the Thirtieth Virginia regi-
ment, in garrison at Fort Pitt. On
the night of April 29 a party of about
20 of them deserted the fort and fled
in a boat down the Ohio after finding
themselves unable to execute their
plan for blowing up the works. They
were pursued and overtaken near the
present city of Marietta. Eight got to
shore and plunged into the forest and
were never heard of again. Several
were killed. The others were brought
back to Fort Pitt and court-martialed.
Two ringleaders were shot and one
was hanged, and two others of the
party were given a hundred lashes
well laid on. The executions took
place on the parade ground of the
fort, about where now is that portion
of Penn avenue opposite the mouth of
Fort street. Amid the dingy sur-
roundings of this spot to-day there is
little to suggest the tragic grimness
of that other day when those unhappy
men gave their lives as forfeits in the
game of treason and desertion.

A letter written "Apr. ye 26th, 1778,"
by Colonel John Proctor to the pres-
ident of the Pennsylvania council,
gives a more than usually interesting
contemporary view of the events nar-
rated in this sketch. He writes as
one who loved his country better than
he knew his spelling book: "Sir, I
am able to inform you that Capt. Alex-

ander McKee with seven other vilons
is gone to the Indians, and since there
is a Serj't and twenty odd men gon
from Pittsburg of the Soldiers. What
may be the fate of this country God
only knows, but at Present it wears
a most Dismal aspect." Had Colonel
Proctor been able to foresee the next
16 years of border desolation to be
caused by the Girtys and the rest of
this precious crowd, he would scarcely
have been content with calling them
"vilons."

C. L. SMITH.

AN OHIO POCAHONTAS.

Victim Saved from Torture by Dusky
Belle of the Forest.

Captain John Smith, of Virginia
fame, was not the only American
pioneer who won the heart of an In-
dian maiden and was by her saved
from a horrible death. The same thing
happened to a young man on the Ohio
frontier in 1791, but he never wrote
an account of his adventures, and so
the story is found only by an occa-
sional deliver into the musty records
of the old frontier.

In the year mentioned General Ar-
thur St. Clair set out from Fort Wash-
ington, now Cincinnati, to retrieve the
fortunes of the Americans after Har-
mar's terrible defeat of the previous
year. Though cautioned repeatedly
by Washington to avoid certain fatal
blunders, somehow this army suc-
ceeded in committing some of them,
and suffered a disastrous rout. Two of
St. Clair's soldiers, young men from
the Ohio frontier, were captured and
carried by the Indians clear from the
southwest corner of Ohio to the north-
east corner, to the spot where after-
wards was founded the settlement
now known as Conneaut. There they
were compelled to run the gauntlet,
receiving severe punishment. This
cruelty did not satisfy the savagery
of their captors. A council was held,
which decided that the captive named
Fitz Gibbon should be adopted into
the tribe, while the other unfortunate,
whose name the legends do not pre-
serve, should be burned to death. The
reason for this distinction does not
now appear in any record, but it
seemed good to the redskins. They
set up a stake, tied the victim to it,
and piled the wood about him. Just
as the fire was about to be kindled a
young squaw, in whose eyes the white
prisoner had found favor, interposed
in his behalf. Her love made her bold
to face the decision of the solemn
tribal council. She pleaded her cause
with such eloquence that she obtained
a respectful hearing. She pressed her
advantage, and offered as a ransom
several valuable packages of furs and
a sum of money. After many expo-
sitions this brave girl won her point,
paid the ransom and carried off her
captive in noble triumph. Sad it is
that her name, and that of the object
of her affections, are lost to history.
And equally so that the last acts of
the drama have never been recorded.
One can at least hope that such sacri-
ficing devotion as hers was properly
appreciated, and that this nameless
Pocahontas was never made to suffer
the pangs of ingratitude. She is
worthy of as great fame as her Vir-
ginia sister.

C. L. SMITH.

Her Reason.

Dr. Porter had responded to a note
left at his door by a farmer asking
him to go as soon as possible to see his
little boy, who had "a very bad cold."

The doctor took one look at the child
and turned to the mother.

"Don't you know your boy is coming
down with measles?" he asked se-
verely.

"Yes, doctor, I knew he was," said
the woman.

"Then what in the world did you
mean by writing me he had a very bad
cold?" asked the doctor.

The woman hesitated for a moment,
then, looking at her husband, she said,
with sullen frankness, "Neither him
nor me knew how to spell measles."

few minutes the little stream was a
raging torrent from half to three
quarters of a mile wide. Great dam-
age was done to the growing crops.
Hundreds of acres of corn, wheat and
oats have been washed out of the
ground. The damage to crops is es-
timated at \$100,000. The Union Pa-
cific, the Burlington and the Missouri
Pacific roads each lost several hun-
dred feet of track. Plattsmouth
farther down the Papio, was a heavy
sufferer. The flood entered the town
through a deep ravine and swept down
the main street, flooding basements
and running through stores. The
damage will approximate \$75,000.

"In the Good Old Summer Time."

Butte, Mont., May 21.—Ten feet of
snow is reported from Doughts, Mont.,
and the thermometer is ranging from
4 to 6 degrees below zero. Traffic on
the Great Northern railway is seri-
ously interfered with by the drifting
snow and the trains are being oper-
ated only under the greatest difficulty.
Conservative estimates place the loss
of stock at about \$2,000,000 and the
number of head of stock lost is fig-
ured at about 90,000. The Missouri
river is rising rapidly and ranchers
are leaving their lowlands in antici-
pation of disastrous floods.

Crazed Mother's Awful Deed.

Allenton, Pa., May 21.—After plac-
ing her two youngest children, Edna,
aged 3, and Roy, aged 1, in bed, Mrs.
Elvin Bachman, of Slatington, near
here, killed them by cutting their
throats and then committed suicide
by slashing her own throat. She used
her husband's razor in committing
the deed. Mrs. Bachman was about
40 years of age. For some time she
has been melancholy. Her husband
was at work when the crime was com-
mitted and her other five children
were at school.

WELLSVILLE

ALL OF NEVADA STREET

To Eighteenth Street May Be Purchased and Occupied By the Railroad.

The Cleveland & Pittsburgh railroad has always been very quick to make repairs but there is a case in the West End where this rule has not been followed. A week or ten days ago the high board fence at the east end of Nevada street was knocked down by a car running into it. Heretofore this fence has always been kept in good condition, but as yet no move has been made to repair this damage. Ever since the company has been talking of enlarging its yards, and purchased the western side of Nevada street for that purpose, the residents of the eastern side of the street have been working hard to keep the company from laying any more tracks over Eighteenth street.

A person living on the eastern side of that street stated yesterday that he had heard it was the intention of the company to purchase all the property as far as Eighteenth street. Those in the employ of the company will neither affirm nor deny the report.

SUIT OVER RENT

Results in Verdict for the Defendant, West End Saloon Bone of Contention.

The case of W. C. Connors, of Wellsville versus the Crocker City Brewing company, of East Liverpool, was heard yesterday before Squire A. G. McKenzie. The suit was over the vacation of property owned by Mr. Connors but leased to the brewing company. The property is in the West End and was formerly occupied by Gus Schlotfeld and is now occupied by Wilfred Ross.

Mr. Connors claimed that the lease had been violated, as Schlotfeld did not pay the rent regularly. The brewing company deposited the amount, \$180 of the back rent, with the court. At 1 o'clock the case was left in the hands of the jury and after being out about three hours it returned with a verdict for the defendant, the plaintiff to stand the costs.

The jury was composed of four members, Charles Cummins, J. N. McLean, Edward Whitten and George Wells. Judge P. M. Smith appeared for the defendant and W. F. Lones for the plaintiff.

The trouble occurred in David's saloon.

Eating a Prickly Pear.

My first sad experience of the African prickly pear was gained on a visit to the market place of Algiers. The fruit was handed to us, politely peeled by the Arab dealer, and thus we made acquaintance with its delightful coolness no suspicion of its evil qualities entered our minds.

A few days later, adding the excitement of a little trespassing to the more legitimate pleasures of a country ramble, we came upon a well laden group of prickly pear bushes and could not resist the temptation to help ourselves to some of the fruit. The result was woeful.

Concentrated essence of stinging nettles seemed all at once to be assailing hands, lips and tongue, and our skin, wherever it had come in contact with the ill natured fruit, was covered with a thick crop of minute, bristly hairs, apparently growing from it, and venomous and irritating to the last degree.

Our silk gloves, transformed suddenly into miniature robes of Nessus, had to be thrown away, perfectly unwearable, and the inadvertent use of our pocket handkerchiefs before we had fully realized the extent of our misfortune caused fresh agonies, in which nose as well as lips participated. For many a day did the retribution of that theft haunt us in the form of myriads of tiny stings.—"Home Life on an Ostrich Farm."

The Invention of the Piano.

The honor of inventing the piano is claimed by the English, the French and the Germans. Father Wood, an English monk at Rome, is said to have been the real inventor in 1711 and to have manufactured one, which he sold to Samuel Crisp, the author of "Virginia," from whom it was purchased by Falke Greville, though Count Carl claims the credit for Bartholomew Christofori of Padua during his stay in Florence some three years later (1714). The French attribute the invention to a Parisian named Marius, who, they alleged, produced in 1716 a harpsichord in which hammers had been substituted for the old plectrums or quills. The Germans are the last in the field with J. C. Schroder of Dresden, who claimed (1717), when eighteen years of age, to have "constructed after much consideration the model of a new clavier with hammers, upon which he could play loudly or softly."

BUILDING WORK BRISK IN CHESTER

The Only Drawback Has Been Inability to Get Material Promptly.

Building operations were never more brisk than at present in Chester. There is one great drawback, and it has been felt for several months. The inability to have lumber and other building materials on the ground when they are needed has handicapped every contractor in the town throughout the entire season.

Finley Bros. are the most important and the largest contracting firm in the city, and many of their jobs have been held back on account of the railroad company's inability to have the shipments arrive promptly when they are needed. There have been several instances of late where the delay has worked a downright hardship. Shipment after shipment has been lost during the past few weeks, and contracts being fulfilled by Finley Bros. at the park and at other points have been delayed.

Building materials have been ordered in plenty of time and the shippers have been prompt in getting them off, but almost invariably the cars have been lost in transit. Several cars are at present on the road and nothing can be learned as to their whereabouts. One consignment in particular is that of an order of shingles which were shipped from Cleveland more than two weeks ago. The firm in need of the supplies were informed that the cars had left Cleveland, but since that time no trace of them could be found. The railroad company has shown as much interest in the matter as could be expected, but has been powerless so far to afford the relief desired. The failure to receive the order has caused the contractors a great deal of annoyance and has been the means of losing considerable time, but it seems there is no relief in sight.

CHESTER CAPITALISTS

Interested in New Trust Company Which is to Build at New Cumberland.

A number of Chester capitalists are interested in the new building to be erected by the New Cumberland Trust and Savings company in the Hancock county capital soon.

The company was formed some time ago, and since that time has been prospering beyond the expectations of the most sanguine. It was recently decided to construct a building and the plans have already been accepted. The work will begin within a few days. The Keystone bank of Pittsburgh is the real backer of the enterprise, and several Chester capitalists are financially interested.

The structure will be of brick, three stories high, and will contain business rooms on the first floor and offices above. It is expected the building will be entirely completed this summer.

CONFEDERATE VETERAN REPLIES

Refusal of Association to Participate in Memorial Exercises Brings Letter from Clement Evans.

Columbus, O., May 21.—Relative to the action of the Hilltop Improvement association in refusing to participate in the memorial exercises at the Confederate cemetery at Camp Chase near Columbus, Clement A. Evans, commander of the Georgia divisions of the United Confederate Veterans, has written President W. B. Potts, of the Hilltop association, saying:

"I write merely to say to you that this action and the inflammatory speeches made by some members of the association do not lessen the appreciation by the surviving soldiers of the Confederate army of the fraternal attentions which have been annually shown to the graves of the Confederate dead at Camp Chase, nor arrest the high purpose of the southern soldiers and people to maintain the terms of honorable surrender and to unite with all true patriots of our country in all efforts to achieve the greatest glory."

Imprisonment Sentence Suspended.

Springfield, Ill., May 21.—Clarence H. Verner, the Boston banker, brought to the office of the clerk of the United States circuit court the books of the water works corporations, for failure to produce which he had been adjudged in contempt of court and fined \$1,000 and costs and sentenced to six months in jail. Judge Humphrey entered an order that having paid the fine imposed and produced the books and documents in question he had to that extent purged himself of contempt of court and ordered that the execution of the sentence of imprisonment be suspended.

CONFERENCE OF GLASS PEOPLE

Jobbers Recommend Purchase of 300,000 Boxes of Window Glass—Manufacturers Will Confer.

Cleveland, May 21.—As the result of a conference between representatives of the American Window Glass company and representatives of the principal jobbers throughout the country, the jobbers have recommended that 300,000 boxes of window glass be purchased at an advance of 5 per cent over the last purchase. This is in accordance with a proposition made by the manufacturers. The manufacturers have adjourned and the jobbers will take definite action on the purchase of the 300,000 boxes of glass. The matter is in the hands of the executive committee of the jobbers.

Representatives of the plate glass manufacturers are coming to town for a conference with the jobbers.

Trade conditions in plate glass are said to be unstable and important action is looked for in this branch of the trade.

Killed Brother in Self-Defense.

Middleboro, Ky., May 21.—Lee Turner, of the "Quarterhouse," where several were recently killed, on Tuesday shot and killed his half-brother, "General" Turner at Jacksboro, Campbell county, Tenn. It is claimed that he acted in self-defense. "General" Turner has been in the Jonesboro jail for some time and Lee refused to bail him out. This infuriated the "general" and when he was released he attacked Lee. Lee returned the attack with nine bullets from his rifle, each one finding its mark. Lee killed John Turner, a cousin, in self-defense a year ago.

Thousands of Free Railroad Rides.

Two or three thousand coupons entitling the holders to round trips over the C. & P. to the new town of Ambridge, the spot in Beaver County where the American Bridge company is building the largest finished product plant in the world, were received in East Liverpool and Wellsville yesterday and last night from Pittsburgh the first step by the promoters of the project for a new city for Beaver county, in a remarkable real estate movement. The tickets are to be given away for the asking to residents of the two cities, who are asked to inspect what is claimed to be the finest city site now unoccupied along the Ohio valley, on land held jealously for years by the Economy Society. The present sale of Ambridge lots, and the free excursion into Beaver county Saturday, will be the first formal opening of the ancient society's great tract. Tickets are good on two regular trains each way, and an announcement of the excursion is printed on another page of this issue.

FOR YOUR VACATION TRIP

The Yellowstone Park, the nation's playground, is larger than the state of Delaware and nearly twice as large as Rhode Island. As in size it exceeds all other national parks of the world combined, so in grandeur and scenery it is unequalled. Here are located the eight great geysers of the world. Mount Washburn, one of the peaks in the park, has an altitude of 10,383 feet. The whole park is an area of wonders unparalleled. It is from 1,000 to 5,000 feet above the level of the sea and is therefore within the zone of two seasons.

But to really know this wonderful you should take a trip through there. You cannot spend a vacation season more profitably or more pleasantly. The Chicago, Milwaukee & St. Paul railway offers choice of routes to and from Yellowstone Park. If you are interested, complete information about the cost of the trip, choice of routes, train service and tickets will be furnished on request.

WELLSVILLE HITS WERE IN THE AIR

Zanesville Administers Another Defeat, the Score Standing 6 to 3.

SOME FINE PLAYING DONE

Pitchers in Particular Did Excellent Work—Wellsville Is Steadily Improving—Last Game of the Series Will Be Played Today.

The Wellsville boys went down to a second defeat yesterday afternoon at Central park. The Zanesville team proved to be too much for them. The one great trouble with the home team was that though it hit the ball, it could not hit safe. About every hit was in the air and the ball was hauled in by the fielders. Both teams played fine ball, especially the pitchers, who did excellent work.

The visitors clinched the game in the second inning. Two men went to first on errors, one on a dead ball and three on hits. Four runs were scored in this inning. Zanesville made one in the first, but failed to score again till the sixth, when one more came in, making six.

The home team made neither hit nor run until the sixth. Two men went to first on balls then Heckathorn punched out a two bagger, sending two men across the plate. In the eighth one more run was made, but after that they got no further than second.

After the second inning the home team got down to hard work and certainly did some great playing. The visitors played a superb game all the time.

Phil McShane gave both sides about even decisions and very few kicks were made.

These two teams meet again today for a third and last time. Wellsville keeps playing a little better each day and if the boys keep it up today's game will be the most interesting of the series.

MALEY PITCHED

SHUTOUT CAME

Until the Ninth Inning He Had Given But Two Hits and Not a Man Got Farther Than First Base.

The following from the Morgantown Evening Post relative to the game played by the Grove City and Morgantown in which Larry Maley, of this city, pitched under the name of Cunningham, will be of interest to local fans.

"There is always something interesting doing in the ninth inning when Grove City and West Virginia meet on the diamond. It is usually something that tickles the 'Varsity fans. Saturday was no exception to the first rule, but a radical departure from the tradition No. 2. The ninth inning was all Grove City's. Up to that time not one of the Pennsylvanians had been able to get farther than first base, and only two had astonished those fellows by reaching the bag. The

score was nine to nothing, and Cunningham had a clean shut-out served up in that bag ready to transport down town. 'Pop' Shriver had already marked three big goose eggs with his heel in the dust around home plate, and Groninger was handling chunks of consolation to the G. C. crowd from third base. He had already retired one man by a neat catch. Then something happened. Kenney let one get away. Purinton missed two chances to retire the side. Cunningham threw the ball away, and Grove City bunched three hits. When it was all straightened out again Grove City had tallied three runs. It was one of those unfortunate, unavoidable things that will happen now and then in a base ball game, and is really funny. No one had any kick coming. The victory was a good, clean one, to be proud of.

"The Varsity played one of the prettiest games up to that ridiculous ninth inning ever seen on the local diamond. Their fielding was almost perfect. Not a man passed first base. They hit well and their base running was good to look at. The whole team behaved like a bunch of pennant winning professionals. Coach Hutchinson was very much pleased with the showing made by all the players.

"Cunningham pitched a shut-out game, allowing only two hits until the ninth inning when the visitors got three, after the side ought to have been retired. Viebaum, the Grove City man, was very wild. He was hit hard, and gave no less than 8 passes to first.

CAPT. REARK UNABLE

TO SIGN A TEAM

Players to Be Permanently on the Team Not Chosen Yet—Full Line-Up to Be Secured Next Week.

Not until the middle of next week will Capt. Reark have a permanent lineup arranged. He has been working incessantly to have the entire team, the one that he intends to buck all comers with during the entire season, signed up and under his management today but was unable to get word to some of them in time. Before Saturday evening it is expected that quite a number of foreign players will be in the city. Capt. Reark having sent nine word to come on trial.

From the bunch he will pick the number he needs and send the rest back home. He is running a league of his own, he says, and as all big leagues give players a chance he is going to do the same. Though he expected to have a good second baseman signed several days ago, the man he was counting on, Heffelfinger, of Bucyrus, did not show up and another will have to be chosen. The lineup for this afternoon's game will consist of the following: Peiper, catcher; Good, pitcher; Wallace, first base; Hudson, second base; Davis, third base; Gibson, short stop; Brown, left field; Reark, middle, and Emmerling, right field.

Hudson is from Cleveland and has an excellent reputation. If he makes good he will stay for the season. He has a partner who is also being counted upon. Good is of the Leetsdale team and it will also be an endeavor to keep him. He is said to be a good fielder.

The lineup for tomorrow's game will be rather mixed up. Peiper will play at first; Emmerling will catch; Webb will play in right field and several other changes are likely. No word has yet been received from McLain, of Kiskiminetus college. He is wanted badly to go against the Cuban X Giants on Monday. If he does not come Reub Canaday, working in a meat market on West Market street, will pitch the game. He has been warming up considerably of late and will be given a trial in the near future. In his day he was the dandy and has yet lots of speed.

HORSE SELLS FOR \$60,000

Hermis, the Champion Three-Year-Old of 1902, Brings Big Price.

Hermis, the champion three-year-old of 1902, has been sold by L. V. Bell, of New York, to Edward R. Thomas, son of the late General Sam Thomas, the most recent newcomer on the turf. The price paid by Mr. Thomas is reported to be \$60,000.

The price paid for Hermis is possibly the largest ever realized for a horse in training in the United States. It was said that the late Marcus Daly paid \$60,000 for Hamburg. Afterwards it was declared that the actual price was \$50,000. This would make the price paid by Mr. Thomas the largest in the history of the American turf. The sale was arranged at Morris Park when Mr. and Mrs. Thomas saw Hermis work a mile trial in 1:43.

L. V. Bell purchased Hermis last August at Saratoga for about \$20,000, and on the same day won the Travis stakes with him. The colt won ten consecutive races for Mr. Bell, and at the close of the season was regarded by every turf expert as the best horse in training, an opinion afterwards confirmed by the official handicapper, who allotted the horse top weight, 127 pounds, in the Brooklyn and Suburban handicaps. H. M. Ziegler, the Cincinnati turfman, who sold Hermis to Mr. Bell, paid \$3,500 for him.

Hermis is entered in all the big stakes in the east.

The lineup is as follows: Mountford, catcher; Smith, pitcher; McHenry, first base; Robinson, second base; Bridge, third base; Strowe, left field; Pusey, middle field; Anderson, right field, and Davidson, short stop. The team has played for several years

and is well onto the game. They no doubt will give any team of their class a hard tussle.

Bruno A. C. Team.

The manager of the Bruno Athletic club ball team of Wellsville, gave out the following lineup for this season: Culbertson, c; Bray and Knox, p; Bunting, s; Heakin, 1; Estep, 2; Whalen, 3; Berg, m; McFall, r; Thorn, l. Each of the boys puts up a fast game and has had a great deal of practice. The Brunos had a football team last fall that was defeated but once and they mean to have even a better record in base ball. The schedule is partially made out and several strong teams will have an opportunity to down this aggregation. Two or three practice games will be played with the Wellsville city team. All correspondence should be addressed to E. G. Heakin, Wellsville.

SPORTING MISCELLANY.

Homestead has won ten straight games.

Case school bids fair to lead in the intercollegiate race for the championship of Ohio.

Wheeling continues to lose in the Central league although her pitchers are doing well.

Alex Jones has been given his 10 days' notice of release by the Detroit American league club. He will likely return to Homestead.

Jockey Lawrence Barry, who was injured by the falling of Seminole in a hurdle race at Morris Park last Wednesday, died in Fordham hospital, N. Y. Barry was one of the best steeple chase riders in the country.

Billy Walsh, acting secretary of the St. Louis Browns, has tendered his resignation with the urgent request that it be accepted. It is stated that J. Sidney Mercer, base ball editor of the Post-Dispatch, will succeed Walsh as secretary.

Having about exhausted the drawing qualities of pugilists as theatrical stars, the managers are now taking to base ball heroes. William Garen, manager of Havlin's, has signed Rube Waddell to a contract for a tour next winter after the base ball season is over, in the thrilling drama, "The Stain of Guilt."

OHIO'S CENTENNIAL

One Hundredth Anniversary of Admission to Union Being Celebrated.

CEREMONIES AT CHILLICOTHE

Governor Nash Presides and Addresses Are Made by Distinguished Citizens of the State—City Beautifully Decorated.

Chillicothe, O., May 21.—The centennial of Ohio's statehood was celebrated with all the ceremony made possible by the inhabitants of this ancient metropolis. The state made an appropriation and placed the Ohio Historical and Archaeological society in charge as an executive committee to act for the state centennial commission, which is composed of Governor Nash, General J. Warren Keifer, General Charles M. Anderson, General James Barnett, General B. R. Cowan, David S. Bray, R. W. Manly and Rush R. Sloane, but the "heat and burden" of the day of preparation fell upon Chillicothe. No detail of arrangement has been overlooked, and the city welcomes with the loving hospitality of a proud mother, the children who flock to the ancient home. The two days' program consists of addresses on historical topics to be delivered in a great tent in the city park.

At 9 a. m. the first public act of the celebration took place in the common pleas courtroom, where a plaster medallion of Edward Tiffin, Ohio's first governor, was presented to the county. Miss Anna Cook, a great-granddaughter of the governor, unveiled the tablet, and Archibald Mayo made the presentation address.

Following came the set program for the day. Governor Nash presided. Mayor Yaple made the address of welcome and General J. Warren Keifer responded for the historical society.

Half a Million Goes Up in Smoke. Chicago, May 21.—Fire that for a time threatened the wholesale clothing district at Jackson and Franklin streets did \$500,000 damage before it was got under control. Before the fire was subdued the six-story building at 242-246 Jackson boulevard was destroyed.

You can investigate local evidence.
Mr. G. H. Garner, the well known manufacturer of ice cream at 103 Jackson street, says: "My trouble set in with a soreness and stiffness over my whole body; my appetite was poor and I was annoyed a good deal with bloating at the stomach. There was a urinary difficulty and I felt generally used up. I tried two or three different remedies, but they did not do me the least good. Having heard Doan's Kidney Pills so highly spoken of I purchased a box at the W. & W. Pharmacy. I did not take over half of it before I was entirely free from any trouble, my appetite was good, and my old time vigor restored. I recommended them to many of my friends among them P. J. Green, V. S., and they all speak of them in the highest terms."

Sold for 50 cents a box by all dealers. Foster-Milburn company, Buffalo, N. Y., sole agents for the United States.

Sold by W. & W. Pharmacy.

GOVERNOR GEORGE E. NASH.
Then followed the historical addresses by Hon. Judson Harmon, of Cincinnati; Prof. Martin B. Andrews, of Marietta; Judge Rush R. Sloane, of Sandusky; Judge M. M. Granger, formerly of the Ohio supreme court; General Thomas M. Anderson, Murat H. Stead, Senator Foraker and General Charles H. Grosvenor.

The afternoon program was changed so as to bring forward the address of Mrs. J. R. Hopley, of Bucyrus, O. She spoke of the part taken by women in the history and development of Ohio. Her paper won the heartiest applause.

At night the speakers were Senator Hanna, on the "Industrial Progress of Ohio"; L. D. Bonebrake, Columbus; President W. H. Thompson.

THE TRAVELS OF COLUMBUS

Columbus decides to return to Spain. Before his departure he built, with the assistance of the Indians, a fort and garrisoned it with some of his followers.

FIND A CANNON AND HIDDEN INDIAN.

Columbus; General R. Brinkerhoff Mansfield, and General B. R. Cowen, of Cincinnati.

Senator Hanna's appearance was the signal for prolonged applause. He spoke briefly, referring to the industrial progress of Ohio, which, he said, had reached the point where Ohio had ceased to be an agricultural state and had become a mining and manufacturing community. This result had been reached by development of natural resources through Ohio energy. He prophesied still further prosperity, based on the splendid quality of Ohio men and on the success of the public schools.

The illuminations at night formed an attractive feature. An informal banquet was given after the close of the evening speech.

MACHINISTS STRIKE IN ST. LOUIS
Over Two Thousand Quit Work—Demand Increase, Which Was Refused.

St. Louis, May 21.—More than 2,000 machinists and members of kindred unions employed in about 175 shops in St. Louis, all members of the St. Louis Metal Trades' association which is allied to the International Association of Machinists, are on strike. The machinists demand an increase of 10 per cent in wages, while the brass workers ask for 16 2/3 per cent increase.

Negotiations have been in progress for six weeks between the employers and the unions. A 6 per cent increase was offered to the unions, but this was refused and the demand for 10 per cent was maintained. Efforts to arbitrate the disagreement failed and the strike resulted.

Should the strike prove as far-reaching and effective as union officials assert it will, and if it shall continue for any considerable length of time, every mechanical trade in St. Louis may become involved.

PROOF OF MURDER IS REVEALED
Body of Wealthy Farmer Found in Ohio River With Bullet Hole in Head.

Parkersburg, W. Va., May 21.—Proof of one of the most horrible crimes ever committed in the state was revealed when the body of George Lewis, a wealthy farmer of Great Bend, O., was found in the Ohio river near Midport, O., with a bullet hole in his head.

Lewis disappeared from Ravenswood, W. Va., on the night of Nov. 30, after an all night debauch with a gang of toughs of the town. Fifty dollars which the dead man had in his possession is missing and it is thought he was robbed, murdered and thrown into the river by his companions.

German Municipal Exhibition.
Dresden, May 21.—The king of Saxony opened the German municipal exhibition, which is the first of its kind ever held in the world. Exhibits from 128 cities are on show and over 300 manufacturers display articles employed in municipal work, street improvement, sewage systems, etc.

The seaport towns have sent models of docks and harbor works, the display made by Hamburg being particularly interesting. Among other exhibits are plans of city halls, drainage systems, street car tracks and elevated railway systems, public parks, sewage farms, municipal slaughter houses and garbage crematories. The police section includes an exposition for the Bertillon anthropometric system. The exhibition generally affords excellent facilities for studying German municipal arrangements.

Steamer's Crew Take to Lifeboats.
Goderich, Ont., May 21.—A lamp exploded in the engine room of the steamer Pfohl in the middle of Lake Huron. Fire followed and after fighting the flames for eight hours the crew of the vessel was driven to take refuge in the lifeboats. One boat was picked up by a rescuing party from shore and the others are being sought near the scene of the disaster. It is believed that all the crew are safe. The boat was bound for Owen Sound with coal.

Eminent Surgeon Dead.
Cape May, N. J., May 21.—Dr. Thomas G. Morton, aged 67 years, an eminent surgeon of Philadelphia died of cholera morbus, after an illness of two days.

EDITION DESTROYED

Report Printed of Condition of Jews in Russia Made Away With.

STARTLING STATEMENT MADE

Government's Edition Disappears and No One Knows Where—Statements of Count Cassini Denounced as Untrue by Milwaukee Rabbi.

Milwaukee, May 21.—Dr. Walter Kemper makes the startling statement that a report which he made as a commissioner of the United States government, appointed to investigate the condition of the Jews in Russia at the time of the last exodus in 1891 and ordered printed by the congress of the United States, was suppressed and all of the government edition made away with and destroyed by the Russian representatives in Washington.

He said that he had received letters from United States senators and congressmen and officials of the government asking him where they could obtain copies of the report, but neither he nor they were able to fathom what had become of the government edition.

"The government ordered 10,000 copies printed and I ordered 100 for private use," said Dr. Kemper. "The government edition disappeared and no one to this day seems to be able to tell what became of it. I learned after the report was issued that it was substantially cabled to St. Petersburg as it had been printed in this country."

Dr. Kemper visited Europe after the publication of the report, and it was printed in London in the English, German and French languages there, and copies of it were sent by registered mail in separate packages from the London postoffice to the czar, to the heads of each of the departments of the government and to the governors of the provinces.

"Every one of these reports," said Dr. Kemper, "including the one sent to the czar, was returned to the London postoffice stamped 'forbidden'."

Jews Cannot Own Land.

Milwaukee, May 21.—Rabbi Victor Caro, of Temple B'nai Shalom, Milwaukee, denounces as untrue the statements ascribed to Count Cassini, the Russian ambassador to this country in which the count cites as the reason for the unfriendly attitude towards the Jews the fact that the Jews will not work in fields or engage in agriculture, but prefer to be money lenders.

"The Jews in Russia would gladly engage in agriculture," said Rabbi Caro, "but they are not permitted to do so. I have studied up these matters thoroughly and have received information directly from the newspapers of Germany, which are reliable."

"No Jew in Russia can own land. They are forced to belong to the 'paecher' class, or leasers of land, and for them to gain actual possession of farms or gardens is prohibited by the law of the land. The few colonies of Jewish agriculturists which have been established by philanthropists have been successful, and if the Jews were allowed to engage in agricultural pursuits the Jews of the world would pay millions and millions of dollars to buy them farms."

8,000 Persons Homeless.

Manila, May 21.—Two thousand native houses were destroyed by fire in the Tondo district of Manila. About 8,000 persons are homeless and are being sheltered by the municipality. The damage is estimated at 2,000,000 pesos.

Many Homeless in St. Hyacinthe.

St. Hyacinthe, Que., May 21.—A fire in the shoe factory of Cote brothers destroyed that and half a dozen other industries and 250 houses, leaving nearly a quarter of the city's population homeless. Loss \$400,000.

Mrs. Fairbanks tells how neglect of warning symptoms will soon prostrate a woman. She thinks woman's safeguard is Lydia E. Pinkham's Vegetable Compound.

"Ignorance and neglect are the cause of untold female suffering, not only with the laws of health but with the chance of a cure. I did not heed the warnings of headaches, organic pains and general weakness, until I was well nigh prostrated. I knew I had to do something. Happily I did the right thing. I took Lydia E. Pinkham's Vegetable Compound faithfully according to directions, and was rewarded in a few weeks to find that my aches and pains disappeared, and I again felt the glow of health through my body. Since I have been well I have been more careful. I have also advised a number of my sick friends to take Lydia E. Pinkham's Vegetable Compound, and they have never had reason to be sorry. Yours very truly, Mrs. MAIR FAIRBANKS, 216 South 7th St., Minneapolis, Minn."

Philadelphia, May 21.—One of the group of buildings of the George W. Blahon company, manufacturers of oilcloths, was destroyed by fire, entailing a loss of \$50,000. The fire was started by a bolt of lightning.

Albanian Chiefs Arrested.
Vienna, May 21.—It is reported from Mitrovitz that all the Albanian chiefs of that district have now been arrested and sent under strong escort to Constantinople.

How To Tell A Swindle.

If a man tells you he can make 25 per cent out of your money for you and don't tell you how, set it down as a swindle. If he offers you something for nothing, set it down as a swindle. If he tells you he can cure you of disease, and don't tell you how, set it down as a swindle. If you will exercise your own judgment, your own reason—just use a little common sense at all times, it is the safest guide. We tell you Life Plant Pills cure Rheumatism, Ezema, Catarrh, Asthma, Scrofula and all blood diseases, and we tell you why. It does it because it purifies the blood, drives out the impurities and thus removes the cause of disease. There is no other way. Now that's common sense. The blood is the life. Keep the blood pure, full of life, and the whole system will be renewed with new energy. Read this. It tells what Life Plant will do. It's from your neighbor:

Mr. J. C. Lukens, of Tippecanoe, Ohio, says: "I have been greatly relieved of Nervousness, Stomach and Kidney trouble by the use of Life Plant. As a family medicine to keep the blood in order and tone up the system and prevent sickness, I think it stands at the head of the list. Tippecanoe, March 1st, 1900. Life Plant Renew's Life. HE WILL CONSULT HIGHER AUTHORITIES

City Solicitor Goes to Columbus to Get Legal Light on Code Questions.

Solicitor George E. Davidson left this morning for Columbus. The object of his visit to the capital city is to receive information from the attorney general and his assistants on several perplexing questions that have already arisen. He has opinions of his own on all of the questions, but to make himself doubly certain has decided to confer with higher officials.

It was learned this morning that he was undecided on three questions in particular, but what they are is not known. It is thought, however, that one of them is in reference to the appointment of John Wyman as chief of police and the others on technicalities pertaining to the city's finances.

The solicitor has certainly been having his troubles since the inauguration of the code, and his conservative opinions are to be commended. He answers few questions positively, simply stating his opinion. He realizes that many questions will arise and that no attorney in the country can give an off hand answer correctly. He anticipates that scores of the code provisions will be carried to the supreme court for decisions, and it is the general opinion that within a year the code will be added to greatly by amended sections.

BRIGHT OUTLOOK FOR UNION MEN

Continued from First Page.

was received from the painters, who could now see the end of their troubles. Several of the largest contracting concerns in the jurisdiction of the union had signed the scale, and at a conference arranged to take place tonight it was probable terms of settlement of the remainder would be determined upon.

So well had the teamsters succeeded in their efforts to better the conditions of their members that but three of the firms in the city hiring teamsters had to the present refused to come into the fold. These firms were, according to the report, standing in their own light, and would change their determination within a short time.

The laundry workers reported having difficulty with the management of the Enterprise laundry. They had refused to sign the scale, and though several members of the firm were also connected with the union, they had refused to insist upon the enforcement of the scale. The unionists of the city will withhold their patronage for the present. Meantime the grievance committee will act with the laundry workers, and it is probable the firm will be brought into line within a few days.

There was a sentiment among the members that the Labor day committee should be at work. This opinion was shared by both President Beatty and Secretary Reark. The latter gentleman has had a vast amount of experience in these matters, and thought the committee had already delayed too long in making a start. Unless the committee got down to business at once, he desired to be relieved from serving on it. A meeting had been arranged to take place in the ante-room of the hall on Friday evening at 8 o'clock.

COURT ORDERS

Partition Cases And Other Suits Disposed Of—An Injunction Refused.

Lisbon, May 21.—(Special)—In the case of F. H. Faloon vs. W. J. Faloon, who petitioned for the partitioning of lot 465 in Salineville, the petition has been granted. The court has named John J. Kirk, H. R. Shaft and Ralph McConagie to make the division.

In the partition proceedings of James R. Reilly vs. Clyde C. Klees, the court, on motion of the plaintiff, has ordered that the Liverpool township real estate in question be sold at public sale.

In the case of the Perpetual Savings & Loan company vs. Isaac B. Clark et al leave is given the First National bank of Wellsville to file answer and cross-petition instantly. Similar leave is given in the case of Harmon Michels vs. the Buckeye Brick works, of Wellsville, and in the case of Lizzie E. Smith against I. B. Clark et al.

In the partition case of Joseph O. Greiner vs. Rebecca A. Greiner and Sarah Metzger, the sale of the Greiner bank property in Salem has been approved and deed ordered to Paul Metzger, the purchaser. The title to the safe and vault passes to the purchaser.

In the partition case of George Bunting against Elizabeth Bunting et al the court has ordered the private sale of the realty in question.

In the case of Alma Matthews et al vs. John E. Whan et al, a sheriff's sale of real estate has been confirmed and deed and distribution ordered.

The St. Clair township injunction case of W. C. Randall against Joseph Laughlin was appealed to the circuit court and at Steuenville yesterday an injunction was refused.

The Persian Army.
The Persian army, according to Henry Savage Landor, the traveler, is a "painful sight," although there are some good Cossack cavalry which has been drilled by Russian officers. The infantry, however, is a ragged, lazy, shiftless lot. He asked permission to see the army drill. "We do not drill in summer; it's too hot," said the general. "Do you drill in winter?" "No; it's too cold." "Are the troops, then, only drilled in the autumn and spring?" "Sometimes. They are principally drilled a few days before the shah's birthday, so that they may look well on the parade day before his majesty."

A VERY WELL KNOWN MAN

Gasping his last breath, Jonathan J. Allison, of West Second street, was found this morning about 10.45 o'clock in the barn at the rear of the family residence, by his daughter, Miss Ida Allison. There was no answer to the girl's startled cry, "Father, what is the matter?" She hastened to his side, but the spirit had departed.

Mr. Allison had left the house but a few moments before to do some chores around the barn. He had complained during the morning of cramps and had come to the house for something to relieve the pain. He was given a mixture of pepper and water and told the members of the household that it relieved him. They tried to induce him to remain at the house but he persisted in returning to the barn.

In that structure is a small room formerly used as a corn crib but lately fitted up by Mr. Allison for a reading room and there he spent considerable time.

Mr. Allison was 74 years of age and until about two years ago had been a teamster. He was born and reared in Hancock county, coming to this city 22 years ago. He was a highly respected and well liked citizen, kind and charitable. Besides the widow he is survived by seven children, two brothers and one sister. The children are Frank and Grant Allison, of McDonald, Pa.; Oscar Allison, Avondale street, this city; Agnes Elbert, Prospect street; Mrs. John Willison, Third street; Mrs. Maggie Brown, Chester, and Miss Ida Allison, at home. The brothers and sisters are Peter and Alexander and Mrs. John Hunter, all of this city.

Mr. Allison was a member of the First Presbyterian church and the funeral services will likely be conducted by his pastor, Rev. C. G. Jordan.

Candidate for Assembly.

Columbus, May 21.—(Special).—Ex-Representative Charles McGlinchey, of Tuscarawas county, a brother-in-law of Contractor Ed Cook, of East Liverpool, may be a candidate for a third term. He served in the Seventy-third and Seventy-fourth general assemblies, and was one of the best debaters on the minority side. There is another candidate for the nomination, but there is doubt of his ability to win as McGlinchey stands high with the voters, having been honored twice by them.

Nominated for Judge.

Hon. S. W. Durlinger, of London, a relative of Mrs. Ed Knowles, of East Liverpool, was one of two candidates nominated for common pleas judge by the Republican convention of the second sub-division of the Fifth judicial district at Circleville yesterday afternoon. The convention deadlocked on the nomination of a third candidate and adjourned to meet at Washington Court House May 28. Mr. Durlinger was named for the long term.

REPAIRING ROADS
WITH FURNACE SLAGAn Experiment Begun at Salineville
Which Promises Good
Results.

Salineville, May 21.—(Special).—The Fox Township Good Roads association received its first consignment of slag from the Leetonia furnaces this week. The cars, eight in number, were transferred from the main line of the C. & P. to the branch and placed on the switch near the Hethrington mine.

Samuel Toban, who has charge of the district west of town, was busy Monday with about 15 teams hauling the slag from the flats to the road just west of the corporation line. The work was commenced at the county line and will be extended west covering about 16 feet of the road which in many places is entirely too wide, and to cover all the road would be almost impossible, as thousands of tons of slag would be consumed.

The workmen are placing the slag about six inches deep on the main part, and gradually slope it down to the drains on each side. The roads have been worked with a road making machine and are in excellent condition for the improvements to be made. Good drains on each convey the water off the road, and in many places new tile have been placed for culverts. This is the first movement of the Good Roads association near Salineville, and everybody is highly interested in the work, and will lend every effort to have all the roads leading to the village put in excellent condition.

WITH BARE FEET
AND SCANT ATTIREWoman Walked the Streets in
Search of a Police
Officer.

CHARGE OF CRUELTY MADE

Barefooted and scantily dressed, Mrs. James Welch, of Fourth street, attracted much attention and caused considerable wonderment among spectators on the streets last night between the hours of 12 and 1, when she ran up and down the thoroughfares, crying aloud and stating that she was on the hunt for a policeman.

She finally ran across Officer Aufderheide, at the intersection of Franklin avenue and Sixth street and while tears flowed down her cheeks in profusion, she related a sad tale. Marks on her neck and her haggard appearance convinced the officer that she was stating facts, and when she asked that he accompany her home he readily consented to do so.

Upon their arrival at the Welch home the officer found things topsy-turvy. The husband had come home, and for some unknown reason, created a rough house. It is alleged that he first broke down the front door and then seized his wife by the neck and cruelly choked her. She stood his actions until forced to leave to free herself from bodily injury. She first applied at the city hall and afterwards went over numerous streets. Officer Aufderheide succeeded in quieting the man and left them.

SAFETY BOARD
STARTS WORKA Harmonious and Business-
Like Session Held Last
Evening.

CLASSIFICATION IS MADE

Of Police and Firemen As an In-
spiration to Faithful
Work.

JAIL REFORM DEMANDED

With representatives of the press, Mayor Weaver and Chief Wyman as auditors, the board of public safety held a short but very important session in council chamber last evening. It was its first regular meeting, and the many preliminary proceedings incident to the commencement of actual work were taken up, and after due consideration many formulas were adopted.

It was decided that all meetings be conducted in accordance with parliamentary rules. President Grafton addressed the board at the very outset and in a neat little speech gave the members some advice well worth remembering. One point he made with emphasis, that perfect harmony should exist at the meetings and that no two members talk at the same time. He then presented an order of business that he had prepared and it was unanimously adopted.

E. N. Huntsman was appointed to act as clerk of the board for the ensuing two years. The question of salary was talked of and it was thought by the members that council showed a generous spirit when the allowance of \$10 was granted the clerk. Mr. Huntsman made it understood that he would never have applied for the position had he thought he would not have been both clerk of the board and mayor's clerk. It was in anticipation of \$10 per month that his application was filed. He, however, concluded to accept the honor.

A communication had been received asking for the privilege of attaching a fire plug to an 8-inch water main recently laid by the Brunt Pottery company. The company agreed to stand all the expense and was granted the right. Mr. Taylor made the statement that he would never approve of the expenditure of a penny until the city is relieved of its present financial embarrassment, but as the pottery company had agreed to bear the expense he had no objection to it having the plug.

The condition of the streets from the standpoint of the board's jurisdiction was taken up, but there was no definite action. It was the sentiment of all that just as soon as the rules and regulations are drafted for the covering of action under the direction of the board, the police shall be instructed to see that all city ordinances are carried out to the letter. This will mean considerable study of the ordinance book by the officers.

One member thought that the police should be instructed at the present time to take notice of the rubbish etc., that lies around on the streets and rectify those responsible to remove it.

Three applications for positions were received and read by the clerk. They were from Thomas Betteridge, St. John street, who has aspirations to be a fireman; John Beardmore, West Market street, and John McVey, Broadway, both of whom want to be policemen. The application of McVey was accepted and placed on file, but the others were rejected owing to the prescribed formula not being adhered to. The clerk was instructed to inform them of the mistake.

The next order of business was to classify the two departments that come under the public safety head, the police and firemen. After much discussion a motion was made by Mr. Taylor that the police department be divided into two classes, as follows: One chief and eight patrolmen. When the classification of firemen was taken up none were satisfied for a time as to the proper course to pursue. Chief Wyman suggested a plan which was adopted and the department will be divided as follows: A chief, assistant chief, captains and firemen. When the fire station is erected on the northside it will be necessary to have at least two captains. One will serve in the East End and one on the Northside.

It was the desire of the board to classify the departments into as many positions and ranks as possible, in order that the people serving in either department will have an inspiration to work for higher berths. Under the merit system a man is promoted only as he deserves it, and the more the ranks the better chance a man will have.

Messrs. Taylor and Dawson were appointed by the president to draft rules and regulations governing the two departments. They are to be ready at the next meeting if possible, and if they are acceptable to the other members they will be adopted.

It was decided that a date be set for the holding of an examination for those who wish appointments and the board finally decided on the evening of June 9. The examination will start at 7 o'clock and will be held in the council chamber.

Mr. Dawson had inspected the jail and was dumbfounded when he saw the condition of the women's department. He thinks that some provision should be made where a new apartment shall be erected. He favors tearing down the old frame shack and replacing it with a brick structure. Chief Wyman stood by Mr. Dawson in his remarks and stated that a person confined in the iron cage when a fire starts would be burned like a rat in a trap. It was recommended that steps be taken to have some one around the city hall at all times. The matter will be taken up at a later meeting.

The board adjourned to meet on next Wednesday evening, that day of the week having been decided upon for the weekly meetings. The members will inspect the central fire station this evening.

BRIGHT OUTLOOK
FOR UNION MENEncouraging Reports Are Made to
Trades Council
Meeting.

LABOR TROUBLES ENDING

Never before in the history of East Liverpool has the industrial outlook been more promising from the standpoint of the trades unions than at present. There have been few meetings of the trades council within the past six months that a grievance of some sort was not brought to that body for adjustment. Though the meeting last night was no exception to this rule, there were so many encouraging reports from organizations, whose members had previously been in trouble that the session was unusually gratifying.

Seven new delegates were seated at the beginning of the meeting, and the routine business was passed over with dispatch. Several communications of an important nature were received, and in each instance the action taken was prompt and effective.

There has been a movement on foot in the union organizations of the state of Missouri for some time, having for its object the adoption of a plan to elect the representatives to the legislature of that state by the referendum plan. The efforts of the Missouri unionists had been successful, and it was urged that the tradesmen of Ohio take up the movement. The communication was received, and if the local council sends a delegate to the meeting of the Ohio Federation of Labor, the matter will be placed in his hands.

At the last meeting of the council a communication was received from the tobacco workers of Louisville, Ky., containing the information that a tobacco company of that city had refused to recognize the union. As the concern manufactured a number of popular brands, a committee was appointed at that time to visit the merchants of this city and ask that they discontinue the sale of the company's output until a settlement could be effected. It seems the trouble at Louisville was of short duration, since a communication from there informed the council that the difficulty had been amicably adjusted. The committee and the members of the body will take steps at once to prevent the tobacco company's patronage in this city from being injured.

The delegates from the plumbers' union, the members of which have been on strike for several weeks, reported there was nothing new in the situation, but that they were determined to win, and that the prospects for doing so were never more promising. An even more encouraging report

TOM JOHNSON HAS FROWNED

And the Former Columbiana Coun-
ty Man Does Not Dare
Talk.

NO CHANCE OF NOMINATION

Columbus, May 21.—(Special).—While in Columbus yesterday, Hon. John L. Zimmerman, of Springfield, the former Columbiana county man, delivered himself of a statement sparkling with luminosity with regard to his candidacy for the Democratic nomination for governor. It will be observed that he is long on ponderous words. Here it is:

"If the logic events render it expedient that the minority party of Ohio considers it imperative for a restoration of the conditions precedent to the sequence of fortuitous episodes culminating in the apotheosis of discontent expressed at the last fall election, the consensus of opinion pointing to the wisdom of the course, I may deem it advisable to abandon my present reserve and speak without ambiguity relative to the consideration of the proposition to permit myself to be influenced as possibly receptive to influences that might induce me to declare my position."

The average wage earner will appreciate the lucid terms employed by Mr. Zimmerman in making known his attitude. Reduced to a synthesis the statement means he is practically out of the race. At the start it was all Zimmerman but it is understood Tom Johnson has frowned upon his candidacy and at present it seems to be all day with him.

SURPRISED FRIENDS
BY GETTING MARRIEDF. G. CROXALL AND MRS. POL-
LOCK WEDDED QUIETLY.Both Are Well Known And Highly
Respected Residents of
the City.

The many friends of Frederick G. Cixall and Mrs. Anna Pollock were immensely surprised—agreeably, however—this morning when the news leaked out of their marriage. Both are life-long residents of the city and command the highest respect of the entire community. It had been whispered a little of late that Cupid's dart had touched the hearts of the couple, but none were expecting the nuptial event to occur so soon, and the surprise was genuine.

The ceremony was performed at the First M. E. parsonage at 9 o'clock last evening by Rev. Dr. Pratt. The couple had been to prayer meeting together and at the conclusion of the services hid themselves to the parsonage just as they did some 35 years ago when they first took unto themselves helpmates. The marriage was conducted in a very unpretentious manner, only the contracting parties, witnesses and the minister being present.

The groom resides on Fourth street. He is at the present employed at the Union pottery in the capacity of warehouse foreman and is one of the best men in such a position in the city. Mr. Cixall is a veteran of the civil war, a director of the Potters' Building & Savings company; a member of the Pennsylvania avenue assessing board and one of the prominent members of the Masonic lodge. His efforts for the betterment of the city by living an upright, honest and industrious life have caused him to be one of the foremost residents of the city.

The bride is also a resident of Fourth street. She is the widow of the late Daniel Pollock, and is a most estimable lady. Both parties have children that are married. Scores of friends wish the couple a long and happy life.

Prize Contest.

NO CHANGE IN POSITIONS

New York has regained the lead in the National league of ball clubs, but there has been no change in the standing of the contestants in the News Review's popularity contest. That the candidates are as hard at work as ever is seen by the constantly increasing number of votes. A change in the standing of the candidates would evoke much more comment than that in the big league race. Whether or not the candidates will finish as they now stand is causing a great deal of conjecture. Some of those apparently outside of the coveted circle claim that they are prepared for a glimmer finish. At any rate, the figures will be closely watched every day by thousands.

CONDITION
IS CRITICALNuzum, the Man Shot at Elkton,
Not Likely to
Survive.

ASSAILANT UNDER BOND

Claims That the Shooting Was Ac-
cidental, Not In-
tentional.

SYMPATHY IS WITH CLUNK

Lisbon, May 21.—(Special).—Frank P. Nuzum, the man who was shot at Elkton yesterday morning, passed a very restless night and continues in a critical condition this morning. The physicians have but little hopes for his recovery.

Anthony N. Clunk, who is in jail here for the shooting, reiterated in an interview last evening substantially what was given out yesterday. Clunk now denies the report that he had expected undue intimacy between his wife and Nuzum. He says he had gone home sick from his work at the Klondike coal mines. On his way to the mines yesterday morning he found that he would again be unable to work and returned home.

When some distance away from the house he saw Nuzum enter and a few moments later, when Clunk was in the yard, he heard Mrs. Clunk scream four times. Pushing open the kitchen door, he learned that the disturbance was in an adjoining room and opened the door.

When Nuzum saw Clunk, he jumped up and ran toward the door in which Clunk was standing. Clunk says he did not know whether Nuzum was trying to get away or whether he was going to attack him, and opening a clothes press just by him he took out a shot gun. He says he did not intend to shoot and thinks that in raising the hammer it slipped from his grasp, discharging the load. Nuzum fell exclaiming that he was shot.

Clunk said: "I didn't intend to shoot you." And Nuzum, he says, replied: "I don't think you did."

Clunk then hurriedly summoned medical aid. He says Nuzum's son has been a boarder at their house for some time and that the families have been quite intimate. Mrs. Clunk and Mrs. Nuzum having been related. Since the death of Mrs. Nuzum last winter her husband has boarded himself at his own home and Clunk has done most of his dealing at Nuzum's store in Elkton. Nuzum is 50 years old and Clunk is 44.

It seems to be the general impression in Elkton, Clunk's story notwithstanding, that there has been some ill feeling between Clunk and Nuzum on account of the latter's alleged intimacy with Mrs. Clunk and it has even been reported that at one time Clunk ordered Nuzum to keep away from his premises. Clunk has also borne a good reputation and he has the sympathy of the people. It is said that he can procure bail for any amount.

Clunk was arraigned in the court of Justice Lodge Riddle this morning, charged with shooting Nuzum with intent to wound. He pleaded not guilty and was held for a preliminary hearing under \$1,000 bond.

Nuzum is doing as well this afternoon as could be expected, but the attending physician says it will be almost impossible for him to survive. The shot, which penetrated his groin, exposed the intestinal membrane and inflammation is almost sure to result.

Called to Sebring.

President T. J. Duffy, of the N. B. of O. P., received a message this morning from Sebring that necessitated his presence there. He left on the morning train.

WITH THE WORKMEN IN THE CLAY PLANTS

NARROW ESCAPE.

Park Beatty and Peter Sauls, ghost hunters at McNeils, had a thrilling experience Tuesday shortly after the noon hour, and that they are alive and uninjured today borders on the miraculous. Both of the men were at the top of the long steps in one of the kilns with sappers on their heads and were placing them at the top of the kiln. One of the men lost his equilibrium and the ladder began to topple. In spite of their best efforts they were precipitated to the floor of the kiln, a distance of 18 feet. Both men, during their sudden descent, managed to clutch the small ladders, thereby breaking the force of the fall. Several of the kilns were disturbed, but the other members of the crew were soon on the scene and prevented them from falling. All were agreeably surprised when it was learned that both the participants in the thrilling adventure had escaped without the slightest injury.

The accident will recall to kilnmen similar occurrences in the past few years, during which time several men have met death. More people are injured in this way than in any other department of a pottery and the occupation of the kilnmen is certainly the most hazardous. In the accidents of this kind where fatalities have resulted none fell from such a great height as the men at McNeils.

TRADE CONDITIONS.

The condition of trade among the local potteries has not improved to any considerable extent in the past two weeks, and when the lull comes for the mid-summer loaf the present conditions will no doubt still exist. The first half of 1933 has not been entirely satisfactory to the manufacturers as to the volume of business, but in many respects it has been more satisfactory. While many of the firms have done less actual business the profit has been greater, as they have done away with the scheme contracts that were paying them poorly if at all. This, rather than the new selling agreement, has caused the present dull time. East Liverpool is not alone in experiencing a weak market. None of the potteries at Wheeling were working full during the time of the convention and in other nearby towns the same conditions exist. The decorators have suffered more than the operatives of other departments. Several local plants have done practically no decorating since the first of the year, while they operated fairly well on plain. The manufacturers are confident, however, that the demand for all lines will be much stronger in the last half of the year.

MOORE HAS RESIGNED.

Frank Moore, of the Severs, has resigned his position and has left the business permanently. During the summer months he will be a member of the orchestra at Rock Springs park and in the fall he will go to Morgantown to enter the West Virginia university. Mr. Moore has been operating the gold machine, the invention of W. H. Deidrick, a member of the firm, and his position has been a most responsible one.

A LARGE PLANT.

The new Bell pottery at Columbus, which is to be managed by A. S. Hughes, is one of the largest single plants erected in recent years. It will be 12 kilns to start, but this number will be increased from time to time as the business warrants. The site of the plant is four miles east of the

business center of the city and is reached by an electric, as well as a steam railway. The location offers many advantages. Mr. Hughes will leave this city for Columbus about the first of next month and will direct the preliminary work for the mechanical end. The plant is now under construction, but it will be some little time before the machinery can be installed. The mouldmakers have not started to work yet, and it is estimated that work will not be made sooner than the first of September.

GONE INTO BUSINESS.

Cyrus Bayley, who returned about two months ago from Pittsburgh, where he was under treatment for a number of weeks in a hospital, has opened a confectionery establishment on West Market street. Mr. Bayley was much benefited by his stay in the hospital, but will never be able to return to his trade as a potter.

AMONG THE WORKMEN.

The employees of the Union are having a nice vacation while the changes are being made in the plant. The work will be done by the end of the week.

John Demmerling, the well known pinner, formerly of Laughlin No. 2, has taken a situation with the Pioneer plant, Wellsville, starting today. He will make basins.

RULES WHICH GOVERN APPLICANTS FOR JOBS

Those Who Want Places as Police or Firemen Must Stand a Rigid Examination.

Present indications are that many residents aspire for appointment on the police force or fire department. All such appointments will be made by the board of public safety. In view of the large number of applications, the board will pass only those who comply in every detail with the requirements, and at the meeting last evening it was decided to make the examinations thorough.

One member of the board thought that the present force will be compelled to take the examination, but this, it is said, will not hold. The police and firemen are to stay in office until charges are made and proven against them showing them to be incompetent. The board wishes to give every applicant equal chances for appointment and will carry out the provision of the code to the letter. For the benefit of those thinking of filing an application preparatory to taking the examination the following is given:

"Every application, in order to entitle the applicant to appear for examination or to be examined, must state in his own handwriting the facts under oath on the following subjects: First, full name; second, nationality; third, age; fourth, place of birth; fifth, health and physical capacity for public service; sixth, previous employment in public service; seventh, business or employment, and residence for previous five years; eighth, education; ninth, such other information as may be reasonably required by the board touching the applicant's fitness for public service.

"No person habitually using intoxicating beverages to excess shall be appointed to or retained in any office, appointment or employment to which the provisions of the merit system are

COMMISSION HOUSE BANKRUPT

Porter Brothers Company, of Chicago, in Hands of Receivers—Largest Concern in Country.

Chicago, May 21.—Bankruptcy proceedings against the Porter Brothers company, one of the largest fruit commission houses in the country, were begun Tuesday in the United States district court Tuesday and receivers have taken charge of the company's affairs. John McLaren, former vice president of the Union National bank, and Henry L. Wilson, a lawyer, were directed by Judge Kohlsaat to take charge of the assets of the corporation. This was done on application of several creditors, who alleged that the concern was insolvent and that its officers had made preferential payments.

Until the return of James S. Watson, president of the corporation, the receivers do not expect to find out much about the financial condition of the company. Attorneys Deftrees, Brace and Ritter, who represent the receivers, said they could not estimate the liabilities or assets of the concern. It is probable, however, that the debts will prove to be larger than the assets, which are worth from \$100,000 to \$200,000.

The concern was capitalized for \$1,000,000 and had a high financial rating. The stores of the company in Chicago are at 37 South Water street and 46 River street. The concern also owns large branch houses in New York, Boston, Minneapolis and at several places in California.

President Enters Oregon.
Ashland, Ore., May 21.—President Roosevelt completed his tour of California and entered upon the last stages of his long trip, which is to end at Washington, June 5. The day's journey had been through the mountainous region about Mount Shasta, where the towns are few and far between, and consequently he has been called upon to do little speaking. Governor Pardee, of California, who has been with the president almost continuously since he entered that state, bade him goodbye at Hornbrook and in the short address the president delivered at that place he said he was very sorry to part with him. The president made his longest speech of the day at Dunsmuir, Cal.

3,000 CANCELLATIONS

Of Promotions of Postoffice Clerks Made Necessary by Excess in Grades.

NO EMPLOYEES TO BE REDUCED

Perry S. Heath Notified of Charges. Made by Tulloch—Investigation Will Not Be Completed Before First of July.

Washington, May 21.—The cancellation of the promotions of over 3,000 postoffice clerks throughout the country recently authorized by the department, and a formal notice to former First Assistant Postmaster General Perry S. Heath of the charges made against him by ex-Cashier S. W. Tulloch, of the Washington city postoffice, constituted the developments in the postoffice investigation. First Assistant Postmaster General Wynne reported to Postmaster General Payne that the tabulation of the clerks in each grade in postoffices of the first class had been completed. This work was undertaken in accordance with the order made by the postmaster general to rearrange the salaries of the clerks already classified so that the number in the several grades shall not exceed the number specifically prescribed in the act of congress making appropriations for the postal service. The former classification was made by George W. Beavers just prior to his sudden resignation as chief of the division of salaries and allowances.

The new schedule approved by the postmaster general after transferring 5 per cent from grades where there are vacancies, as authorized by a recent decision of the comptroller of the treasury, makes it necessary to cancel 3,046 promotions in the several grades in which there is an excess above the number to which the grades are limited by law, and in which grades 7,412 promotions have been authorized heretofore. The report says: "It will not be necessary in any case to reduce any clerk, but simply to cancel 3,046 out of 7,412 promotions heretofore authorized to take effect July 1, 1933. We will proceed at once to ascertain exactly the number of promotions in each grade it will be necessary to cancel at each postoffice and then will inform the postmasters and allow them to select the increases which must be cancelled."

Most of the excesses in the number in the respective grades of clerks scattered throughout the United States at first-class presidential offices are in the \$900 and \$1,000 per annum classes.

The postmaster general sent to Mr. Perry Heath a copy of the charges filed by Mr. Tulloch, together with a letter requesting any information he may care to submit on the subject. This is the first official communication with Mr. Heath during the investigation. None of the supplemental answers to the postmaster general's letter giving the more definite allegations of Mr. Tulloch have yet been received by Mr. Payne. Auditor Castle, of the postoffice department, was busy reviewing the records of his office in connection with the Tulloch charges and will submit his reply to the postmaster general in the afternoon, with a request that they be given publicity in view of the publications of the charges. Captain Castle will confer with Comptroller of the Treasury Tracewell, who also is preparing a reply to the Tulloch allegations.

The end of the investigation is not yet in sight. Fourth Assistant Postmaster Bristow, who is conducting the work, has not set any date for the submission of his report for the reason that the sweeping nature of the investigation has made it impossible to indicate when the whole matter will be ready to be placed in the hands of the postmaster general for final disposition. It is probable that the report will not be submitted before the close of June or the early part of July.

WORKS OF ART IN A LOCAL CAFE

WONDERFUL TRANSFORMATION AT THE MANZANELLA.

Beautiful Oil Paintings to Adorn the Walls—Other Handsome and Tasteful Decorations.

The Manzanello cafe and bar on Diamond street, of which A. R. Guthrie is proprietor, long one of the most popular places of the kind in the city, will soon be made more attractive than ever. When extensive improvements which are now in progress are completed, former patrons will scarcely be able to recognize the place. Mr. Guthrie, determined to have not only the best, but the handsomest cafe in the city, now has a force of men at work completely renovating the interior, and the improvements will extend to every nook and corner.

First of all, every room in the place is to have its walls adorned with fine oil paintings of great size and beauty. These pictures will be copies of celebrated paintings, and being made by artists of skill and experience, will be genuine works of art. East Liverpool has nothing to match them, and few if any of the larger cities have anything finer. Besides the paintings on the walls, the ceilings are to be exquisitely decorated with beautiful designs, and flooring, walls and ceilings will be finished in appropriate and tasteful tints. Mr. Guthrie, who had many years' experience as an decorator in local potteries, is supervising the work, and it is needless to say that everything will be harmonized and beautified in genuine artistic style.

The woodwork will be tastefully painted, new and handsome lamps and other equipments, both useful and ornamental, will be supplied and the whole establishment brightened up to look as if everything were absolutely new. When the changes now under way are effected the Manzanello will have no superior in East Liverpool or in Eastern Ohio.

Mr. Guthrie has had years of experience as a caterer, and his many patrons are well aware that there is nothing which they are likely to call for that his house cannot supply, and that the goods sold, whether foreign or domestic, are of the highest quality, served promptly and in the best of style. Under the new order of things the Manzanello will be more than ever first class in all respects—the cafe and bar par excellence of the city—and the favorite resort of those who, when in quest of food or refreshing drinks, are satisfied with nothing but the best.

NEW BUILDINGS FOR
PORCELAIN COMPANY

East End Plant to Be Enlarged by
Three New Structures—Capacity
Will Be Doubled.

The East Liverpool Porcelain company, whose plant is in the East End, is to greatly enlarge its business and increase its capacity by the erection of three new and commodious buildings. Architect A. W. Scott is now drawing the plans for the first of these buildings and it is to be built as soon as they are completed.

Electric porcelain is growing more and more every day as an important industry and it is a very valuable addition to the other clay products of the city. The East Liverpool company has prospered greatly and its product has won quite a reputation over the country. As a result the stockholders feel justified in going in to the business on a much larger scale.

The first new building will be 64x83 feet, two stories high and only the best material and most skilled workmanship are to be employed. It will be located convenient to the present plant. The second building will be of the same dimensions and its erection will be commenced as soon as the first one is completed. The third is to be of the same size of the other two, but will have three stories.

These improvements will more than double the capacity of the present plant and give employment to a hundred or more men in addition to the present force.

POLICE EXPECTED

TO KEEP BUSY

STANDING STILL HALF AN HOUR
WILL NOT DO.

The Merit System Gives Officers An
Incentive to Be Diligent.

According to the merit system provided by the code of the board of public safety has decided to draft rules which will give the members of the police force and fire department an incentive to carry out their duties in strict conformity with all requirements. Two things will be considered when a time comes for appointing an officer—his general qualifications and his length of time in service. The latter point considered will give Officer Mahoney, of the police force, first place. He has been in the service for five years, having been appointed under the administration of Mayor Bough. Providing his other qualifications come up to the standard he will be the first in line for promotion.

It has been intimated by the board that the rules governing the actions of the two departments will be stringent, but will not be unreasonable. They intend to study the rules as adopted in large cities and select from them sections that can be made applicable in this city. Every member of the board stands for the members of both departments working every minute of the time specified, which for the police is 12 hours straight. They are supposed to walk their beats continuously. One member of the public safety board states that he timed one officer the other evening and he noticed that the "cop" stood forty minutes in one spot. Such actions, he said, will not be tolerated. He also said that the rule will be inserted prohibiting an officer smoking while on his beat, especially in the day time. It is possible that they will be allowed the pleasure from midnight until they go off duty in the morning. The police and firemen will be required to keep themselves scrupulously clean. They must have spotless clothing and their shoes must be shining every time they report for duty. Numerous other rules will be drafted and it is thought they will be ready for observance before June 4.

A Woman's Complexion.
It is rank foolishness to attempt to remove sallowness or greasiness of the skin by the use of cosmetics, or "local" treatment, as advocated by the "beauty doctors." The only safe and sure way that a woman can improve her complexion is by purifying and enriching the blood, which can only be accomplished by keeping the liver healthy and active. The liver is the seat of disease and blood pollution. Green's August Flower acts directly on the liver, cleanses and enriches the blood, purifies the complexion. It also cures constipation, biliousness, nervousness, and induces refreshing sleep. A single bottle of August Flower has been known to cure the most pronounced and distressing cases of dyspepsia and indigestion. New size trial bottle, 25 cents; regular size, 75 cents. Mull's Grape Tonic Cures Constipation.

When the bowels move irregularly the entire bodily system must suffer. Constipation more frequently occurs among women and it manifests itself in provoking profuse leucorrhea and other serious female diseases. Regular bowels will result in a complete cure when you use Mull's Grape Tonic. Unlike pills and ordinary cathartics, this remedy is a mild, gentle laxative in addition to being a greater flesh-builder, blood-maker and strength-giver than cod liver oil or any other preparation recommended for that purpose. Mull's Grape Tonic will permanently cure the most obstinate case of constipation, and the numerous ailments that invariably follow in its wake. No matter if it is piles, liver complaint, kidney disorder, vertigo, palpitation of the heart, diarrhea or the self-poisoning which follows when the undigested food remains in the bowels where it putrefies and empties highly diseased germs into the blood, such as typhoid and malaria, Mull's Grape Tonic will positively cure. Large sample bottle will be sent free to any address on receipt of 10 cents to cover postage, by the Lightning Medicine Co., Rock Island, Ill. Send name of your druggist. All druggists sell Mull's Grape Tonic at 50 cents a bottle.

The board of public safety made it apparent at its first meeting that it is a business body and proposes to look after city affairs solely on business principles. Its determination to have a strict enforcement of all ordinances that relate to the police and firemen will meet with universal approval. The ordinances were made with the expectation that they should be enforced, and if their strict application works hardships or injustice, it will be an easy matter to secure the repeal of those that are objectionable. They should, however, first be given a thorough trial. Ordinances will doubtless be found, the enforcement of which has never been attempted, and the very existence of which is known to but few people. Whether they are useful or useless can only be determined by giving them an impartial test. The public safety board can make itself a very important and influential factor in the city government, as the new code plainly designs that it should be. That the board is entering upon its duties with the determination to perform them well and faithfully is a most encouraging indication. Success to its efforts.

The Cuban republic is celebrating the first anniversary of its independence. President Palma says the people amidst their happiness do not forget how much they are indebted to the American people for the noble share they took in gaining freedom for the island. This is doubtless true of

all intelligent and progressive Cubans. Even the rest will come to see in time that no nation ever made the sacrifices for another that the United States made for Cuba.

According to report the Blackburns, who are numerous in Ohio and Pennsylvania, have put themselves to a good deal of trouble and expense in the hope of securing a \$70,000,000 fortune, which is now said to be a myth. This is the usual history of American attempts to claim real or imaginary fortunes. It is usually found upon investigation that the army of claimants is mustered and encouraged by unscrupulous attorneys, who hope to get fat fees while the "heirs" go left.

When the state of Ohio was born it had less than 50,000. Now its population is nearly 4,500,000 and its growth in all the other essentials of greatness has more than kept pace with its advancement in this respect. There is abundant reason for making the centennial celebration now in progress at Chillicothe a grand affair.

General O. O. Howard thinks he can put a stop to the feudal wars of Kentucky by personal appeal. It is suggested that the general carry a mountain howitzer as a gentle persuader and a bowie or two for use in case there should be a request for arbitration.

Automobiles are becoming almost as common as other vehicles on East Liverpool streets. So far they have refrained from following the fashion of the city-style outfits and creating almost daily excitement by running away.

The army board has declared in favor of the new service rifle for use in the United States army. This new arm was evolved by army officers, and is believed to be the most powerful one in the world.

If Tillman and Bryan keep on pitching into Grover Cleveland they will eventually succeed in restoring a great deal of the popularity once enjoyed by the ex-president.

Under the new code the policeman's lot is not a happy one. So far, however, he is resigned rather than resigning.

THE PITTSBURG TORIES

All Were Not Patriots in Early History of Western Pennsylvania.

NUMBER STILL LOYAL TO KING

Secret Meeting Place at House of Captain McKee, Where McKees Rocks Now Stand—Three Notorious Tories Called Pittsburgh Home.

Western Pennsylvania gave men freely to the cause of liberty in Revolutionary days, especially in the ranks of the Eighth Pennsylvania infantry. In later times of public danger freedom from the forks of the Ohio were never wanting when called for, so that the patriotism of Pittsburgh and vicinity has become proverbial in the nation. This being true, it is all the more startling to know that Pittsburgh furnished in 1775 three of the most noted Tories and renegades ever known, and that these were the leaders of others less famous, but not less infamous, who under cover of night fled to the western frontier and became even more desperately cruel against their own flesh and blood than were their naturally savage allies.

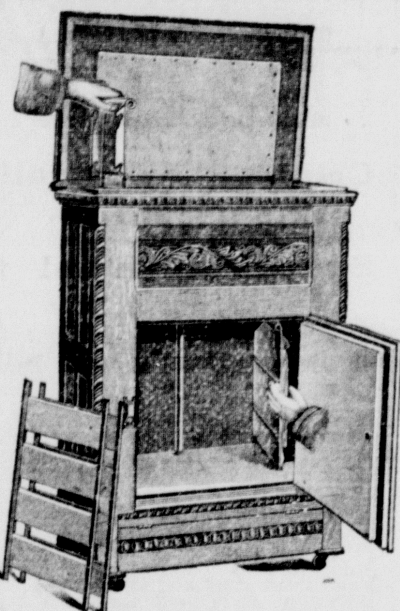

The winter of 1777-8 was a dark time for the American cause. Reverses were many and encouragements few. Numbers of men who had no heart in the revolutionary struggle began to feel that there was small hope of patriot victory and to look with more and more of open favor on the king's cause. On the frontier at Pittsburgh there were numbers of such Tories, both in the fort and in the town. In the early spring of 1778 a British spy from Detroit ventured into the town and worked successfully for some time fomenting treason and scattering offers of reward for defection. There was in Pittsburgh at that time a park known as the King's Orchard, or the King's Artillery Gardens. Its name was more pretentious than the park itself, but it was used by the forces as a place for flying for a little while a British flag, their boldest act. These gardens lay along the Allegheny river front for some distance above Fort Pitt, where now is Duquesne Way. The work of propagating Toryism was also carried on at Redstone Old Fort, now Brownsville, the royal flag flying there unmolested all through the winter of which we now write.

As there were a goodly number of Tories about Pittsburgh they selected the house of Captain Alexander McKee, deputy Indian agent, a man of ability and prominence, as their secret meeting place. This was situated on the farm of fourteen hundred acres which Colonel Bouquet had given him in 1764 at the mouth of Chartier's creek, the place now known as McKees Rocks. It has stood until the present day. Here by twos and threes, or in full company at night, the men who thought to trim their course to the more favoring wind met and plotted. The three leaders in this movement were Alexander McKee, Matthew Elliott and Simon Girty, names which soon became the synonyms for cruelty, strife, trouble and worse than the bitterness of death to the suffering frontier which they ravaged till in 1794 Wayne's victory at Fallen Timbers ended their long and bloody reign as scourges of the back settlements.

At this time McKee was on parole not to hinder the patriot cause. General Hand, at Fort Pitt, finally became exasperated and ordered him to report to the American authorities at York. This he avoided doing for some time, pleading sickness. At length the general sent soldiers to his house to arrest him on Sunday morning, March 29, but they could not find him. The previous night, he, Elliott, Girty and four others had fled. Thus from Pittsburgh went out the men whose very names became a hissing in the mouths of their own people. They made their way to the Delaware Indian towns, and finally under escort reached the British post at Detroit, where Governor Hamilton gave the three leaders commissions in the British service. Girty's brother, James, joined the party in the Shawanese country and took a full share in the deviltries of the awful years which followed.

When this party went away the trouble was not yet all over. McKee and his conspirators had found a number of sympathizers among the soldiers of the Thirteenth Virginia regiment, in garrison at Fort Pitt. On the night of April 20 a party of about 20 of them deserted the fort and fled in a boat down the Ohio after finding themselves unable to execute their plan for blowing up the works. They were pursued and overtaken near the present city of Marietta. Eight got to shore and plunged into the forest and were never heard of again. Several were killed. The others were brought back to Fort Pitt and court-martialed. Two ringleaders were shot and one was hanged, and two others of the party were given a hundred lashes well laid on. The executions took place on the parade ground of the fort, about where now is that portion of Penn avenue opposite the mouth of Fort street. Amid the dingy surroundings of this spot to-day there is little to suggest the tragic grimness of that other day when those unhappy men gave their lives as forfeits in the game of treason and desertion.

A letter written "Apr. ye 26th, 1778," by Colonel John Proctor to the president of the Pennsylvania council, gives a more than usually interesting contemporary view of the events narrated in this sketch. He writes as one who loved his country better than he knew his spelling book: "Sir, I am able to inform you that Capt. Alex-

ander McKee with seven other vilions is gone to the Indians, and since there is a Serjt and twenty of men gon from Pittsburgh of the Soldiers. What may be the fate of this country God only knows, but at Present it wears a most Dismal aspect." Had Colonel Proctor been able to foresee the next 16 years of border desolation to be caused by the Girtys and the rest of this precious crowd, he would scarcely have been content with calling them "vilions."

AN OHIO POCAHONTAS.

Victim Saved from Torture by Dusky Belle of the Forest.

Captain John Smith, of Virginia fame, was not the only American pioneer who won the heart of an Indian maiden and was by her saved from a horrible death. The same thing happened to a young man on the Ohio frontier in 1791, but he never wrote an account of his adventures, and so the story is found only by an occasional deliver into the musty records of the old frontier.

In the later mentioned General Arthur St. Clair set out from Fort Washington, now Cincinnati, to retrieve the fortunes of the Americans after Harmar's terrible defeat of the previous year. Though cautioned repeatedly by Washington to avoid certain fatal blunders, somehow this army succeeded in committing some of them, and suffered a disastrous rout. Two of St. Clair's soldiers, young men from the Ohio frontier, were captured and carried by the Indians clear from the southwest corner of Ohio to the north-east corner, to the spot where afterwards was founded the settlement now known as Conneaut. There they were compelled to run the gauntlet, receiving severe punishment. This cruelty did not satisfy the savagery of their captors. A council was held, which decided that the captive named Fitz Gibbon should be adopted into the tribe, while the other unfortunate, whose name the legends do not preserve, should be burned to death. The reason for this distinction does not now appear in any record, but it seemed good to the redskins. They set up a stake, tied the victim to it, and piled the wood about him. Just as the fire was about to be kindled a young squaw, in whose eyes the white prisoner had found favor, interposed in his behalf. Her love made her bold to face the decision of the solemn tribal council. She pleaded her cause with such eloquence that she obtained a respectful hearing. She pressed her advantage, and offered as a ransom several valuable packages of furs and a sum of money. After many expostulations this brave girl won her point, paid the ransom and carried off her captive in noble triumph. Sad it is that her name, and that of the object of her affections, are lost to history. And equally so that the last acts of the drama have never been recorded. One can at least hope that such sacrificing devotion as hers was properly appreciated, and that this nameless Pocahontas was never made to suffer the pangs of ingratitude. She is worthy of as great fame as her Virginia sister.

C. L. SMITH.

Her Reason.

Dr. Porter had responded to a note left at his door by a farmer asking him to go as soon as possible to see his little boy, who had "a very bad cold."

The doctor took one look at the child and turned to the mother.

"Don't you know your boy is coming down with measles?" he asked severely.

"Yes, doctor, I knew he was," said the woman.

"Then what in the world did you mean by writing me he had 'a very bad cold?'" asked the doctor.

The woman hesitated for a moment; then, looking at her husband, she said, with sullen frankness, "Neither him nor me knew how to spell measles."

Waterspout Ruins Crops.

Omaha, May 21.—A waterspout broke in the valley of the Papio river, 20 miles west of this city, and in a few minutes the little stream was a raging torrent from half to three quarters of a mile wide. Great damage was done to the growing crops. Hundreds of acres of corn, wheat and oats have been washed out of the ground. The damage to crops is estimated at \$100,000. The Union Pacific, the Burlington and the Missouri Pacific roads each lost several hundred feet of track. Plattsmouth farther down the Papio, was a heavy sufferer. The flood entered the town through a deep ravine and swept down the main street, flooding basements and running through stores. The damage will approximate \$75,000.

"In the Good Old Summer Time."

Butte, Mont., May 21.—Ten feet of snow is reported from Doughts, Mont., and the thermometer is ranging from 4 to 6 degrees below zero. Traffic on the Great Northern railway is seriously interfered with by the drifting snow and the trains are being operated only under the greatest difficulty. Conservative estimates place the loss of stock at about \$2,000,000 and the number of head of stock lost is figured at about 50,000. The Missouri river is rising rapidly and ranchers are leaving their lowlands in anticipation of disastrous floods.

Crazed Mother's Awful Deed.

Allentown, Pa., May 21.—After placing her two youngest children, Edna, aged 3, and Roy, aged 1, in bed, Mrs. Elvin Bachman, of Slatington, near here, killed them by cutting their throats and then committed suicide by slashing her own throat. She used her husband's razor in committing the deed. Mrs. Bachman was about 40 years of age. For some time she has been melancholy. Her husband was at work when the crime was committed and her other five children were at school.

WELLSVILLE

ALL OF NEVADA STREET

To Eighteenth Street May Be Purchased and Occupied By the Railroad.

The Cleveland & Pittsburg railroad has always been very quick to make repairs but there is a case in the West End where this rule has not been followed. A week or ten days ago the high board fence at the east end of Nevada street was knocked down by a car running into it. Hereafter this fence has always been kept in good condition, but as yet no move has been made to repair this damage. Ever since the company has been talking of enlarging its yards, and purchased the western side of Nevada street for that purpose, the residents of the eastern side of the street have been working hard to keep the company from laying any more tracks over Eighteenth street.

A person living on the eastern side of that street stated yesterday that he had heard it was the intention of the company to purchase all the property as far as Eighteenth street. Those in the employ of the company will neither affirm nor deny the report.

SUIT OVER RENT

Results in Verdict for the Defendant. West End Saloon Bone of Contention.

The case of W. C. Connors, of Wellsville versus the Crocker City Brewing company, of East Liverpool, was heard yesterday before Squire A. G. McKenzie. The suit was over the vacation of property owned by Mr. Connors but leased to the brewing company. The property is in the West End and was formerly occupied by Gus Schlotfeld and is now occupied by Wilfred Ross.

Mr. Connors claimed that the lease had been violated, as Schlotfeld did not pay the rent regularly. The brewing company deposited the amount, \$180 of the back rent, with the court. At 1 o'clock the case was left in the hands of the jury and after being out about three hours it returned with a verdict for the defendant, the plaintiff to stand the costs.

The jury was composed of four members, Charles Cummins, J. N. McLean, Edward Whitten and George Wells. Judge P. M. Smith appeared for the defendant and W. F. Lones for the plaintiff.

The trouble occurred in David's saloon.

Eating a Prickly Pear.

My first sad experience of the African prickly pear was gained on a visit to the market place of Algiers. The fruit was handed to us, politely peeled by the Arab dealer, and thus as we made acquaintance with its delightful coolness no suspicion of its evil qualities entered our minds.

A few days later, adding the excitement of a little trespassing to the more legitimate pleasures of a country ramble, we came upon a well laden group of prickly pear bushes and could not resist the temptation to help ourselves to some of the fruit. The result was woeful.

Concentrated essence of stinging nettles seemed all at once to be assailing hands, lips and tongue, and our skin, wherever it had come in contact with the ill natured fruit, was covered with a thick crop of minute, bristly hairs, apparently growing from it, and venomous and irritating to the last degree.

Our silk gloves, transformed suddenly into miniature robes of Nessus, had to be thrown away, perfectly unwearable, and the inadvertent use of our pocket handkerchiefs before we had fully realized the extent of our misfortune caused fresh agonies, in which nose as well as lips participated. For many a day did the retribution of that theft haunt us in the form of myriads of tiny stings.—"Home Life on an Ostrich Farm."

The Invention of the Piano.

The honor of inventing the piano is claimed by the English, the French and the Germans. Father Wood, an English monk at Rome, is said to have been the real inventor in 1711 and to have manufactured one, which he sold to Samuel Crispi, the author of "Virginia," from whom it was purchased by Falke Greville, though Count Carlo claims the credit for Bartholomew Christoforic of Padua during his stay in Florence some three years later (1714). The French attribute the invention to a Parisian named Marius, who, they alleged, produced in 1716 a harpsichord in which hammers had been substituted for the old plectrums or quills. The Germans are the last in the field with J. C. Schroeder of Dresden, who claimed (1717), when eighteen years of age, to have "constructed after much consideration the model of a new clavichord with hammers, upon which he could play loudly or softly."

BUILDING WORK
BRISK IN CHESTER

The Only Drawback Has Been Inability to Get Material Promptly.

Building operations were never more brisk than at present in Chester. There is one great drawback, and it has been felt for several months. The inability to have lumber and other building materials on the ground when they are needed has handicapped every contractor in the town throughout the entire season.

Finley Bros. are the most important and the largest contracting firm in the city, and many of their jobs have been held back on account of the railroad company's inability to have the shipments arrive promptly when they are needed. There have been several instances of late where the delay has worked a downright hardship. Shipment after shipment has been lost during the past few weeks, and contracts being fulfilled by Finley Bros. at the park and at other points have been delayed.

Building materials have been ordered in plenty of time and the shippers have been prompt in getting them off, but almost invariably the cars have been lost in transit. Several cars are at present on the road and nothing can be learned as to their whereabouts. One consignment in particular is that of an order of shingles which were shipped from Cleveland more than two weeks ago. The firm in need of the supplies were informed that the cars had left Cleveland, but since that time no trace of them could be found. The railroad company has shown as much interest in the matter as could be expected, but has been powerless so far to afford the relief desired. The failure to receive the order has caused the contractors a great deal of annoyance and has been the means of losing considerable time, but it seems there is no relief in sight.

CONFEDERATE VETERAN REPLIES

Refusal of Association to Participate in Memorial Exercises Brings Letter from Clement Evans.

Columbus, O., May 21.—Relative to the action of the Hilltop Improvement association in refusing to participate in the memorial exercises at the Confederate cemetery at Camp Chase near Columbus, Clement A. Evans, commander of the Georgia divisions of the United Confederate Veterans, has written to President W. B. Potts, of the Hilltop association, saying:

"I write merely to say to you that this action and the inflammatory speeches made by some members of the association do not lessen the appreciation by the surviving soldiers of the Confederate army of the fraternal attentions which have been annually shown to the graves of the Confederate dead at Camp Chase, nor arrest the high purpose of the southern soldiers and people to maintain the terms of honorable surrender and to unite with all true patriots of our country in all efforts to achieve the greatest glory."

Imprisonment Sentence Suspended.

Springfield, Ill., May 21.—Clarence H. Verner, the Boston banker, brought to the office of the clerk of the United States circuit court the books of the water works corporations, for failure to produce which he had been adjudged in contempt of court and fined \$1,000 and costs and sentenced to six months in jail. Judge Humphrey entered an order that having paid the fine imposed and produced the books and documents in question he had to that extent purged himself of contempt of court and ordered that the execution of the sentence of imprisonment be suspended.

CONFERENCE OF GLASS PEOPLE

Jobbers Recommend Purchase of 300,000 Boxes of Window Glass—Manufacturers Will Confer.

Cleveland, May 21.—As the result of a conference between representatives of the American Window Glass company and representatives of the principal jobbers throughout the country, the jobbers have recommended that 300,000 boxes of window glass be purchased at an advance of 5 per cent over the last purchase. This is in accordance with a proposition made by the manufacturers. The manufacturers have adjourned and the jobbers will take definite action on the purchase of the 300,000 boxes of glass. The matter is in the hands of the executive committee of the jobbers.

Representatives of the plate glass manufacturers are coming to town for a conference with the jobbers.

Trade conditions in plate glass are said to be unstable and important action is looked for in this branch of the trade.

Killed Brother in Self-Defense. Middleboro, Ky., May 21.—Lee Turner, of the "Quarterhouse," where several were recently killed, on Tuesday shot and killed his half-brother, "General" Turner at Jacksboro, Campbell county, Tenn. It is claimed that he acted in self-defense. "General" Turner has been in the Jonesboro jail for some time and Lee refused to bail him out. This infuriated the "general" and when he was released he attacked Lee. Lee returned the attack with nine bullets from his rifle, each one finding its mark. Lee killed John Turner, a cousin, in self-defense a year ago.

Thousands of Free Railroad Rides.

Two or three thousand coupons springing the holders to round trips over the C. & P. to the new town of Ambridge, the spot in Beaver County where the American Bridge Company is building the largest finished product plant in the world, were received in East Liverpool and Wellsville yesterday and last night from Pittsburgh—the first step by the promoters of the project for a new city for Beaver county, in a remarkable real estate movement. The tickets are to be given away for the asking to residents of the two cities, who are asked to inspect what is claimed to be the finest city site now unoccupied along the Ohio valley, on land held jealously for years by the Economy Society. The present sale of Ambridge lots, and the free excursion into Beaver county Saturday, will be the first formal opening of the ancient society's great tract. Tickets are good on two regular trains each way, and an announcement of the excursion is printed on another page of this issue.

FOR YOUR VACATION TRIP

The Yellowstone Park, the nation's playground, is larger than the state of Delaware and nearly twice as large as Rhode Island. As in size it exceeds all other national parks of the world combined, so in grandeur and scenery it is unequalled. Here are located the eight great geysers of the world. Mount Washburn, one of the peaks in the park, has an altitude of 10,333 feet. The whole park is an area of wonders unparalleled. It is from 1,000 to 5,000 feet above the level of the sea and is therefore within the zone of two seasons.

But to really know this wonderful you should take a trip through there. You cannot spend a vacation season more profitably or more pleasantly. The Chicago, Milwaukee & St. Paul railway offers choice of routes to and from Yellowstone Park. If you are interested, complete information about the cost of the trip, choice of routes, train service and tickets will be furnished on request.

Zanesville Administers Another
Defeat, the Score Standing

SOME FINE PLAYING DONE

Pitchers in Particular Did Excellent
Work—Wellsville Is Steadily Im-
proving—Last Game of the Series
Will Be Played Today.

The Wellsville boys went down to a second defeat yesterday afternoon at Central park. The Zanesville team proved to be too much for them. The one great trouble with the home team was that though it hit the ball, it could not hit safe. About every hit was in the air and the ball was hauled in by the fielders. Both teams played fine ball, especially the pitchers, who did excellent work.

The visitors clinched the game in the second inning. Two men went to first on errors, one on a dead ball and three on hits. Four runs were scored in this inning. Zanesville made one in the first, but failed to score again till the sixth, when one more came in, making six.

The home team made neither hit nor run until the sixth. Two men went to first on balls then Heckathorn punched out a two bagger, sending two men across the plate. In the eighth one more run was made, but after that they got no further than second.

After the second inning the home team got down to hard work and certainly did some great playing. The visitors played a superb game all the time.

Phil, McShane gave both sides about even decisions and very few kicks were made.

These two teams meet again today for a third and last time. Wellsville keeps playing a little better each day and if the boys keep it up today's game will be the most interesting of the series.

MALEY PITCHED

SHUTOUT CAME

Until the Ninth Inning He Had Given
But Two Hits and Not a Man Got
Farther Than First Base.

The following from the Morgantown Evening Post relative to the game played by the Grove City and Morgantown in which Larry Maley, of this city, pitched under the name of Cunningham, will be of interest to local fans.

There is always something interesting going in the ninth inning when Grove City and West Virginia meet on the diamond. It is usually something that tickles the Varsity fans. Saturday was no exception to the first rule, but a radical departure from the tradition No. 2. The ninth inning was all Grove City's. Up to that time not one of the Pennsylvanians had been able to get farther than first base, and only two had astonished their fellows by reaching the bag. The

score was nine to nothing, and Cunningham had a clean shut-out served up in that bag ready to transport down town. 'Pop' Shriver had already marked three big goose eggs with his heel in the dust around home plate, and Groninger was handling chunks of consolation to the G. C. crowd from third base. He had already retired one man by a neat catch. Then something happened. Kenney let one get away. Parinton missed two chances to retire the side. Cunningham threw the ball away, and Grove City bunched three hits. When it was all straightened out again Grove City had tallied three runs. It was one of those unfortunate, unavoidable things that will happen now and then in a base ball game, and is really funny. No one had any kick coming. The victory was a good, clean one, to be proud of.

"The Varsity played one of the prettiest games up to that ridiculous ninth inning ever seen on the local diamond. Their fielding was almost perfect. Not a man passed first base. They hit well and their base running was good to look at. The whole team behaved like a bunch of pennant winning professionals. Coach Hutchinson was very much pleased with the showing made by all the players.

"Cunningham pitched a shut-out game, allowing only two hits until the ninth inning when the visitors got three, after the side ought to have been retired. Viebahn, the Grove City man, was very wild. He was hit hard, and gave no less than 8 passes to first.

"The score by innings:
R. H. E.
Morgantown . . . 6 0 3 1 3 0 0 2—9 7 4
Grove City . . . 0 0 0 0 0 0 0 3—3 5 5

CAPT. REARK UNABLE
TO SIGN A TEAM

Players to Be Permanently on the
Team Not Chosen Yet—Full Line-
up to Be Secured Next Week.

Not until the middle of next week will Capt. Reark have a permanent lineup arranged. He has been working incessantly to have the entire team, the one that he intends to buck all comers with during the entire season, signed up and under his management today but was unable to get word to some of them in time. Before Saturday evening it is expected that quite a number of foreign players will be in the city, Capt. Reark having sent nine word to come on trial.

From the bunch he will pick the number he needs and send the rest back home. He is running a league of his own, he says, and as all big leagues give players a chance he is going to do the same. Though he expected to have a good second baseman signed several days ago, the man he was counting on, Heffelfinger, of Bucyrus, did not show up and another will have to be chosen. The lineup for this afternoon's game will consist of the following: Peiper, catcher; Good, pitcher; Wallace, first base; Hudson, second base; Davis, third base; Gibson, short stop; Brown, left field; Reark, middle, and Emmerling, right field.

Hudson is from Cleveland and has an excellent reputation. If he makes good he will stay for the season. He has a partner who is also being counted upon. Good is of the Leedsdale team and it will also be an endeavor to keep him. He is said to be a good fielder.

The lineup for tomorrow's game will be rather mixed up. Peiper will play at first; Emmerling will catch; Webb will play in right field and several other changes are likely. No word has yet been received from McLain, of Kiskiminetus college. He is wanted badly to go against the Cuban X Glants on Monday. If he does not come Reub Canaday, working in a meat market on West Market street, will pitch the game. He has been warming up considerably of late and will be given a trial in the near future. In his day he was the dandy and has yet lots of speed.

HORSE SELLS FOR \$60,000

Hermis, the Champion Three-Year-Old
of 1902, Brings Big
Price.

Hermis, the champion three-year-old of 1902, has been sold by L. V. Bell, of New York, to Edward R. Thomas, son of the late General Sam Thomas, the most recent newcomer on the turf. The price paid by Mr. Thomas is reported to be \$60,000. The price paid for Hermis is possibly the largest ever realized for a horse in training in the United States. It was said that the late Marcus Daly paid \$60,000 for Hamburg. Afterwards it was declared that the actual price was \$50,000. This would make the price paid by Mr. Thomas the largest in the history of the American turf. The sale was arranged at Morris Park when Mr. and Mrs. Thomas saw Hermis work a mile trial in 1:43.

L. V. Bell purchased Hermis last August at Saratoga for about \$20,000, and on the same day won the Travis stakes with him. The colt won ten consecutive races for Mr. Bell, and at the close of the season was regarded by every turf expert as the best horse in training, an opinion afterwards confirmed by the official handicapper, who allotted the horse top weight, 127 pounds, in the Brooklyn and Suburban handicaps. H. M. Ziegler, the Cincinnati turfman, who sold Hermis to Mr. Bell, paid \$3,500 for him.

Hermis is entered in all the big stakes in the east.

BOYS OF P. A. C.

WANT GAMES

They Issue a Bold Challenge to All
Teams in Their Class and Will
Play for Love or Money.

Manager Strove and Capt. Davidson, of the recently organized P. A. C. team announced that their aggregation can defeat any amateur team in the city and they are very desirous for a game. They are especially anxious to get a rap at the Shirt Waist, Hollenden or Belmont team. They will play for love or money, on any ground.

The lineup is as follows: Mountford, catcher; Smith, pitcher; McHenry, first base; Robinson, second base; Bridge, third base; Strove, left field; Pusey, middle field; Anderson, right field, and Davidson, short stop. The team has played for several years

and is well onto the game. They no doubt will give any team of their class a hard struggle.

Bruno A. C. Team.

The manager of the Bruno Athletic club team, of Wellsville, gave out the following lineup for this season: Culbertson, c; Bray and Knox, p; Bunting, s; Heakin, 1; Estep, 2; Whalen, 3; Berg, m; McFall, r; Thora, l. Each of the boys puts up a fast game and has had a great deal of practice. The Brunos had a football team last fall that was defeated but once and they mean to have even a better record in base ball. The schedule is partially made out and several strong teams will have an opportunity to down this aggregation. Two or three practice games will be played with the Wellsville city team. All correspondence should be addressed to E. G. Heakin, Wellsville.

SPORTING MISCELLANY.

Homestead has won ten straight games.
Case school bids fair to lead in the intercollegiate race for the championship of Ohio.

Wheeling continues to lose in the Central league although her pitchers are doing well.

Alex Jones has been given his 10 days' notice of release by the Detroit American league club. He will likely return to Homestead.

Jockey Lawrence Barry, who was injured by the falling of Seminole in a hurdle race at Morris Park last Wednesday, died in Fordham hospital. N. Y. Barry was one of the best steeple chase riders in the country.

Billy Walsh, acting secretary of the St. Louis Browns, has tendered his resignation with the urgent request that it be accepted. It is stated that J. Sidney Mercer, base ball editor of the Post-Dispatch, will succeed Walsh as secretary.

Having about exhausted the drawing qualities of pugilists as theatrical stars, the managers are now taking to base ball heroes. William Garen, manager of Havlin's, has signed Rube Waddell to a contract for a tour next winter after the base ball season is over, in the thrilling drama, 'The Stain of Guilt.'

Mother's Friend

Like the rivers after a freshet in the spring, is the blood after winter's accumulated waste.

It requires filtering—cleansing of winter's impurity before better health, better appetite and better activity can be obtained.

No better spring purifier, re-vitalizer is known than Hagee's Cordial of Cod Liver Oil (of fine and solid). It speedily cleanses the blood, tones the digestion, improves food assimilation and makes rugged, robust vitality.

Possesses all the active properties of cod liver oil without the grease. Pleasant to take. For emaciated conditions it is unequaled.

OHIO'S CENTENNIAL

One Hundredth Anniversary of Admission to Union Being Celebrated.

CEREMONIES AT CHILLICOTHE

Governor Nash Presides and Addresses Are Made by Distinguished Citizens of the State—City Beautifully Decorated.

Chillicothe, O., May 21.—The centennial of Ohio's statehood was celebrated with all the ceremony made possible by the inhabitants of this ancient metropolis. The state made an appropriation and placed the Ohio Historical and Archaeological society in charge as an executive committee to act for the state centennial commission, which is composed of Governor Nash, General J. Warren Keifer, General Charles M. Anderson, General James Barnett, General B. R. Cowan, David S. Bray, R. W. Manly and Rush R. Sloane, but the "heat and burden" of the day of preparation fell upon Chillicothe. No detail of arrangement has been overlooked, and the city welcomes with the loving hospitality of a proud mother, the children who flock to the ancient home. The two days' program consists of addresses on historical topics to be delivered in a great tent in the city park.

At 9 a. m. the first public act of the celebration took place in the common pleas courtroom, where a plaster medal of Edward Tiffin, Ohio's first governor, was presented to the county. Miss Anna Cook, a great-granddaughter of the governor, unveiled the tablet, and Archibald Mayo made the presentation address.

Following came the set program for the day. Governor Nash presided. Mayor Yapple made the address of welcome and General J. Warren Keifer responded for the historical society.

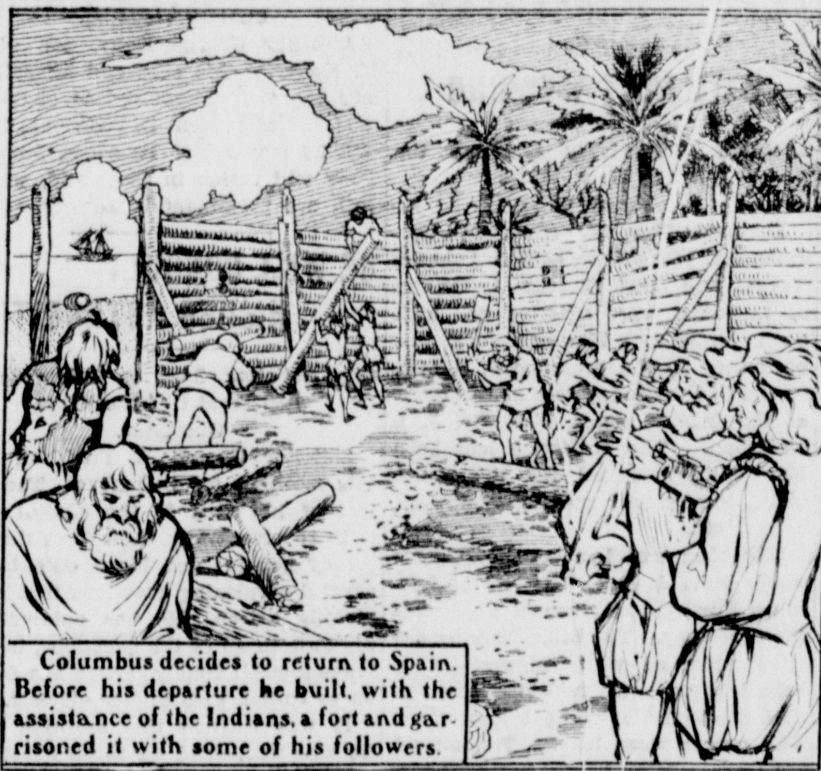

GOVERNOR GEORGE K. NASH.
Then followed the historical addresses by Hon. Judson Harmon, of Cincinnati; Prof. Martin B. Andrews, of Marietta; Judge Rush R. Sloane, of Sandusky; Judge M. M. Granger, formerly of the Ohio supreme court; General Thomas M. Anderson, Murat Halstead, Senator Foraker and General Charles H. Grosvenor.

The afternoon program was changed so as to bring forward the address of Mrs. J. R. Hopley, of Bucyrus, O. She spoke of the part taken by women in the history and development of Ohio. Her paper won the heartiest applause.

At night the speakers were Senator Hanna, on the "Industrial Progress of Ohio;" L. D. Bonebrake, Columbus; President W. H. Thompson,

THE TRAVELS OF COLUMBUS.

Columbus decides to return to Spain. Before his departure he built, with the assistance of the Indians, a fort and garri-soned it with some of his followers.

FIND A CANNON AND HIDDEN INDIAN.

Columbus, General R. Brinkerhoff Mansfield, and General B. R. Cowen, of Cincinnati.

Senator Hanna's appearance was the signal for prolonged applause. He spoke briefly, referring to the industrial progress of Ohio, which, he said, had reached the point where Ohio had ceased to be an agricultural state and had become a mining and manufacturing community. This result had been reached by development of natural resources through Ohio energy. He prophesied still further prosperity, based on the splendid quality of Ohio men and on the success of the public schools.

The illuminations at night formed an attractive feature. An informal banquet was given after the close of the evening speech.

MACHINISTS STRIKE IN ST. LOUIS

Over Two Thousand Quit Work—Demand Increase, Which Was Refused.

St. Louis, May 21.—More than 2,000 machinists and members of kindred unions employed in about 175 shops in St. Louis, all members of the St. Louis Metal Trades' association which is allied to the International Association of Machinists, are on strike. The machinists demand an increase of 10 per cent in wages, while the brass workers ask for 16 2/3 per cent increase.

Negotiations have been in progress for six weeks between the employers and the unions. A 6 per cent increase was offered to the unions, but this was refused and the demand for 10 per cent was maintained. Efforts to arbitrate the disagreement failed and the strike resulted.

Should the strike prove as far-reaching and effective as union officials assert it will, and if it shall continue for any considerable length of time, every mechanical trade in St. Louis may become involved.

PROOF OF MURDER IS REVEALED

Body of Wealthy Farmer Found in Ohio River With Bullet Hole in Head.

Parkersburg, W. Va., May 21.—Proof of one of the most horrible crimes ever committed in the state was revealed when the body of George Lewis, a wealthy farmer of Great Bend, O., was found in the Ohio river near Middleport, O., with a bullet hole in his head.

Lewis disappeared from Ravenswood, W. Va., on the night of Nov. 30, after an all night debauch with a gang of toughs of the town. Fifty dollars which the dead man had in his possession is missing and it is thought he was robbed, murdered and thrown into the river by his companions.

German Municipal Exhibition.

Dresden, May 21.—The king of Saxony opened the German municipal exhibition, which is the first of its kind ever held in the world. Exhibits from 128 cities are on show and over 300 manufacturers display articles employed in municipal work, street improvement, sewage systems, etc. The seaport towns have sent models of docks and harbor works, the display made by Hamburg being particularly interesting. Among other exhibits are plans of city tracks, drainage systems, street car tracks and elevated railway systems, public parks, sewage farms, municipal slaughter houses and garbage crematories. The police section includes an exposition for the Bertillon anthropometric system. The exhibition generally affords excellent facilities for studying German municipal arrangements.

Steamer's Crew Take to Lifeboats. Goderich, Ont., May 21.—A lamp exploded in the engine room of the steamer Pohl in the middle of Lake Huron. Fire followed and after fighting the flames for eight hours the crew of the vessel was driven to take refuge in the lifeboats. One boat was picked up by a rescuing party from shore and the others are being sought near the scene of the disaster. It is believed that all the crew are safe. The boat was bound for Owen Sound with coal.

8,000 Persons Homeless.
Manila, May 21.—Two thousand native houses were destroyed by fire in the Tondo district of Manila. About 8,000 persons are homeless and are being sheltered by the municipality. The damage is estimated at 2,000,000 pesos.

Many Homeless in St. Hyacinthe.
St. Hyacinthe, Que., May 21.—A fire in the shoe factory of Cote brothers destroyed that and half a dozen other industries and 250 houses, leaving nearly a quarter of the city's population homeless. Loss \$400,000.

EDITION DESTROYED

Report Printed of Condition of Jews in Russia Made Away With.

STARTLING STATEMENT MADE

Government's Edition Disappears and No One Knows Where—Statements of Count Cassini Denounced as Untrue by Milwaukee Rabbi.

Milwaukee, May 21.—Dr. Walter Kempster makes the startling statement that a report which he made as a commissioner of the United States government, appointed to investigate the condition of the Jews in Russia at the time of the last exodus in 1891 and ordered printed by the congress of the United States, was suppressed and all of the government edition made away with and destroyed by the Russian representatives in Washington.

He said that he had received letters from United States senators and congressmen and officials of the government asking him where they could obtain copies of the report, but neither he nor they were able to fathom what had become of the government edition.

"The government ordered 10,000 copies printed and I ordered 100 for private use," said Dr. Kempster. "I received my 100 copies, but the government edition disappeared and no one to this day seems to be able to tell what became of it. I learned after the report was issued that it was substantially cabled to St. Petersburg as it had been printed in this country."

Dr. Kempster visited Europe after the publication of the report, and it was printed in London in the English, German and French languages there, and copies of it were sent by registered mail in separate packages from the London postoffice to the ear, to the heads of each of the departments of the government and to the governments of the provinces.

"Every one of these reports," said Dr. Kempster, "including the one sent to the ear, was returned to the London postoffice stamped 'forbidden.'"

Jews Cannot Own Land.

Milwaukee, May 21.—Rabbi Victor Caro, of Temple B'Shurem, Milwaukee, denounces as untrue the statements ascribed to Count Cassini, the Russian ambassador to this country, in which the count cites as the reason for the unfriendly attitude towards the Jews the fact that the Jews will not work in fields or engage in agriculture, but prefer to be money lenders.

"The Jews in Russia would gladly engage in agriculture," said Rabbi Caro, "but they are not permitted to do so. I have studied up these matters thoroughly and have received information directly from the newspapers of Germany, which are reliable."

"No Jew in Russia can own land. They are forced to belong to the 'paechter' class, or leasers of land, and for them to gain actual possession of farms or gardens is prohibited by the law of the land. The few colonies of Jewish agriculturists which have been established by philanthropists have been successful, and if the Jews were allowed to engage in agricultural pursuits the Jews of the world would pay millions and millions of dollars to buy them farms."

Many Homeless in St. Hyacinthe.
St. Hyacinthe, Que., May 21.—A fire in the shoe factory of Cote brothers destroyed that and half a dozen other industries and 250 houses, leaving nearly a quarter of the city's population homeless. Loss \$400,000.

Mrs. Fairbanks tells how neglect of warning symptoms will soon prostrate a woman. She thinks woman's safeguard is Lydia E. Pinkham's Vegetable Compound.

"Ignorance and neglect are the cause of untold female suffering, not only with the laws of health but with the chance of a cure. I did not heed the warnings of headaches, organic pains and general weariness, until I was well nigh prostrated. I knew I had to do something. Happily I did the right thing. I took Lydia E. Pinkham's Vegetable Compound faithfully according to directions, and was rewarded in a few weeks to find that my aches and pains disappeared, and I again felt the glow of health through my body. Since I have been well I have been more careful. I have also advised a number of my sick friends to take Lydia E. Pinkham's Vegetable Compound, and they have never had reason to be sorry. Yours very truly, Mrs. MAY FAIRBANKS, 216 South 7th St., Minneapolis, Minn." (Mrs. Fairbanks is one of the most successful and highest salaried travelling saleswomen in the West.)—\$5000 (fair) for original of above letter proving genuineness cannot be produced.

When women are troubled with irregular, suppressed or painful menstruation, leucorrhoea, displacement, etc., remember, there is one tried and true remedy—Lydia E. Pinkham's Vegetable Compound.

Building Fired by Lightning.
Philadelphia, May 21.—One of the group of buildings of the George W. Blahon company, manufacturers of oilcloths, was destroyed by fire, entailing a loss of \$50,000. The fire was started by a bolt of lightning.

Albanian Chiefs Arrested.
Vienna, May 21.—It is reported from Mitrovitz that all the Albanian chiefs of that district have now been arrested and sent under strong escort to Constantinople.

Piles
In order to prove to you that Dr. A. W. Chase's Ointment is a cure for any form of itching, bleeding, or protruding piles, the manufacturers guarantee a cure. You can use it and if it does not cure you your money back. Mr. Casper Walton, laborer, Michigan City, Ind., says: "I work hard and lift a great deal. The strain brought on an attack of piles. They itched and they protruded and bled. Nothing helped them until I used Dr. A. W. Chase's Ointment. That cured them." See a box at all dealers, or DR. A. W. CHASE MEDICINE CO., Buffalo, N. Y.

How To Tell A Swindle.

If a man tells you he can make 25 per cent out of your money for you and don't tell you how, set it down as a swindle. If he offers you something for nothing, set it down as a swindle. If he tells you he can cure you of disease, and don't tell you how, set it down as a swindle. If you will exercise your own judgment, your own reason—just use a little common sense at all times, it is the safest guide. We tell you Life Plant cures Rheumatism, Eczema, Catarrh, Asthma, Scrofula and all blood diseases, and we tell you why. It does it because it purifies the blood, drives out the impurities and thus removes the cause of disease. There is no other way. Now tell the common sense. The blood is the life. Keep the blood pure, full of life, and the whole system will be renewed with new energy. Read this. It tells what Life Plant will do. It's from your neighbor:

Mr. J. C. Likens, of Tippicanoe, Ohio, says: "I have been greatly relieved of Nervousness, Stomach and Kidney trouble by the use of Life Plant. As a family medicine to keep the blood in order and tone up the system and prevent sickness, I think it stands at the head of the list." Tippicanoe, March 1st, 1900.

Life Plant Renew Life. An excellent tonic for the aged. It keeps the blood young, and insures a healthy and ripe old age. A whole month's treatment for \$1.00.

HE WILL CONSULT HIGHER AUTHORITIES

City Solicitor Goes to Columbus to Get Legal Light on Code Questions.

Solicitor George E. Davidson left this morning for Columbus. The object of his visit to the capital city is to receive information from the attorney general and his assistants on several perplexing questions that have already arisen. He has opinions of his own on all of the questions, but to make himself doubly certain has decided to confer with higher officials.

It was learned this morning that he was undecided on three questions in particular, but what they are is not known. It is thought, however, that one of them is in reference to the appointment of John Wyman as chief of police and the others on technicalities pertaining to the city's finances.

The solicitor has certainly been having his troubles since the inauguration of the code, and his conservative opinions are to be commended. He answers few questions positively, simply stating his opinion. He realizes that many questions will arise and that no attorney in the country can give an off-hand answer correctly. He anticipates that scores of the code provisions will be carried to the supreme court for decisions, and it is the general opinion that within a year the code will be added to greatly by amended sections.

BRIGHT OUTLOOK FOR UNION MEN

Continued from First Page.

was received from the painters, who could now see the end of their troubles. Several of the largest contracting concerns in the jurisdiction of the union had signed the scale, and at a conference arranged to take place tonight it was probable terms of settlement of the remainder would be determined upon.

So well had the teamsters succeeded in their efforts to better the conditions of their members that but three of the firms in the city hiring teamsters had to the present refused to come into the fold. These firms were, according to the report, standing in their own light, and would change their determination within a short time.

The laundry workers reported having difficulty with the management of the Enterprise laundry. They had refused to sign the scale, and though several members of the firm were also connected with the union, they had refused to insist upon the enforcement of the scale. The unionists of the city will withhold their patronage for the present. Meantime the grievance committee will act with the laundry workers, and it is probable the firm will be brought into line within a few days. There was a sentiment among the members that the Labor day committee should be at work. This opinion was shared by both President Beatty and Secretary Rank. The latter gentleman has had a vast amount of experience in these matters, and thought the committee had already delayed too long in making a start. Unless the committee got down to business at once, he desired to be relieved from serving on it. A meeting had been arranged to take place in the ante-room of the hall on Friday evening at 8 o'clock.

The Persian Army.

The Persian army, according to Henry Savage Landor, the traveler, is a "painless sight," although there are some good Cossack cavalry which has been drilled by Russian officers. The infantry, however, is a ragged, lazy, shiftless lot. He asked permission to see the army drill. "We do not drill in summer; it's too hot," said the general. "Do you drill in winter?" "No; it's too cold." "Are the troops, then, only drilled in the autumn and spring?" "Sometimes. They are principally drilled a few days before the shah's birthday, so that they may look well on the parade day before his majesty."

AGED CITIZEN FOUND DEAD

**J. J. Allison's Lifeless Body Is
Discovered by His
Daughter.**

HE EXPIRED IN A BARN

**While Attending to Chores About
the Place This
Morning.**

A VERY WELL KNOWN MAN

Gasping his last breath, Jonathan J. Allison, of West Second street, was found this morning about 10.45 o'clock in the barn at the rear of the family residence, by his daughter, Miss Ida Allison. There was no answer to the girl's startled cry, "Father, what is the matter?" She hastened to his side, but the spirit had departed.

Mr. Allison had left the house but a few moments before to do some chores around the barn. He had complained during the morning of cramps and had come to the house for something to relieve the pain. He was given a mixture of pepper and water and told the members of the household that it relieved him. They tried to induce him to remain at the house but he persisted in returning to the barn.

In that structure is a small room formerly used as a corn crib but lately fitted up by Mr. Allison for a reading room and there he spent considerable time.

Mr. Allison was 74 years of age and until about two years ago had been a teamster. He was born and reared in Hancock county, coming to this city 22 years ago. He was a highly respected and well liked citizen, kind and charitable. Besides the widow he is survived by seven children, two brothers and one sister. The children are Frank and Grant Allison, of McDonald, Pa.; Oscar Allison, Avondale street, this city; Mrs. Agnes Elbert, Prospect street; Mrs. John Willison, Third street; Mrs. Maggie Brown, Chester, and Miss Ida Allison, at home. The brothers and sisters are Peter and Alexander and Mrs. John Hunter, all of this city.

Mr. Allison was a member of the First Presbyterian church and the funeral services will likely be conducted by his pastor, Rev. C. G. Jordan.

Candidate for Assembly.

Columbus, May 21.—(Special).—Ex-Representative Charles McGlinchey, of Tuscarawas county, a brother-in-law of Contractor Ed Cook, of East Liverpool, may be a candidate for a third term. He served in the Seventy-third and Seventy-fourth general assemblies, and was one of the best debaters on the minority side. There is another candidate for the nomination, but there is doubt of his ability to win as McGlinchey stands high with the voters, having been honored twice by them.

Nominated for Judge.

Hon. S. W. Durlinger, of London, a relative of Mrs. Ed Knowles, of East Liverpool, was one of two candidates nominated for common pleas judge by the Republican convention of the second sub-division of the Fifth judicial district at Circleville yesterday afternoon. The convention deadlocked on the nomination of a third candidate and adjourned to meet at Washington Court House May 28. Mr. Durlinger was named for the long term.

Many Veterans Will Attend.

Lisbon, May 21.—(Special).—From present indications it is expected that fully 2,000 civil war veterans will be in Lisbon to participate in the G. A. R. day exercises during the centennial. The East Palestine delegation will come on horseback.

Court Assignments Passed.

Lisbon, May 21.—(Special).—The court assignment for Thursday and Friday of this week has been passed on account of the funeral of Judge Hole's uncle, Jacob Schilling, of Salem, this afternoon. The jury was excused until a week from Monday.

Licensed to Wed.

Lisbon, May 21.—(Special).—A marriage license has been issued to John E. Diddle and Lizzie G. Tote, both of East Liverpool.

Frederick D. Frey, of East Palestine, and Vurlia L. Ferrall, of East Fairfield.

REPAIRING ROADS WITH FURNACE SLAG

An Experiment Begun at Salineville Which Promises Good Results.

Salineville, May 21.—(Special).—The Fex Township Good Roads association received its first consignment of slag from the Leetonia furnaces this week. The cars, eight in number, were transferred from the main line of the C. & P. to the branch and placed on the switch near the Hothrington mine.

Samuel Toban, who has charge of the district west of town, was busy Monday with about 15 teams hauling the slag from the flats to the road just west of the corporation line. The work was commenced at the county line and will be extended west covering about 16 feet of the road which in many places is entirely too wide, and to cover all the road would be almost impossible, as thousands of tons of slag would be consumed.

The workmen are placing the slag about six inches deep on the main part and gradually slope it down to the drains on each side. The roads have been worked with a road making machine and are in excellent condition for the improvements to be made. Good drains on each convey the water off the road, and in many places new tile have been placed for culverts. This is the first movement of the Good Roads association near Salineville, and everybody is highly interested in the work, and will lend every effort to have all the roads leading to the village put in excellent condition.

WITH BARE FEET AND SCANT ATTIRE

**Woman Walked the Streets in
Search of a Police
Officer.**

CHARGE OF CRUELTY MADE

Barefooted and scantily dressed, Mrs. James Welch, of Fourth street, attracted much attention and caused considerable wonderment among spectators on the streets last night between the hours of 12 and 1, when she ran up and down the thoroughfares, crying aloud and stating that she was on the hunt for a policeman.

She finally ran across Officer Aufderheide, at the intersection of Franklin avenue and Sixth street and while tears flowed down her cheeks in profusion, she related a sad tale. Marks on her neck and her haggard appearance convinced the officer that she was stating facts, and when she asked that he accompany her home he readily consented to do so.

Upon their arrival at the Welch home the officer found things topsyturvy. The husband had come home and for some unknown reason, created a rough house. It is alleged that he first broke down the front door and then seized his wife by the neck and cruelly choked her. She stood his actions until forced to leave to free herself from bodily injury. She first applied at the city hall and afterwards went over numerous streets. Officer Aufderheide succeeded in quieting the man and left them.

He is said to have joined church a few weeks ago and now sees devils who try to tear him to pieces and is kissed by angels. He is 35 and single, and has been an industrious coal miner and has prospered.

SAFETY BOARD STARTS WORK

A Harmonious and Business-Like Session Held Last Evening.

CLASSIFICATION IS MADE

Of Police and Firemen As an Inspiration to Faithful Work.

JAIL REFORM DEMANDED

With representatives of the press, Mayor Weaver and Chief Wyman as auditors, the board of public safety held a short but very important session in council chamber last evening. It was its first regular meeting, and the many preliminary proceedings incident to the commencement of actual work were taken up, and after due consideration many formulas were adopted.

It was decided that all meetings be conducted in accordance with parliamentary rules. President Grafton addressed the board at the very outset and in a neat little speech gave the members some advice well worth remembering. One point he made with emphasis, that perfect harmony should exist at the meetings and that no two members talk at the same time. He then presented an order of business that he had prepared and it was unanimously adopted.

E. N. Huntsman was appointed to act as clerk of the board for the ensuing two years. The question of salary was talked of and it was thought by the members that council showed a generous spirit when the allowance of \$10 was granted the clerk. Mr. Huntsman made it understood that he would never have applied for the position had he thought he would not have been both clerk of the board and mayor's clerk. It was in anticipation of \$10 per month that his application was filed. He, however, concluded to accept the honor.

A communication had been received asking for the privilege of attaching a fire plug to an 8-inch water main recently laid by the Brunt Pottery company. The company agreed to stand all the expense and was granted the right. Mr. Taylor made the statement that he would never approve of the expenditure of a penny until the city is relieved of its present financial embarrassment, but as the pottery company had agreed to bear the expense he had no objection to it having the plug.

The condition of the streets from the standpoint of the board's jurisdiction was taken up, but there was no definite action. It was the sentiment of all that just as soon as the rules and regulations are drafted for the covering of action under the direction of the board, the police shall be instructed to see that all city ordinances are carried out to the letter. This will mean considerable study of the ordinance book by the officers.

One member thought that the police should be instructed at the present time to take notice of the rubbish etc., that lies around on the streets and rectify those responsible to remove it.

Three applications for positions were received and read by the clerk. They were from Thomas Betteridge, 31 John street, who has aspirations to be a fireman; John Beardmore, West Market street, and John McVey, Broadway, both of whom want to be policemen. The application of McVey was accepted and placed on file, but the others were rejected owing to the prescribed formula not being adhered to. The clerk was instructed to inform them of the mistake.

The next order of business was to classify the two departments that come under the public safety head, the police and firemen. After much discussion a motion was made by Mr. Taylor that the police department be divided into two classes, as follows: One chief and eight patrolmen. When the classification of firemen was taken up none were satisfied for a time as to the proper course to pursue. Chief Wyman suggested a plan which was adopted and the department will be divided as follows: A chief, assistant chief, captains and firemen. When the fire station is erected on the northside it will be necessary to have at least two captains. One will serve in the East End and one on the Northside.

It was the desire of the board to classify the departments into as many positions and ranks as possible, in order that the people serving in either department will have an inspiration to work for higher berths. Under the merit system a man is promoted only as he deserves it, and the more the ranks the better chance a man will have.

Messrs. Taylor and Dawson were appointed by the president to draft rules and regulations governing the two departments. They are to be ready at the next meeting if possible, and if they are acceptable to the other members they will be adopted.

It was decided that a date be set for the holding of an examination for those who wish appointments and the board finally decided on the evening of June 9. The examination will start at 7 o'clock and will be held in the council chamber.

Mr. Dawson had inspected the jail and was dumfounded when he saw the condition of the women's department. He thinks that some provision should be made where a new apartment shall be erected. He favors tearing down the old frame shack and replacing it with a brick structure. Chief Wyman stood by Mr. Dawson in his remarks and stated that a person confined in the iron cage when a fire starts would be burned like a rat in a trap. It was recommended that steps be taken to have some one around the city hall at all times. The matter will be taken up at a later meeting.

The board adjourned to meet on next Wednesday evening, that day of the week having been decided upon for the weekly meetings. The members will inspect the central fire station this evening.

BRIGHT OUTLOOK FOR UNION MEN

**Encouraging Reports Are Made to
Trades Council
Meeting.**

LABOR TROUBLES ENDING

Never before in the history of East Liverpool has the industrial outlook been more promising from the standpoint of the trades unions than at present. There have been few meetings of the trades council within the past six months that a grievance of some sort was not brought to that body for adjustment. Though the meeting last night was no exception to this rule, there were so many encouraging reports from organizations, whose members had previously been in trouble that the session was unusually gratifying.

Seven new delegates were seated at the beginning of the meeting, and the routine business was passed over with dispatch. Several communications of an important nature were received, and in each instance the action taken was prompt and effective.

There has been a movement on foot in the union organizations of the state of Missouri for some time, having for its object the adoption of a plan to elect the representatives to the legislature of that state by the referendum plan. The efforts of the Missouri unionists had been successful, and it was urged that the tradesmen of Ohio take up the movement. The communication was received, and if the local council sends a delegate to the meeting of the Ohio Federation of Labor, the matter will be placed in his hands.

At the last meeting of the council a communication was received from the tobacco workers of Louisville, Ky., containing the information that a tobacco company of that city, had refused to recognize the union. As the concern manufactured a number of popular brands, a committee was appointed at that time to visit the merchants of this city and ask that they discontinue the sale of the company's output until a settlement could be effected. It seems the trouble at Louisville was of short duration, since a communication from there informed the council that the difficulty had been amicably adjusted. The committee and the members of the body will take steps at once to prevent the tobacco company's patronage in this city from being injured.

The delegates from the plumbers' union, the members of which have been on strike for several weeks, reported there was nothing new in the situation, but that they were determined to win, and that the prospects for doing so were never more promising.

An even more encouraging report

ZIMMERMAN STATES CASE

**Sesquipedalian Words Which Im-
ply That He Is Not In
the Race.**

TOM JOHNSON HAS FROWNED

**And the Former Columbiana County
Man Does Not Dare
Talk.**

NO CHANCE OF NOMINATION

Columbus, May 21.—(Special).—While in Columbus yesterday, Hon. John L. Zimmerman, of Springfield, the former Columbiana county man, delivered himself of a statement sparkling with luminosity with regard to his candidacy for the Democratic nomination for governor. It will be observed that he is long on ponderous words. Here it is:

"If the logic events render it expedient that the minority party of Ohio considers it imperative for a restoration of the conditions precedent to the sequence of fortuitous episodes culminating in the apothecosis of discontent expressed at the last fall election, the consensus of opinion pointing to the wisdom of the course, I may deem it advisable to abandon my present reserve and speak without ambiguity relative to the consideration of the proposition to permit myself to be influenced as possibly receptive to influences that might induce me to declare my position."

The average wage earner will appreciate the lucid terms employed by Mr. Zimmerman in making known his attitude. Reduced to a synthesis the statement means he is practically out of the race. At the start it was all Zimmerman but it is understood Tom Johnson has frowned upon his candidacy and at present it seems to be all day with him.

SURPRISED FRIENDS BY GETTING MARRIED

**F. G. CROXALL AND MRS. POL-
LOCK WEDDED QUIETLY.**

**Both Are Well Known And Highly
Respected Residents of
the City.**

The many friends of Frederick G. Croxall and Mrs. Anna Pollock were immensely surprised—agreeably, however—this morning when the news leaked out of their marriage. Both are life-long residents of the city and command the highest respect of the entire community. It had been whispered a little of late that Cupid's dart had touched the hearts of the couple, but none were expecting the nuptial event to occur so soon, and the surprise was genuine.

The ceremony was performed at the First M. E. parsonage at 9 o'clock last evening by Rev. Dr. Pratt. The couple had been to prayer meeting together and at the conclusion of the services hid themselves to the parsonage just as they did some 35 years ago when they first took unto themselves helpmates. The marriage was conducted in a very unpretentious manner, only the contracting parties, witnesses and the minister being present.

The groom resides on Fourth street. He is at the present employed at the Union pottery in the capacity of warehouse foreman and is one of the best men in such a position in the city. Mr. Croxall is a veteran of the civil war, a director of the Potters' Building & Savings company; a member of the Pennsylvania avenue assessing board and one of the prominent members of the Masonic lodge. His efforts for the betterment of the city by living an upright, honest and industrious life have caused him to be one of the foremost residents of the city.

The bride is also a resident of Fourth street. She is the widow of the late Daniel Pollock, and is a most estimable lady. Both parties have children that are married. Scores of friends wish the couple a long and happy life.

TWO DIVORCE CASES FROM EAST LIVERPOOL

Legal Separation From His Wife Refused J. H. Eutler—W. B. Randolph Gets Divorce.

Lisbon, May 21.—(Special).—Two East Liverpool divorce cases came up for hearing in court yesterday afternoon. James H. Butler was refused legal separation from Mary E. Butler with leave to file an amended petition.

William B. Randolph was granted a divorce from Sarah A. Randolph, on grounds of wilful absence and disregard of duty. They were married June 8, 1887, at Trenton, N. J. Two children, which was the issue of the marriage, are both dead.

The application for the appointment of a guardian of Celina Chamberlain, St. Clair township, has been dismissed at the cost of the applicant.

The estate of the late William Arnold, of East Palestine, has been declared insolvent and Rosetta Arnold, executrix, authorized to receive and allow valid claims against the estate.

The application of John C. Grove, of Salem, for letters of administration on the estate of Sarah Grove, who died in July, 1901, has been set for a hearing next Monday.

FIGURES WATCHED WITH EAGERNESS

**Numerous Evidences of Popular
Interest in News Review
Prize Contest.**

NO CHANGE IN POSITIONS

New York has regained the lead in the National league of ball clubs, but there has been no change in the standing of the contestants in the News Review's popularity contest. That the candidates are as hard at work as ever is seen by the constantly increasing number of votes. A change in the standing of the candidates would evoke much more comment than that in the big league race. Whether or not the candidates will finish as they now stand is causing a great deal of conjecture. Some of those apparently outside of the coveted circle claim that they are prepared for a Garrison finish. At any rate, the figures will be closely watched every day by thousands.

The following candidates have received 100 votes or more:

CONDITION IS CRITICAL

**Nuzum, the Man Shot at Elkton,
Not Likely to
Survive.**

ASSAILANT UNDER BOND

**Claims That the Shooting Was Ac-
cidental, Not In-
tentional.**

SYMPATHY IS WITH CLUNK

Lisbon, May 21.—(Special).—Frank P. Nuzum, the man who was shot at Elkton yesterday morning, passed a very restless night and continues in a critical condition this morning. The physicians have but little hopes for his recovery.

Anthony N. Clunk, who is in jail here for the shooting, reiterated in an interview last evening substantially what was given out yesterday. Clunk now denies the report that he had expected undue intimacy between his wife and Nuzum. He says he had gone home sick from his work at the Klondike coal mines. On his way to the mines yesterday morning he found that he would again be unable to work and returned home.

When some distance away from the house he saw Nuzum enter and a few moments later, when Clunk was in the yard, he heard Mrs. Clunk scream four times. Pushing open the kitchen door, he learned that the disturbance was in an adjoining room and opened the door.

When Nuzum saw Clunk, he jumped up and ran toward the door in which Clunk was standing. Clunk says he did not know whether Nuzum was trying to get away or whether he was going to attack him, and opening a clothes press just by him he took out a shot gun. He says he did not intend to shoot and thinks that in raising the hammer it slipped from his grasp, discharging the load. Nuzum fell exclaiming that he was shot.

Clunk said: "I didn't intend to shoot you." And Nuzum, he says, replied: "I don't think you did."

Clunk then hurriedly summoned medical aid. He says Nuzum's son has been a boarder at their house for some time and that the families have been quite intimate. Mrs. Clunk and Mrs. Nuzum having been related. Since the death of Mrs. Nuzum last winter her husband has boarded himself at his own home and Clunk has done most of his dealing at Nuzum's store in Elkton. Nuzum is 50 years old and Clunk is 44.

It seems to be the general impression in Elkton, Clunk's story notwithstanding, that there has been some ill feeling between Clunk and Nuzum on account of the latter's alleged intimacy with Mrs. Clunk and it has even been reported that at one time Clunk ordered Nuzum to keep away from his premises. Clunk has also borne a good reputation and he has the sympathy of the people. It is said that he can procure bail for any amount.

Clunk was arraigned in the court of Justice Lodge Riddle this morning, charged with shooting Nuzum with intent to wound. He pleaded not guilty and was held for a preliminary hearing under \$1,000 bond.

Nuzum is doing as well this afternoon as could be expected, but the attending physician says it will be almost impossible for him to survive. The shot, which penetrated his groin, exposed the intestinal membrane and inflammation is almost sure to result.

Called to Sebring.

President T. J. Duffy, of the N. B. of O. P., received a message this morning from Sebring that necessitated his presence there. He left on the morning train.

WITH THE WORKMEN IN THE CLAY PLANTS

NARROW ESCAPE.

Park Beauty and Peter Sauls, ghost hunters at McNeils, had a thrilling experience Tuesday shortly after the noon hour, and that they are alive and unharmed today borders on the miraculous. Both of the men were at the top of the long steps in one of the kilns with sappers on their heads and were placing them at the top of the rung. One of the men lost his equilibrium and the ladder began to topple. In spite of their best efforts they were precipitated to the floor of the kiln, a distance of 18 feet. Both men, during their sudden descent, managed to clutch the small ladders, thereby breaking the force of the fall. Several of the bungs were disturbed, but the other members of the crew were soon on the scene and prevented them from falling. All were agreeably surprised when it was learned that both the participants in the thrilling adventure had escaped without the slightest injury.

The accident will recall to kilnmen similar occurrences in the past few years, during which time several men have met death. More people are injured in this way than in any other department of a pottery and the occupation of the kilnmen is certainly the most hazardous. In the accidents of this kind where fatalities have resulted none fell from such a great height as the men at McNeils.

TRADE CONDITIONS.

The condition of trade among the local potteries has not improved to any considerable extent in the past two weeks, and when the fall comes for the mid-summer loaf the present conditions will no doubt still exist. The first half of 1903 has not been entirely satisfactory to the manufacturers as to the volume of business, but in many respects it has been more satisfactory. While many of the firms have done less actual business the profit has been greater, as they have done away with the scheme contracts that were paying them poorly if at all. This rather than the new selling agreement has caused the present dull time. East Liverpool is not alone in experiencing a weak market. None of the potteries at Wheeling were working full during the time of the convention and in other nearby towns the same conditions exist. The decorators have suffered more than the operatives of other departments. Several local plants have done practically no decorating since the first of the year, while they operated fairly well on plain. The manufacturers are confident, however, that the demand for all lines will be much stronger in the last half of the year.

MOORE HAS RESIGNED.

Frank Moore, of the Severs, has resigned his position and has left the business permanently. During the summer months he will be a member of the orchestra at Rock Springs park and in the fall he will go to Morgan-town to enter the West Virginia university. Mr. Moore has been operating the gold machine, the invention of W. H. Deidrick, a member of the firm, and his position has been a most responsible one.

A LARGE PLANT.

The new Bell pottery at Columbus, which is to be managed by A. S. Hughes, is one of the largest single plants erected in recent years. It will be 12 kilns to start, but this number will be increased from time to time as the business warrants. The site of the plant is four miles east of the

business center of the city and is reached by an electric, as well as a steam railway. The location offers many advantages. Mr. Hughes will leave this city for Columbus about the first of next month and will direct the preliminary work for the mechanical end. The plant is now under construction, but it will be some little time before the machinery can be installed. The mouldmakers have not started to work yet, and it is estimated that work will not be made sooner than the first of September.

GONE INTO BUSINESS.

Cyrus Bayley, who returned about two months ago from Pittsburgh, where he was under treatment for a number of weeks in a hospital, has opened a confectionery establishment on West Market street. Mr. Bayley was much benefited by his stay in the hospital, but will never be able to return to his trade as a potter.

AMONG THE WORKMEN.

The employees of the Union are having a nice vacation while the changes are being made in the plant. The work will be done by the end of the week.

John Demmerling, the well known razorman, formerly of Laughlin No. 2, has taken a situation with the Pioneer plant, Wellsville, starting today. He will make basins.

RULES WHICH GOVERN APPLICANTS FOR JOBS

Those Who Want Places as Police or Firemen Must Stand a Rigid Examination.

Present indications are that many residents aspire for appointment on the police force or fire department. All such appointments will be made by the board of public safety. In view of the large number of applications, the board will pass only those who comply in every detail with the requirements, and at the meeting last evening it was decided to make the examinations thorough.

One member of the board thought that the present force will be compelled to take the examination, but this, it is said, will not hold. The police and firemen are to stay in office until charges are made and proven against them showing them to be incompetent. The board wishes to give every applicant equal chances for appointment and will carry out the provision of the code to the letter. For the benefit of those thinking of filing an application preparatory to taking the examination the following is given:

"Every application, in order to entitle the applicant to appear for examination or to be examined, must state in his own handwriting the facts under oath on the following subjects: First, full name; second, nationality; third, age; fourth, place of birth; fifth, health and physical capacity for public service; sixth, previous employment in public service; seventh, business or employment, and residence for previous five years; eighth, education; ninth, such other information as may be reasonably required by the board touching the applicant's fitness for public service.

"No person habitually using intoxicating beverages to excess shall be appointed to or retained in any office, appointment or employment to which the provisions of the merit system are

applicable; nor shall any vendor of intoxicating liquors be appointed or retained. No person shall be eligible for appointment unless he be a citizen of the state of Ohio and the city in which such appointment is made, and shall have been a resident of such city at least one year prior to appointment."

The last paragraph knocks out at least one applicant, who moved to the city from Youngstown about five months ago. He wants to be a policeman, and wants the job very bad. He is qualified in some respects, but his time of residence is not of sufficient length.

UNRICHVILLE MAYOR IS A CELEBRITY

A Minister Surprises the City That Made Him Chief Executive.

Unrichville, May 21.—Minister-Mayor James R. Dalling has become a celebrity because he lays a heavy hand on violators of the law, whereas it was expected that he would deal leniently with ordinary cases.

Born in Scotland 34 years ago, Rev. Mr. Dalling has been the pastor of the Unrichville Moravian church three years. Being the only minister in town who opposed a local option, the "wets" hailed him as a champion and the "drys" opposed him. The fight for the Republican nomination was sharp. Rev. Mr. Dalling won the victory over three good men, his strongest opponent being Attorney W. B. Stevens, Republican candidate for congress in the Seventeenth district last fall.

Though many Republicans voted against him, Rev. Mr. Dalling was elected over the Democratic candidate who had served a year as mayor. It was charged that Rev. Mr. Dalling had never been naturalized. A village patriarch demanded to see his naturalization papers. He was refused. Suit to contest the election was begun by the late mayor. Then it was discovered that the new mayor's naturalization papers bore the name "Darling" instead of Dalling. A trip to Camden, N. J., corrected this clerical error, and the mayor was permitted to take his seat.

Mayor Dalling is scrupulously enforcing the laws as he finds them. The guilty face him with the knowledge that they will be punished. There are no one-dollar fines now. At the minimum the town gets as much as the costs amount to in each case. The maximum, so far, is \$50 and costs and 90 days in the workhouse. The new mayor has made several arrests himself.

He is a classical scholar, speaks several modern languages, is an accomplished veterinary, likes a fire horse, fancies thoroughbred dogs and chickens, smokes, is an all-around athlete, and is still fellow well met with all.

Cured His Mother of Rheumatism.

"My mother has been a sufferer for many years with rheumatism," says W. H. McGugin, of Huband, Pa. "At times she was unable to move at all, while at all times walking was painful. I presented her with a bottle of Chamberlain's Pain Balm and after a few applications she decided it was the most wonderful pain reliever she had ever tried, in fact, she is never without it now and is at all times able to walk. An occasional application of Pain Balm keeps away the pain that she was formerly troubled with."

COMMISSION HOUSE BANKRUPT

Porter Brothers Company, of Chicago, in Hands of Receivers—Largest Concern in Country.

Chicago, May 21.—Bankruptcy proceedings against the Porter Brothers company, one of the largest fruit commission houses in the country, were begun secretly in the United States district court Tuesday and receivers have taken charge of the company's affairs. John McLaren, former vice president of the Union National bank, and Henry L. Wilson, a lawyer, were directed by Judge Kohlsaat to take charge of the assets of the corporation. This was done on application of several creditors, who alleged that the concern was insolvent and that its officers had made preferential payments.

Until the return of James S. Watson, president of the corporation, the receivers do not expect to find out much about the financial condition of the company. Attorneys Deftrees, Brace and Ritter, who represent the receivers, said they could not estimate the liabilities or assets of the concern. It is probable, however, that the debts will prove to be larger than the assets, which are worth from \$100,000 to \$200,000.

The concern was capitalized for \$1,000,000 and had a high financial rating.

The stores of the company in Chicago are at 37 South Water street and 46 River street. The concern also owns large branch houses in New York, Boston, Minneapolis and at several places in California.

President Enters Oregon.

Ashland, Ore., May 21.—President Roosevelt completed his tour of California and entered upon the last stages of his long trip, which is to end at Washington, June 5. The day's journey had been through the mountainous region about Mount Shasta, where the towns are few and far between, and consequently he has been called upon to do little speaking. Governor Pardee, of California, who has been with the president almost continuously since he entered that state, bade him goodbye at Hornbrook and in the short address the president delivered at that place he said he was very sorry to part with him. The president made his longest speech of the day at Dunsuir, Cal.

3,000 CANCELLATIONS

Of Promotions of Postoffice Clerks Made Necessary by Excess in Grades.

NO EMPLOYEES TO BE REDUCED

Perry S. Heath Notified of Charges Made by Tulloch—Investigation Will Not Be Completed Before First of July.

Washington, May 21.—The cancellation of the promotions of over 3,000 postoffice clerks throughout the country recently authorized by the department, and a formal notice to former First Assistant Postmaster General Perry S. Heath of the charges made against him by ex-Cashier S. W. Tulloch, of the Washington city postoffice, constituted the developments in the postoffice investigation. First Assistant Postmaster General Wynne reported to Postmaster General Payne that the tabulation of the clerks in each grade in postoffices of the first class had been completed. This work was undertaken in accordance with the order made by the postmaster general to rearrange the salaries of the clerks already classified so that the number in the several grades shall not exceed the number specifically prescribed in the act of congress making appropriations for the postal service. The former classification was made by George W. Beavers just prior to his sudden resignation as chief of the division of salaries and allowances.

The new schedule approved by the postmaster general after transferring 5 per cent from grades where there are vacancies, as authorized by a recent decision of the comptroller of the treasury, makes it necessary to cancel 3,046 promotions in the several grades in which there is an excess above the number to which the grades are limited by law, and in which grades 7,412 promotions have been authorized heretofore. The report says: "It will not be necessary in any case to reduce any clerk, but simply to cancel 3,046 out of 7,412 promotions heretofore authorized to take effect July 1, 1903. We will proceed at once to ascertain exactly the number of promotions in each grade it will be necessary to cancel at each postoffice and then will inform the postmasters and allow them to select the increases which must be cancelled."

Most of the excesses in the number in the respective grades of clerks scattered throughout the United States at first-class presidential offices are in the \$900 and \$1,000 per annum classes.

The postmaster general sent to Mr. Perry Heath a copy of the charges filed by Mr. Tulloch, together with a letter requesting any information he may care to submit on the subject.

This is the first official communication with Mr. Heath during the investigation. None of the supplemental answers to the postmaster general's letter giving the more definite allegations of Mr. Tulloch have yet been received by Mr. Payne. Auditor Castle, of the postoffice department, was busy reviewing the records of his office in connection with the Tulloch charges and will submit his reply to the postmaster general in the afternoon, with a request that they be given publicity in view of the publications of the charges. Captain Castle will confer with Comptroller of the Treasury Tracewell, who also is preparing a reply to the Tulloch allegations.

The end of the investigation is not yet in sight. Fourth Assistant Postmaster Bristow, who is conducting the work, has not set any date for the submission of his report for the reason that the sweeping nature of the investigation has made it impossible to indicate when the whole matter will be ready to be placed in the hands of the postmaster general for final disposition. It is probable that the report will not be submitted before the close of June or the early part of July.

Leader of Gang Arrested.

Newark, N. J., May 21.—Samuel Temple, who says his home is in Montana, was arrested on a charge of having blown open the safe of the Catasauqua Steel and Iron company, at Catasauqua, Pa., and stolen \$1,000 worth of platinum. The booty is said to have been recovered. The police say Temple is the leader of a gang of safe crackers that has been operating in Pennsylvania, Virginia and West Virginia.

Well-Known Printer Dead.

WORKS OF ART IN A LOCAL CAFE

Wonderful Transformation at the Manzanella.

Beautiful Oil Paintings to Adorn the Walls—Other Handsome and Tasteful Decorations.

The Manzanella cafe and bar on Diamond street, of which A. R. Guthrie is proprietor, long one of the most popular places of the kind in the city, will soon be made more attractive than ever. When extensive improvements which are now in progress are completed, former patrons will scarcely be able to recognize the place. Mr. Guthrie, determined to have not only the best, but the handsomest cafe in the city, now has a force of men at work completely renovating the interior, and the improvements will extend to every nook and corner.

First of all, every room in the place is to have its walls adorned with fine oil paintings of great size and beauty. These pictures will be copies of celebrated paintings, and being made by artists of skill and experience, will be genuine works of art. East Liverpool has nothing to match them, and few if any of the larger cities have anything finer. Besides the paintings on the walls, the ceilings are to be exquisitely decorated with beautiful designs, and flooring, walls and ceilings will be finished in appropriate and tasteful tints. Mr. Guthrie, who has many years' experience as an art decorator in local potteries, is supervising the work, and it is needless to say that everything will be harmonized and beautified in genuine artistic style.

The woodwork will be tastefully painted, new and handsome lamps and other equipments, both useful and ornamental, will be supplied and the whole establishment brightened up to look as if everything were absolutely new. When the changes now under way are effected the Manzanella will have no superior in East Liverpool or in Eastern Ohio.

Mr. Guthrie has had years of experience as a caterer, and his many patrons are well aware that there is nothing which they are likely to call for that his house cannot supply, and that the goods sold, whether foreign or domestic, are of the highest quality, served promptly and in the best of style. Under the new order of things the Manzanella will be more than ever first class in all respects—the cafe and bar par excellence of the city—and the favorite resort of those who, when in quest of food or refreshing drinks, are satisfied with nothing but the best.

The board of public safety made it apparent at its first meeting that it is a business body and proposes to look after city affairs solely on business principles. Its determination to have a strict enforcement of all ordinances that relate to the police and firemen will meet with universal approval. The ordinances were made with the expectation that they should be enforced, and if their strict application works hardships or injustice, it will be an easy matter to secure the repeal of those that are objectionable. They should, however, first be given a thorough trial. Ordinances will doubtless be found, the enforcement of which has never been attempted, and the very existence of which is known to but few people. Whether they are useful or useless can only be determined by giving them an impartial test. The public safety board can make itself a very important and influential factor in the city government, as the new code plainly designs that it should be. That the board is entering upon its duties with the determination to perform them well and faithfully is a most encouraging indication. Success to its efforts.

The Cuban republic is celebrating the first anniversary of its independence. President Palma says the people amidst their happiness do not forget how much they are indebted to the American people for the noble share they took in gaining freedom for the island. This is doubtless true of

all intelligent and progressive Cubans. Even the rest will come to see in time that no nation ever made the sacrifices for another that the United States made for Cuba.

According to report the Blackburn heirs, who are numerous in Ohio and Pennsylvania, have put themselves to a good deal of trouble and expense in the hope of securing a \$70,000,000 fortune, which is now said to be a myth. This is the usual history of American attempts to claim real or imaginary fortunes. It is usually found upon investigation that the army of claimants is mustered and encouraged by unscrupulous attorneys, who hope to get fat fees while the "heirs" get left.

When the state of Ohio was born it had less than 50,000. Now its population is nearly 4,500,000 and its growth in all the other essentials of greatness has more than kept pace with its advancement in this respect. There is abundant reason for making the centennial celebration now in progress at Chillicothe a grand affair.

General O. O. Howard thinks he can put a stop to the feudal wars of Kentucky by personal appeal. It is suggested that the general carry a mountain howitzer as a gentle persuader and a bowie or two for use in case there should be a request for arbitration.

Automobiles are becoming almost as common as other vehicles on East Liverpool streets. So far they have refrained from following the fashion of the city-style outfits and creating almost daily excitement by running away.

The army board has declared in favor of the new service rifle for use in the United States army. This new arm was evolved by army officers, and is believed to be the most powerful one in the world.

If Tillman and Bryan keep on pitching into Grover Cleveland they will eventually succeed in restoring a great deal of the popularity once enjoyed by the ex-president.

Under the new code the policeman's lot is not a happy one. So far, however, he is resigned rather than resigning.

THE PITTSBURG TORIES

All Were Not Patriots in Early History of Western Pennsylvania.

NUMBER STILL LOYAL TO KING

Secret Meeting Place at House of Captain McKee, Where McKees Rocks Now Stand—Three Notorious Tories Called Pittsburgh Home.

Western Pennsylvania gave men freely to the cause of liberty in Revolutionary days, especially in the ranks of the Eighteenth Pennsylvania infantry. In later times of public danger freedom from the forks of the Ohio were never wanting when called for, so that the patriotism of Pittsburgh and vicinity has become proverbial in the nation. This being true, it is all the more startling to know that Pittsburgh furnished in 1778 three of the most noted Tories and renegades ever known, and that these were the leaders of others less famous, but not less infamous, who under cover of night fled to the western frontier and became even more desperately cruel against their own flesh and blood than were their naturally savage allies.

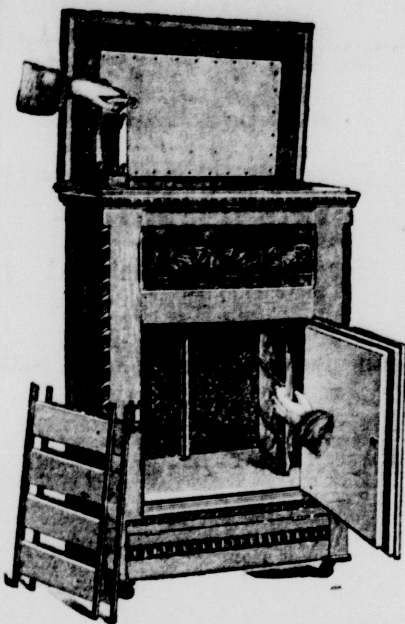

The winter of 1777-8 was a dark time for the American cause. Reverses were many and encouragements few. Numbers of men who had no heart in the revolutionary struggle began to feel that there was small hope of patriot victory and to look with more and more of open favor on the king's cause. On the frontier at Pittsburgh there were numbers of such Tories, both in the fort and in the town. In the early spring of 1778 a British spy from Detroit ventured into the town and worked successfully for some time fomenting treason and scattering offers of reward for defection. There was in Pittsburgh at that time a park known as the King's Orchard, or the King's Artillery Gardens. Its name was more pretentious than the park itself, but it was used by the forces as a place for flying a little while a British flag, their boldest act. These gardens lay along the Allegheny river front for some distance above Fort Pitt, where now is Duquesne Way. The work of propagating Toryism was also carried on at Redstone Old Fort, now Brownsville, the royal flag flying there unmolested all through the winter of which we now write.

As there were a goodly number of Tories about Pittsburgh they selected the house of Captain Alexander McKee, deputy Indian agent, a man of ability and prominence, as their secret meeting place. This was situated on the farm of fourteen hundred acres which Colonel Bouquet had given him in 1764 at the mouth of Chartier's creek, the place now known as McKees Rocks. It has stood until the present day. Here by twos and threes, or in full company at night, the men who thought to trim their course to the more favoring wind met and plotted. The three leaders in this movement were Alexander McKee, Matthew Elliott and Simon Girty, names which soon became the synonyms for cruelty, strife, trouble and worse than the bitterness of death to the suffering frontier which they ravaged till in 1794 Wayne's victory at Fallen Timbers ended their long and bloody reign as scourges of the back settlements.

At this time McKee was on parole not to hinder the patriot cause. General Hand, at Fort Pitt, finally became exasperated and ordered him to report to the American authorities at York. This he avoided doing for some time, pleading sickness. At length the general sent soldiers to his house to arrest him on Sunday morning, March 29, but they could not find him. The previous night, he, Elliott, Girty and four others had fled. Thus from Pittsburgh went out the men whose very names became a hissing in the mouths of their own people. They made their way to the Delaware Indian towns, and finally under escort reached the British post at Detroit, where Governor Hamilton gave the three leaders commissions in the British service. Girty's brother, James, joined the party in the Shawanese country and took a full share in the deviltries of the awful years which followed.

When this party went away the trouble was not yet all over. McKee and his conspirators had found a number of sympathizers among the soldiers of the Thirtieth Virginia regiment, in garrison at Fort Pitt. On the night of April 20 a party of about 20 of them deserted the fort and fled in a boat down the Ohio after finding themselves unable to execute their plan for blowing up the works. They were pursued and overtaken near the present city of Marietta. Eight got to shore and plunged into the forest and were never heard of again. Several were killed. The others were brought back to Fort Pitt and court-martialed. Two ringleaders were shot and one was hanged, and two others of the party were given a hundred lashes well laid on. The executions took place on the parade ground of the fort, about where now is that portion of Penn avenue opposite the mouth of Fort street. Amid the dingy surroundings of this spot to-day there is little to suggest the tragic grimness of that other day when those unhappy men gave their lives as forfeits in the game of treason and desertion.

A letter written "Apr. 26th, 1778," by Colonel John Proctor to the president of the Pennsylvania council, gives a more than usually interesting contemporary view of the events narrated in this sketch. He writes as one who loved his country better than he knew his spelling book: "Sir, I am able to inform you that Capt. Alex-

under McKee with seven other villains is gone to the Indians, and since there is a Serjt and twenty odd men gone from Pittsburgh of the Soldiers. What may be the fate of this country God only knows, but at Present it wears a most Dismal aspect." Had Colonel Proctor been able to foresee the next 16 years of border desolation to be caused by the Girtys and the rest of this precious crowd, he would scarcely have been content with calling them "villains."

C. L. SMITH.

AN OHIO POCAHONTAS.

Victim Saved from Torture by Dusky Belle of the Forest.

Captain John Smith, of Virginia fame, was not the only American pioneer who won the heart of an Indian maiden and was by her saved from a horrible death. The same thing happened to a young man on the Ohio frontier in 1791, but he never wrote an account of his adventures, and so the story is found only by an occasional deliver into the musty records of the old frontier.

In the year mentioned General Arthur St. Clair set out from Fort Washington, now Cincinnati, to relieve the fortunes of the Americans after Harmer's terrible defeat of the previous year. Though cautioned repeatedly by Washington to avoid certain fatal blunders, somehow this army succeeded in committing some of them, and suffered a disastrous rout. Two of St. Clair's soldiers, young men from the Ohio frontier, were captured and carried by the Indians clear from the southwest corner of Ohio to the north-east corner, to the spot where afterwards was founded the settlement now known as Conneaut. There they were compelled to run the gauntlet, receiving severe punishment. This cruelty did not satisfy the savagery of their captors. A council was held, which decided that the captive named Fitz Gibbon should be adopted into the tribe, while the other unfortunate, whose name the legends do not preserve, should be burned to death. The reason for this distinction does not now appear in any record, but it seemed good to the redskins. They set up a stake, tied the victim to it, and piled the wood about him. Just as the fire was about to be kindled a young squaw, in whose eyes the white prisoner had found favor, interposed in his behalf. Her love made her bold to face the decision of the solemn tribal council. She pleaded her cause with such eloquence that she obtained a respectful hearing. She pressed her advantage, and offered as a ransom several valuable packages of furs and a sum of money. After many expostulations this brave girl won her point, paid the ransom and carried off her captive in noble triumph. Sad it is that her name, and that of the object of her affections, are lost to history. And equally so that the last acts of the drama have never been recorded. One can at least hope that such sacrificing devotion as hers was properly appreciated, and that this nameless Pocahontas was never made to suffer the pangs of ingratitude. She is worthy of as great fame as her Virginia sister.

C. L. SMITH.

Her Reason.

Dr. Porter had responded to a note left at his door by a farmer asking him to go as soon as possible to see his little boy, who had "a very bad cold."

The doctor took one look at the child and turned to the mother.

"Don't you know your boy is coming down with measles?" he asked severely.

"Yes, doctor, I knew he was," said the woman.

"Then what in the world did you mean by writing me he had 'a very bad cold'?" asked the doctor.

The woman hesitated for a moment, then, looking at her husband, she said, with sullen frankness, "Neither him nor me knew how to spell measles."

Waterspout Ruins Crops.

Omaha, May 21.—A waterspout broke in the valley of the Papio river, 20 miles west of this city, and in a few minutes the little stream was a raging torrent from half to three quarters of a mile wide. Great damage was done to the growing crops. Hundreds of acres of corn, wheat and oats have been washed out of the ground. The damage to crops is estimated at \$100,000. The Union Pacific, the Burlington and the Missouri Pacific roads each lost several hundred feet of track. Plattsburgh farther down the Papio, was a heavy sufferer. The flood entered the town through a deep ravine and swept down the main street, flooding basements and running through stores. The damage will approximate \$75,000.

"In the Good Old Summer Time."

Butte, Mont., May 21.—Ten feet of snow is reported from Douits, Mont., and the thermometer is ranging from 4 to 6 degrees below zero. Traffic on the Great Northern railway is seriously interfered with by the drifting snow and the trains are being operated only under the greatest difficulty. Conservative estimates place the loss of stock at about \$2,000,000 and the number of head of stock lost is figured at about 90,000. The Missouri river is rising rapidly and ranchers are leaving their lowlands in anticipation of disastrous floods.

Crazed Mother's Awful Deed.

Allentown, Pa., May 21.—After placing her two youngest children, Edna, aged 3, and Roy, aged 1, in bed, Mrs. Elvin Bachman, of Slatington, near here, killed them by cutting their throats and then committed suicide by slashing her own throat. She used her husband's razor in committing the deed. Mrs. Bachman was about 40 years of age. For some time she has been melancholy. Her husband was at work when the crime was committed and her other five children were at school.

WELLSVILLE

ALL OF NEVADA STREET

To Eighteenth Street May Be Purchased and Occupied By the Railroad.

The Cleveland & Pittsburgh railroad has always been very quick to make repairs but there is a case in the West End where this rule has not been followed. A week or ten days ago the high board fence at the east end of Nevada street was knocked down by a car running into it. Hereafter this fence has always been kept in good condition, but as yet no move has been made to repair this damage. Ever since the company has been talking of enlarging its yards, and purchased the western side of Nevada street for that purpose, the residents of the eastern side of the street have been working hard to keep the company from laying any more tracks over Eighteenth street.

A person living on the eastern side of that street stated yesterday that he had heard it was the intention of the company to purchase all the property as far as Eighteenth street. Those in the employ of the company will neither affirm nor deny the report.

SUIT OVER RENT

Results in Verdict for the Defendant. West End Saloon Bone of Contention.

The case of W. C. Connors, of Wellsville versus the Crocker City Brewing company, of East Liverpool, was heard yesterday before Squire A. G. McKenzie. The suit was over the vacation of property owned by Mr. Connors but leased to the brewing company. The property is in the West End and was formerly occupied by Gus Schlotfeld and is now occupied by Wilfred Ross.

Mr. Connors claimed that the lease had been violated, as Schlotfeld did not pay the rent regularly. The brewing company deposited the amount, \$150 of the back rent, with the court. At 1 o'clock the case was left in the hands of the jury and after being out about three hours it returned with a verdict for the defendant, the plaintiff to stand the costs.

The jury was composed of four members, Charles Cummins, J. N. McLean, Edward Whitten and George Wells. Judge P. M. Smith appeared for the defendant and W. F. Lones for the plaintiff.

The trouble occurred in David's saloon.

Bating a Prickly Pear.

My first sad experience of the African prickly pear was gained on a visit to the market place of Algiers.

The fruit was handed to us, politely peeled by the Arab dealer, and thus as we made acquaintance with its delightful coolness no suspicion of its evil qualities entered our minds.

A few days later, adding the excitement of a little trespassing to the more legitimate pleasures of a country ramble, we came upon a well laden group of prickly pear bushes and could not resist the temptation to help ourselves to some of the fruit. The result was woeful.

Concentrated essence of stinging nettles seemed all at once to be assailing hands, lips and tongue, and our skin, wherever it had come in contact with the ill natured fruit, was covered with a thick crop of minute, bristly hairs, apparently growing from it, and venomous and irritating to the last degree.

Our silk gloves, transformed suddenly into miniature robes of Nessus, had to be thrown away, perfectly unwearable, and the inadvertent use of our pocket handkerchiefs before we had fully realized the extent of our misfortune caused fresh agonies, in which nose as well as lips participated. For many a day did the retribution of that theft haunt us in the form of myriads of tiny stings.—Home Life on an Austrian Farm.

The Invention of the Piano.

The honor of inventing the piano is claimed by the English, the French and the Germans. Father Wood, an English monk at Rome, is said to have been the real inventor in 1711 and to have manufactured one, which he sold to Samuel Crisp, the author of "Virginia," from whom it was purchased by Falke Greville, though Count Carl claims the credit for Bartholomew Christoforic of Padua during his stay in Florence some three years later (1714). The French attribute the invention to a Parisian named Marinus, who, they alleged, produced in 1716 a harpsichord in which hammers had been substituted for the old plectrums or quills. The Germans are the last in the field with J. C. Schroder of Dresden, who claimed (1717), when eighteen years of age, to have "constructed after much consideration the model of a new clavichord with hammers, upon which he could play loudly or softly."

BUILDING WORK

BRISK IN CHESTER

The Only Drawback Has Been Inability to Get Material Promptly.

Building operations have been more brisk than at present in Chester. There is one great drawback, and it has been felt for several months. The inability to have lumber and other building materials on the ground when they are needed has handicapped every contractor in the town throughout the entire season.

Finley Bros. are the most important and the largest contracting firm in the city, and many of their jobs have been held back on account of the railroad company's inability to have the shipments arrive promptly when they are needed. There have been several instances of late where the delay has worked a downright hardship. Shipment after shipment has been lost during the past few weeks, and contracts being fulfilled by Finley Bros. at the park and at other points have been delayed.

Building materials have been ordered in plenty of time and the shippers have been prompt in getting them off, but almost invariably the cars have been lost in transit. Several cars are at present on the road and nothing can be learned as to their whereabouts. One consignment in particular is that of an order of shingles which were shipped from Cleveland more than two weeks ago. The firm in need of the supplies were informed that the cars had left Cleveland, but since that time no trace of them could be found. The railroad company has shown as much interest in the matter as could be expected, but has been powerless so far to afford the relief desired. The failure to receive the order has caused the contractors a great deal of annoyance and has been the means of losing considerable time, but it seems there is no relief in sight.

CHESTER CAPITALISTS

Interested in New Trust Company Which is to Build at New Cumberland.

A number of Chester capitalists are interested in the new building to be erected by the New Cumberland Trust and Savings company in the Hancock county capital soon.

The company was formed some time ago, and since that time has been prospering beyond the expectations of the most sanguine. It was recently decided to construct a building and the plans have already been accepted. The work will begin within a few days. The Keystone bank of Pittsburgh is the real backer of the enterprise, and several Chester capitalists are financially interested.

The structure will be of brick, three stories high, and will contain business rooms on the first floor and offices above. It is expected the building will be entirely completed this summer.

Lecture Postponed.

The lecture, "The Size of a Man," which was to have been given at the M. E. church, Chester, by Dr. M. B. Pratt, has been postponed until Monday evening, May 25.

Murder Suspected.

Brooklyn, May 21.—A woman of about 40, whose body was found by the crew of the yacht Constitution at the foot of Fifty-seventh street, is believed to have been murdered. The body had been in the water only a few hours, but the right arm is severed from the body and there is a lone deep wound on the right side of the abdomen.

Presbyterian General Assembly.

Los Angeles, Cal., May 21.—Commissioners to the Presbyterian general assembly who have arrived spent the day in a quiet campaign for the several candidates for moderator. Indications are that Rev. Robert Coyle, D. D., of Denver, will succeed Rev. Henry Vanduyke in the highest office of the general assembly.

Refugees Enter Bulgaria.

Sofia, Bulgaria, May 21.—Large numbers of refugees from Macedonia, fearing massacre, are entering Bulgaria, especially from the direction of Adrianople. They tell terrible stories of Turkish violence wreaked on Christians.

Driven Out of Town.

Fremont, O., May 21.—John Dixon, colored, was driven from town by a mob. Dixon had been employed at the Clauss shear plant and did not go out when the strikers did. His wife and children escaped the fury of the mob by going to jail.

Pretoria, May 21.—The first British Transvaal parliament was opened by Sir Arthur Lawley, lieutenant governor of the Transvaal.

Her Plan.

"I intend," she said, "to give in charity as much as I spend on dress. It's such a grand idea, so embodying."

"It's a good plan," he admitted. "I think you spend too much on dress anyway."

"What's that got to do with it?" she demanded.

"Why, you'll divide your wardrobe money, won't you?"

"Certainly not. I expect you to double it."

Canada's Woods.

The impression that British North America is covered with valuable timber is fallacious. Black walnut, red cedar and white oak are not found north of Toronto. A line drawn from the city of Quebec to Sault Ste. Marie will designate the northern limit of beech, elm and birch. The north shore of Lake Superior will mark the northern boundary of sugar hard maple.

Ancient.

Robson found Smith engaged in vigorously polishing his shoes. "What are you doing that for?" he asked. "I always thought you wore patent leather."

"These used to be patent leather," replied Smith, painfully bringing his spinal column into its normal position, "but the patent on them has expired."

Its Exclusiveness Its Charm.

"What is the object of your society?" said the serious little woman.

"Why," answered Miss Cayenne, "the same as that of any other society—to enjoy the satisfaction of knowing that there are a lot of people who want to get in and can't."—Washington Star.

Her Answer.

"What kind of letter did your husband write when he was away?"

"He started 'My Precious Treasure' and ended by sending love."

"How did you answer?"

"I started with 'My Precious Treasurer' and ended with 'Send me \$20.'"

CONFEDERATE VETERAN REPLIES

Refusal of Association to Participate in Memorial Exercises Brings Letter from Clement Evans.

Columbus, O., May 21.—Relative to the action of the Hilltop Improvement association in refusing to participate in the memorial exercises at the Confederate cemetery at Camp Chase near Columbus, Clement A. Evans, commander of the Georgia divisions of the United Confederate Veterans, has written to President W. B. Potts, of the Hilltop association, saying:

"I write merely to say to you that this action and the inflammatory speeches made by some members of the association do not lessen the appreciation by the surviving soldiers of the Confederate army of the fraternal attentions which have been annually shown to the graves of the Confederate dead at Camp Chase, nor arrest the high purpose of the southern soldiers and people to maintain the terms of honorable surrender and to unite with all true patriots of our country in all efforts to achieve the greatest glory."

Imprisonment Sentence Suspended.

Springfield, Ill., May 21.—Clarence H. Vanner, the Boston banker, brought to the office of the clerk of the United States circuit court the books of the water works corporations, for failure to produce which he had been adjudged in contempt of court and fined \$1,000 and costs and sentenced to six months in jail. Judge Humphrey entered an order that having paid the fine imposed and produced the books and documents in question he had to that extent purged himself of contempt of court and ordered that the execution of the sentence of imprisonment be suspended.

Harriman Undergoes Operation.

New York, May 21.—E. H. Harriman was successfully operated on for appendicitis.

CONFERENCE OF CLASS PEOPLE

Jobbers Recommend Purchase of 300,000 Boxes of Window Glass—Manufacturers Will Confer.

Cleveland, May 21.—As the result of a conference between representatives of the American Window Glass company and representatives of the principal jobbers throughout the country, the jobbers have recommended that 300,000 boxes of window glass be purchased at an advance of 5 per cent over the last purchase. This is in accordance with a proposition made by the manufacturers. The manufacturers have adjourned and the jobbers will take definite action on the purchase of the 300,000 boxes of glass. The matter is in the hands of the executive committee of the jobbers.

Representatives of the plate glass manufacturers are coming to town for a conference with the jobbers.

Trade conditions in plate glass are said to be unstable and important action is looked for in this branch of the trade.

Killed Brother in Self-Defense.

Middleboro, Ky., May 21.—Lee Turner, of the "Quarterhouse," where several were recently killed, on Tuesday shot and killed his half brother, "General" Turner at Jacksboro, Campbell county, Tenn. It is claimed that he acted in self-defense. "General" Turner has been in the Jonesboro jail for some time and Lee refused to bail him out. This infuriated the "general" and when he was released he attacked Lee. Lee returned the attack with nine bullets from his rifle, each one finding its mark. Lee killed John Turner, a cousin, in self-defense a year ago.

Thousands of Free Railroad Rides.

Two or three thousand coupons entitling the holders to round trips over the C. & P. to the new town of Ambridge, the spot in Beaver County where the American Bridge Company is building the largest finished product plant in the world, were received in East Liverpool and Wellsville yesterday and last night from Pittsburgh—the first step by the promoters of the project for a new city for Beaver county, in a remarkable real estate movement. The tickets are to be given away for the asking to residents of the two cities, who are asked to inspect what is claimed to be the finest city site now unoccupied along the Ohio valley, on land held jealously for years by the Economy Society. The present sale of Ambridge lots, and the free excursion into Beaver county Saturday, will be the first formal opening of the ancient society's great tract. Tickets are good on two regular trains each way, and an announcement of the excursion is printed on another page of this issue.

FOR YOUR VACATION TRIP

The Yellowstone Park, the nation's playground, is larger than the state of Delaware and nearly twice as large as Rhode Island. As in size it exceeds all other national parks of the world combined, so in grandeur and scenery it is unequalled. Here are located the eight great geysers of the world. Mount Washburn, one of the peaks in the park, has an altitude of 10,338 feet. The whole park is an area of wonders unparalleled. It is from 1,000 to 5,000 feet above the level of the sea and is therefore within the zone of two seasons.

But to really know this wonderland you should take a trip through there. You cannot spend a vacation season more profitably or more pleasantly. The Chicago, Milwaukee & St. Paul railway offers choice of routes to and from Yellowstone Park. If you are interested, complete information about the cost of the trip, choice of routes, train service and tickets will be furnished on request.

WELLSVILLE HITS

Zanesville Administers Another
Defeat, the Score Standing
6 to 3.

SOME FINE PLAYING DONE

Pitchers in Particular Did Excellent
Work—Wellsville Is Steadily Im-
proving—Last Game of the Series
Will Be Played Today.

The Wellsville boys went down to a second defeat yesterday afternoon at Central park. The Zanesville team proved to be too much for them. The one great trouble with the home team was that though it hit the ball, it could not hit safe. About every hit was in the air and the ball was haunted in by the fielders. Both teams played fine ball, especially the pitchers, who did excellent work.

The visitors clinched the game in the second inning. Two men went to first on errors, one on a dead ball and three on hits. Four runs were scored in this inning. Zanesville made one in the first, but failed to score again till the sixth, when one more came in, making six.

The home team made neither hit nor run until the sixth. Two men went to first on balls then Heckathorn punched out a two bagger, sending two men across the plate. In the eighth one more run was made, but after that they got no further than second.

After the second inning the home team got down to hard work and certainly did some great playing. The visitors played a superb game all the time.

Phil. McShane gave both sides about even decisions and very few kicks were made.

These two teams meet again today for a third and last time. Wellsville keeps playing a little better each day and if the boys keep it up today's game will be the most interesting of the series.

MALEY PITCHED

SHUTOUT GAME

Until the Ninth Inning He Had Given
But Two Hits and Not a Man Got
Farther Than First Base.

The following from the Morgantown Evening Post relative to the game played by the Grove City and Morgantown in which Larry Maley, of this city, pitched under the name of Cunningham, will be of interest to local fans.

There is always something interesting doing in the ninth inning when Grove City and West Virginia meet on the diamond. It is usually something that tickles the Varsity fans. Saturday was no exception to the first rule, but a radical departure from the tradition No. 2. The ninth inning was all Grove City's. Up to that time not one of the Pennsylvanians had been able to get farther than first base, and only two had astonished the fellows by reaching the bag. The

score was nine to nothing, and Cunningham had a clean shutout served up in that bag ready to transport down town. 'Pop' Shriver had already marked three big goose eggs with his heel in the dust around home plate, and Groninger was handling chunks of consolation to the G. C. crowd from third base. He had already retired one man by a neat catch. Then something happened. Kenney let one get away. Parinton missed two chances to retire the side. Cunningham threw the ball away, and Grove City bunched three hits. When it was all straightened out again Grove City had tallied three runs. It was one of those unfortunate, unavoidable things that will happen now and then in a base ball game, and is really funny. No one had any kick coming. The victory was a good, clean one to be proud of.

The Varsity played one of the prettiest games up to that ridiculous ninth inning ever seen on the local diamond. Their fielding was almost perfect. Not a man passed first base. They hit well and their base running was good to look at. The whole team behaved like a bunch of pennant winning professionals. Coach Hutchinson was very much pleased with the showing made by all the players.

Cunningham pitched a shutout game, allowing only two hits until the ninth inning when the visitors got three, after the side ought to have been retired. Viebaum, the Grove City man, was very wild. He was hit hard, and gave no less than 8 passes to first.

The score by innings:

Morgantown	0	0	1	3	0	0	2	x	9	7	4
Grove City	0	0	0	0	0	0	0	3	—	5	5

CAPT. REARK UNABLE

TO SIGN A TEAM

Players to Be Permanently on the
Team Not Chosen Yet—Full Line-
Up to Be Secured Next Week.

Not until the middle of next week will Capt. Reark have a permanent lineup arranged. He has been working incessantly to have the entire team, the one that he intends to buck all comers with during the entire season, signed up and under his management today but was unable to get word to some of them in time. Before Saturday evening it is expected that quite a number of foreign players will be in the city. Capt. Reark having sent nine word to come on trial.

From the bunch he will pick the number he needs and send the rest back home. He is running a league of his own, he says, and as all big leagues give players a chance he is going to do the same. Though he expected to have a good second baseman signed several days ago, the man he was counting on, Heffelfinger, of Bucyrus, did not show up and another will have to be chosen. The lineup for this afternoon's game will consist of the following: Peiper, catcher; Good, pitcher; Wallace, first base; Hudson, second base; Davis, third base; Gibson, short stop; Brown, left field; Reark, middle, and Emmerling, right field.

Hudson is from Cleveland and has an excellent reputation. If he makes good he will stay for the season. He has a partner who is also being counted upon. Good is of the Leetsdale team and it will also be an endeavor to keep him. He is said to be a good fielder.

The lineup for tomorrow's game will be rather mixed up. Peiper will play at first; Emmerling will catch; Webb will play in right field and several other changes are likely. No word has yet been received from McLain, of Kiskiminetus college. He is wanted badly to go against the Cuban X Giants on Monday. If he does not come Reub Canaday, working in a meat market on West Market street, will pitch the game. He has been warming up considerably of late and will be given a trial in the near future. In his day he was the dandy and has yet lots of speed.

HORSE SELLS FOR \$60,000

Hermis, the Champion Three-Year-Old
of 1902, Brings Big
Price.

Hermis, the champion three-year-old of 1902, has been sold by L. V. Bell, of New York, to Edward R. Thomas, son of the late General Sam Thomas, the most recent newcomer on the turf. The price paid by Mr. Thomas is reported to be \$60,000.

The price paid for Hermis is possibly the largest ever realized for a horse in training in the United States. It was said that the late Marcus Daly paid \$60,000 for Hamburg. Afterwards it was declared that the actual price was \$50,000. This would make the price paid by Mr. Thomas the largest in the history of the American turf. The sale was arranged at Morris Park when Mr. and Mrs. Thomas saw Hermis work a mile trial in 1:44.

L. V. Bell purchased Hermis last August at Saratoga for about \$20,000, and on the same day won the Travis stakes with him. The colt won ten consecutive races for Mr. Bell, and at the close of the season was regarded by every turf expert as the best horse in training, an opinion afterwards confirmed by the official handicapper, who allotted the horse top weight, 127 pounds, in the Brooklyn and Suburban handicaps. H. M. Ziegler, the Cincinnati turfman, who sold Hermis to Mr. Bell, paid \$3,500 for him.

Hermis is entered in all the big stakes in the east.

BOYS OF P. A. C.

WANT GAMES

They Issue a Bold Challenge to All
Teams in Their Class and Will
Play for Love or Money.

Manager Strove and Capt. Davidson, of the recently organized P. A. C. team announced that their aggregation can defeat any amateur team in the city and they are very desirous for a game. They are especially anxious to get a rap at the Shirt Waist, Hollenden or Belmont team. They will play for love or money, on any ground.

The lineup is as follows: Mountford, catcher; Smith, pitcher; McHenry, first base; Robinson, second base; Bridge, third base; Strove, left field; Pusey, middle field; Anderson, right field, and Davidson, short stop. The team has played for several years

and is well onto the game. They no doubt will give any team of their class a hard tussle.

Bruno A. C. Team.

The manager of the Bruno Athletic club ball team, of Wellsville, gave out the following lineup for this season: Culbertson, c.; Bray and Knox, p.; Bunting, s.; Heakin, 1.; Estep, 2.; Whalen, 3.; Berg, m.; McFall, r.; Thorn, l. Each of the boys puts up a fast game and has had a great deal of practice. The Brunos had a football team last fall that was defeated but once and they mean to have even a better record in base ball. The schedule is partially made out and several strong teams will have an opportunity to down this aggregation. Two or three practice games will be played with the Wellsville city team. All correspondence should be addressed to E. G. Heakin, Wellsville.

SPORTING MISCELLANY.

Homestead has won ten straight games.

Case school bids fair to lead in the intercollegiate race for the championship of Ohio.

Wheeling continues to lose in the Central league although her pitchers are doing well.

Alex Jones has been given his 10 days' notice of release by the Detroit American league club. He will likely return to Homestead.

Jockey Lawrence Barry, who was injured by the falling of Seminole in a hurdle race at Morris Park last Wednesday, died in Fordham hospital, N. Y. Barry was one of the best steeple chase riders in the country.

Billy Walsh, acting secretary of the St. Louis Browns, has tendered his resignation with the urgent request that it be accepted. It is stated that J. S. McNeil, base ball editor of the Post-Dispatch, will succeed Walsh as secretary.

Having about exhausted the drawing qualities of pugilists as theatrical stars, the managers are now taking to base ball heroes. William Garen, manager of Havlin's, has signed Rube Waddell to a contract for a tour next winter after the base ball season is over in the thrilling drama, 'The Stain of Guilt.'

OHIO'S CENTENNIAL

One Hundredth Anniversary of Admission to Union Being Celebrated.

CEREMONIES AT CHILLICOTHE

Governor Nash Presides and Addresses Are Made by Distinguished Citizens of the State—City Beautifully Decorated.

Chillicothe, O., May 21.—The centennial of Ohio's statehood was celebrated with all the ceremony made possible by the inhabitants of this ancient metropolis. The state made an appropriation and placed the Ohio Historical and Archaeological society in charge as an executive committee to act for the state centennial commission, which is composed of Governor Nash, General J. Warren Keifer, General Charles M. Anderson, General James Barnett, General B. R. Cowan, David S. Bray, R. W. Manly and Rush R. Sloane, but the "heat and burden" of the day of preparation fell upon Chillicothe. No detail of arrangement has been overlooked, and the city well comes with the loving hospitality of a proud mother, the children who flock to the ancient home. The two days' program consists of addresses on historical topics to be delivered in a great tent in the city park.

At 9 a. m. the first public act of the celebration took place in the common pleas courtroom, where a plaster medalion of Edward Tiffin, Ohio's first governor, was presented to the county. Miss Anna Cook, a great-granddaughter of the governor, unveiled the tablet, and Archibald Mayo made the presentation address.

Following came the set program for the day. Governor Nash presided. Mayor Yapple made the address of welcome and General J. Warren Keifer responded for the historical society.

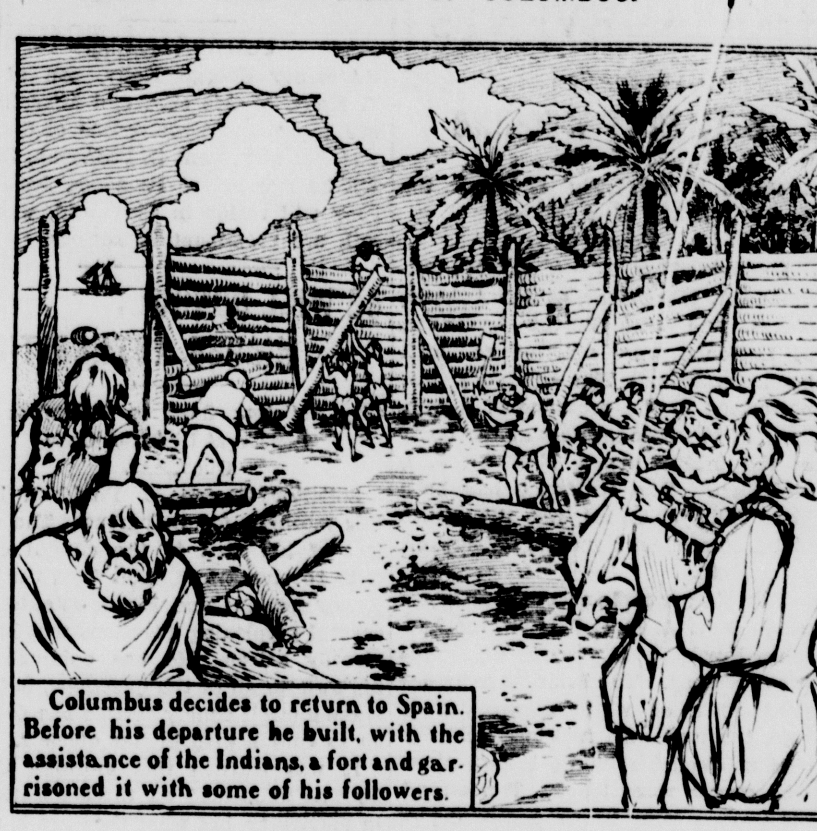

Governor GEORGE E. NASH.
Then followed the historical address by Hon. Judson Harmon, of Cincinnati; Prof. Martin B. Andrews, of Marietta; Judge Rush R. Sloane, of Sandusky; Judge M. M. Granger, formerly of the Ohio supreme court; General Thomas M. Anderson, Murat Halstead, Senator Foraker and General Charles H. Grosvenor.

The afternoon program was changed so as to bring forward the address of Mrs. J. R. Hopley, of Bucyrus, O. She spoke of the part taken by women in the history and development of Ohio. Her paper won the heartiest applause.

At night the speakers were Senator Hanna, on the "Industrial Progress of Ohio"; L. D. Bonebrake, Columbus; President W. H. Thompson,

THE TRAVELS OF COLUMBUS.

COLUMBUS DECIDES TO RETURN TO SPAIN. Before his departure he built, with the assistance of the Indians, a fort and garrisoned it with some of his followers.

FIND A CANNON AND HIDDEN INDIAN.

Columbus; General R. Brinkerhoff Mansfield, and General B. R. Cowen, of Cincinnati.

Senator Hanna's appearance was the signal for prolonged applause. He spoke briefly, referring to the industrial progress of Ohio, which, he said, had reached the point where Ohio had ceased to be an agricultural state and had become a mining and manufacturing community. This result had been reached by development of natural resources through Ohio energy. He prophesied still further prosperity, based on the splendid quality of Ohio men and on the success of the public schools.

The illuminations at night formed an attractive feature. An informal banquet was given after the close of the evening speech.

MACHINISTS STRIKE IN ST. LOUIS

Over Two Thousand Quit Work—Demand Increase, Which Was Refused.

St. Louis, May 21.—More than 2,000 machinists and members of kindred unions employed in about 175 shops in St. Louis, all members of the St. Louis Metal Trades' association which is allied to the International Association of Machinists, are on strike. The machinists demand an increase of 10 per cent in wages, while the brass workers ask for 16 2/3 per cent increase.

Negotiations have been in progress for six weeks between the employers and the unions. A 6 per cent increase was offered to the unions, but this was refused and the demand for 10 per cent was maintained. Efforts to arbitrate the disagreement failed and the strike resulted.

Should the strike prove as far-reaching and effective as union officials assert it will, and if it shall continue for any considerable length of time, every mechanical trade in St. Louis may become involved.

PROOF OF MURDER IS REVEALED

Body of Wealthy Farmer Found in Ohio River With Bullet Hole in Head.

Parkersburg, W. Va., May 21.—Proof of one of the most horrible crimes ever committed in the state was revealed when the body of George Lewis, a wealthy farmer of Great Bend, O., was found in the Ohio river near Midport, O., with a bullet hole in his head.

Lewis disappeared from Ravenswood, W. Va., on the night of Nov. 20, after an all night debauch with a gang of toughs of the town. Fifty dollars which the dead man had in his possession is missing and it is thought he was robbed, murdered and thrown into the river by his companions.

German Municipal Exhibition.

Dresden, May 21.—The king of Saxony opened the German municipal exhibition, which is the first of its kind ever held in the world. Exhibits from 128 cities are on show and over 300 manufacturers display articles employed in municipal work, street improvement, sewage systems, etc. The seaport towns have sent models of docks and harbor works, the display made by Hamburg being particularly interesting. Among other exhibits are plans of city halls, drainage systems, street car tracks and elevated railway systems, public parks, sewage farms, municipal slaughter houses and garbage crematories. The police section includes an exposition for the Bertillon anthropometric system. The exhibition generally affords excellent facilities for studying German municipal arrangements.

Steamer's Crew Take to Lifeboats.

Goderich, Ont., May 21.—A lamp exploded in the engine room of the steamer Pohl in the middle of Lake Huron. Fire followed and after fighting the flames for eight hours the crew of the vessel was driven to take refuge in the lifeboats. One boat was picked up by a rescuing party from shore and the others are being sought near the scene of the disaster. It is believed that all the crew are safe. The boat was bound for Owen Sound with coal.

Eminent Surgeon Dead.

Cape May, N. J., May 21.—Dr. Thomas G. Morton, aged 67 years, an eminent surgeon of Philadelphia died of cholera morbus, after an illness of two days.

EDITION DESTROYED

Report Printed of Condition of Jews in Russia Made Away With.

STARTLING STATEMENT MADE

Government's Edition Disappears and of Count Cassini Denounced as Untrue by Milwaukee Rabbi.

Milwaukee, May 21.—Dr. Walter Kempster makes the startling statement that a report which he made as a commissioner of the United States government, appointed to investigate the condition of the Jews in Russia at the time of the last exodus in 1891, and ordered printed by the congress of the United States, was suppressed and all of the government edition made away with and destroyed by the Russian representatives in Washington.

He said that he had received letters from United States senators and congressmen and officials of the government asking him where they could obtain copies of the report, but neither he nor they were able to fathom what had become of the government edition.

"The government ordered 10,000 copies printed and I ordered 160 for private use," said Dr. Kempster. "I received my 100 copies, but the government edition disappeared and no one to this day seems to be able to tell what became of it. I learned after the report was issued that it was substantially cabled to St. Petersburg as it had been printed in this country."

Dr. Kempster visited Europe after the publication of the report, and it was printed in London in the English, German and French languages there, and copies of it were sent by registered mail in separate packages from the London postoffice to the czar, to the heads of each of the departments of the government and to the governors of the provinces.

"Every one of these reports," said Dr. Kempster, "including the one sent to the czar, was returned to the London postoffice stamped 'forbidden.'"

Jews Cannot Own Land.

Milwaukee, May 21.—Rabbi Victor Caro, of Temple B'nai Shalom, Milwaukee, denounces as untrue the statements ascribed to Count Cassini, the Russian ambassador to this country, in which the count cites as the reason for the unfriendly attitude towards the Jews the fact that the Jews will not work in fields or engage in agriculture, but prefer to be money lenders.

"The Jews in Russia would gladly engage in agriculture," said Rabbi Caro, "but they are not permitted to do so. I have studied up these matters thoroughly and have received information directly from the newspapers of Germany, which are reliable."

"No Jew in Russia can own land. They are forced to belong to the 'paechter' class, or leasers of land, and for them to gain actual possession of farms or gardens is prohibited by the law of the land. The few colonies of Jewish agriculturists which have been established by philanthropists have been successful, and if the Jews were allowed to engage in agricultural pursuits the Jews of the world would pay millions and millions of dollars to buy them farms."

8,000 Persons Homeless.

Manila, May 21.—Two thousand native houses were destroyed by fire in the Tondo district of Manila. About 8,000 persons are homeless and are being sheltered by the municipality. The damage is estimated at 2,000,000 pesos.

Many Homeless in St. Hyacinthe.

St. Hyacinthe, Que., May 21.—A fire in the shoe factory of Cote brothers destroyed that and half a dozen other industries and 250 houses, leaving nearly a quarter of the city's population homeless. Loss \$400,000.

Mrs. Fairbanks tells how neglect of warning symptoms will soon prostrate a woman. She thinks woman's safeguard is Lydia E. Pinkham's Vegetable Compound.

"Ignorance and neglect are the cause of untold female suffering, not only with the laws of health but with the chance of a cure. I did not heed the warnings of headaches, organic pains and general weariness, until I was well nigh prostrated. I knew I had to do something. Happily I did the right thing. I took Lydia E. Pinkham's Vegetable Compound, faithfully according to directions, and was rewarded in a few weeks to find that my aches and pains disappeared, and I again felt the glow of health through my body. Since I have been well I have been more careful. I have also advised a number of my sick friends to take Lydia E. Pinkham's Vegetable Compound, and they have never had reason to be sorry. Yours very truly, MRS. MAY FAIRBANKS, 216 South 7th St., Minneapolis, Minn." (Mrs. Fairbanks is one of the most successful and highest salaried traveling saleswomen in the West.) \$5.00 for 100 if original of above letter proving genuineness cannot be produced.

When women are troubled with irregular, suppressed or painful menstruation, leucorrhoea, displacement, etc., remember, there is one tried and true remedy, Lydia E. Pinkham's Vegetable Compound.

Building Fired by Lightning.
Philadelphia, May 21.—One of the group of buildings of the George W. Blahon company, manufacturers of oilcloths, was destroyed by fire, entailing a loss of \$50,000. The fire was started by a bolt of lightning.

Albanian Chiefs Arrested.
Vienna, May 21.—It is reported from Mitrovitz that all the Albanian chiefs of that district have now been arrested and sent under strong escort to Constantinople.

In order to prove to you that Dr. A. W. Chase's Ointment is a cure for any form of itching, bleeding, or protruding piles, the manufacturers guarantee a cure. You can use it and if it does not cure you your money back. Mr. Casper Walton, laborer, Michigan City, Ind., says: "I work hard and lift a great deal. The strain brought on an attack of piles. They itched and they protruded and bled. Nothing helped them until I used Dr. A. W. Chase's Ointment. That cured them." 50c a box at all dealers, or DR. A. W. CHASE MEDICAL CO., Buffalo, N. Y.

Dr. A. W. Chase's Ointment. How To Tell A Swindle.

If a man tells you he can make 25 per cent out of your money for you and don't tell you how, set it down as a swindle. If he offers you something for nothing, set it down as a swindle. If he tells you he can cure you of disease, and don't tell you how, set it down as a swindle. If you will exercise your own judgment, your own reason—just use a little common sense at all times, it is the safest guide. We tell you Life Plant cures Rheumatism, Eczema, Catarrh, Asthma, Scrofula and all blood diseases, and we tell you why. It does it because it purifies the blood, drives out the impurities and thus removes the cause of disease. There is no other way. Now that's common sense. The blood is the life. Keep the blood pure, full of life, and the whole system will be renewed with new energy. Read this. It tells what Life Plant can do. It's from your neighbor:

Mr. J. C. Lukens, of Tippicanoe, Ohio, says: "I have been greatly relieved of Nervousness, Stomach and Kidney trouble by the use of Life Plant. As a family medicine to keep the blood in order and tone up the system and prevent sickness, I think it stands at the head of the list."

Life Plant Regens Life. An excellent tonic for the aged. It keeps the blood young, and insures a healthy and ripe old age. A whole month's treatment for \$1.00.

HE WILL CONSULT

HIGHER AUTHORITIES

City Solicitor Goes to Columbus to Get Legal Light on Code Questions.

Solicitor George E. Davidson left this morning for Columbus. The object of his visit to the capital city is to receive information from the attorney general and his assistants on several perplexing questions that have already arisen. He has opinions of his own on all of the questions, but to make himself doubly certain has decided to confer with higher officials.

It was learned this morning that he was undecided on three questions in particular, but what they are is not known. It is thought, however, that one of them is in reference to the appointment of John Wyman as chief of police and the others on technicalities pertaining to the city's finances.

The solicitor has certainly been having his troubles since the inauguration of the code, and his conservative opinions are to be commended. He answers few questions positively, simply stating his opinion. He realizes that many questions will arise and that no attorney in the country can give an off-hand answer correctly. He anticipates that scores of the code provisions will be carried to the supreme court for decisions, and it is the general opinion that within a year the code will be added to greatly by amended sections.

BRIGHT OUTLOOK

FOR UNION MEN

Continued from First Page.

was received from the painters, who could now see the end of their troubles. Several of the largest contracting concerns in the jurisdiction of the union had signed the scale, and at a conference arranged to take place tonight it was probable terms of settlement of the remainder would be determined upon.

So well had the teamsters succeeded in their efforts to better the conditions of their members that but three of the firms in the city hiring teamsters had to the present refused to come into the fold. These firms were, according to the report, standing in their own light, and would change their determination within a short time.

The laundry workers reported having difficulty with the management of the Enterprise laundry. They had refused to sign the scale, and though several members of the firm were also connected with the union, they had refused to insist upon the enforcement of the scale. The unionists of the city will withhold their patronage for the present. Meantime the grievance committee will act with the laundry workers, and it is probable the firm will be brought into line within a few days.

There was a sentiment among the members that the Labor day committee should be at work. This opinion was shared by both President Beatty and Secretary Reark. The latter gentleman has had a vast amount of experience in these matters, and thought the committee had already delayed too long in making a start. Unless the committee got down to business at once, he desired to be relieved from serving on it. A meeting had been arranged to take place in the ante-room of the hall on Friday evening at 8 o'clock.

The Persian Army.

The Persian army, according to Henry Savage Landor, the traveler, is a "painful sight," although there are some good Cossack cavalry which has been drilled by Russian officers. The infantry, however, is a ragged, lazy, shiftless lot. He asked permission to see the army drill. "We do not drill in summer; it's too hot," said the general. "Do you drill in winter?" "No; it's too cold." "Are the troops, then, only drilled in the autumn and spring?" "Sometimes. They are principally drilled a few days before the shah's birthday, so that they may look well on the parade day before his majesty."
